1.1 Status bar icons ⁽¹⁾

- Battery charge level**
- Vibrate alert:** your phone vibrates, but does not ring or beep with the exception of the alarm.
- Bluetooth status (Activated).**
- Bluetooth status (Connected to an audio device).**
- Java status (Activated).**
- Headset connected.**
- Keypad & LCD touch locked.**
- Keypad& LCD touch unlocked.**
- Call forwarding activated:** your calls are forwarded.
- Alarm or appointments programmed.**
- Level of network reception.**
- Wi-Fi connected.**
- Wi-Fi disconnected.**
- Voicemail message arrived.**
- Missed calls.**
- Stopwatch is active.**
- Radio is on.**

⁽¹⁾ The icons and illustrations in this guide are provided for information purposes only.

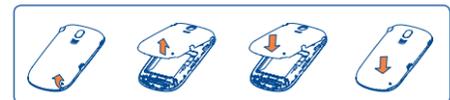

- WAP alerts ⁽¹⁾.**
- Roaming.**
- Memory card scanning in progress.**
- Memory card scanning completed.**
- SIM card unavailable.**
- Line switching ⁽¹⁾:** indicates the selected line.
- GPRS connection status (Activated).**
- GPRS connecting.**
- EDGE attached.**
- EDGE connecting.**
- Music player active.**
- Message receipt in progress.**
- Sending a SMS.**
- Sending a MMS.**
- Silence mode:** your phone does not ring, beep or vibrate with the exception of the alarm.
- SMS unread.**
- (In red) Message list is full:** your phone cannot accept any new messages. You must access the message list and delete at least one message on your SIM card.
- Flight mode.**
- A2DP connected.**
- Broadcast is on.**

⁽¹⁾ Depending on your network operator.

2 Getting started

2.1 Set-up

Removing or installing the back cover

Inserting or removing the SIM card

You must insert your SIM card to make phone calls. Please power off your phone and remove battery before inserting or removing the SIM card.

Place the SIM card with the chip facing downwards and slide it into its housing. Make sure that it is correctly inserted. To remove the card, press and slide it out.

Installing or removing the battery

- Insert and click the battery into place, then close the telephone cover.
- Unclip the cover, then remove the battery.

2.2 Power on your phone

Hold down the key until the telephone powers on.

2.3 Power off your phone

Hold down the key from the main screen.

2.4 Using the touchscreen

- Tap** To access an application, tap it with your finger.
- Drag** Place your finger on the screen to drag the object to the destination.
- Scroll** Slide the screen to scroll up and down the applications, images, web pages... at your convenience.

3 Making a call.....

Enter the desired number on the on-screen keypad directly or select a contact from Call log or Directory by tapping or respectively, then tap or press key to place the call. The number you entered can be saved to Directory by selecting . If you make a mistake, you can delete the incorrect digits by tapping .

To hang up the call, press the key.

4 Menu arrange

The main menu is designed to vary according to your preference. To access this function, select to enter the main menu, then tap .

Change the order

Access "Menu arrange", focus on the main menu item you want to move, and then tap "Options\Move", it will go to the main menu screen and tick "✓" will be shown on the main menu you selected, then release it to your favourite destination.

Show/Hide

Access "Menu arrange", tap the left check box of the selected menu once to show/hide, then tap "Options\Save" to save the operation.

Restore default

From main menu, select "Menu arrange", then tap "Options\Restore default settings" to return to the default menu display.

5 Messages

5.1 Conversational On (Off) mode

In conversational on mode, you can view chat history in chronological order. In conversational off mode, you may have access to the following folders: **Inbox, Outbox, Sent, Broadcast SMS, Voicemail, Drafts**, etc. You can switch between these two modes by selecting "Settings\Conversational mode\On (Off)". Conversational mode is set as the default mode and following instructions are based on this mode.

5.2 Create message

Select "Messages\Write msg" to create text/multimedia message. An SMS will be converted to MMS automatically when: images, videos, audio, slides or attachments are inserted; Subject, C/C/BCC/email address is added; or the message contains more than 8 pages of text.

Timer send

Schedule a SMS/MMS to be sent out at predefined time ("Option\Timer send").

6 Email

Your phone has an email client with the settings predefined for a few popular email services like - GoogleMail, Yahoo, AOL, etc. Besides this, you can set up other POP3 or IMAP4 email accounts that you may be using.

7 Palringo ⁽¹⁾

Palringo Instant messaging (IM) allows you to chat with other people using Palringo account. You can also connect to other popular IM services through Palringo, like Yahoo, AIM, GG, ICQ, GTalk, iChat etc. Please note that the services accessible to you will depend on your client version and dynamic Palringo server options.

8 Directory

8.1 Consulting your directory

To access the Directory, tap from tool bar on main screen, or select "Directory" from main menu.

8.2 Adding a contact

You can add a new contact by tapping .

Birthday reminder

You can set a birthday reminder when editing contact information. This will remind you at regular intervals during the day prior to the set date.

9 Call log

9.1 Access

You may access this function from the main menu "Call log" or by pressing from the main screen.

9.2 Available options

When you tap , you may have access to **Delete, Send message, Save to directory, Edit before call**, etc.

9.2.1 Billing ⁽¹⁾

You can access different items with this option: **Last call cost, Total cost, Max cost, Reset cost, Price per unit, Duration, GPRS counter, Beep duration**.

9.2.2 Call settings ⁽¹⁾

You can access a number of items with this option: **Call waiting, Call forwarding, Call barring, Caller ID, Line switching, Auto redial**, etc.

⁽¹⁾ Contact your network operator to check service availability.

10 Media applications

10.1 Music

To access this function, tap to enter the main menu and select . You will have full flexibility of managing music both on your mobile and memory card.

10.2 Image

A library links to the images in "My creations" in phone to be shown in list, slide, or thumbnail, set as Wallpaper, Power on/off display, and Contact ID, or sent by MMS, Email, Bluetooth.

10.3 Video

"My videos" album contains video clips recorded, received or downloaded. All video clips in this folder can be played, set as Power on/off display, sent, deleted, renamed, sorted.

10.4 Radio

Your phone is equipped with a radio ⁽¹⁾ with RDS functionality. You can use the application as a traditional radio with saved channels or with parallel visual information related to the radio program on the display if you tune to stations that offer Visual Radio service. You can listen to it while running other applications.

11 Internet ⁽²⁾

11.1 My friends

It migrates self-contained sub-trees of the websites to let you stay in touch with your friends by flicking through Bebo, Friendster, Hi5, Myspace, etc.

⁽¹⁾ The quality of the radio depends on the coverage of the radio station in that particular area.

⁽²⁾ Depending on your network operator. May cause additional network charges for data flow to provide this service. Extra fees might also be charged in roaming states.

11.2 Opera

Not only does Opera Mini give you the full Web experience where you stay in touch with your friends, obtain information, do your online banking etc., but it is also designed to save time by using compressed web pages.

11.3 Wap

Access Wap options: **Homepage, Bookmarks, Go to URL, Last web address, Recent pages, Offline pages, Service inbox, Settings**.

11.4 News

It is a huge time saver providing news updates from a website in a simple form. Once subscribed to a channel, it gives you the ability to track and manage all your favourite RSS content on your mobile phone at anytime, anywhere!

11.5 Weather

Your phone is equipped with a weather function for consulting up to 3-day forecasts of favourite cities.

11.6 Facebook

Facebook is a social utility that connects people with friends and others who work, study and live around them. It provides a number of features with which users may interact: Wall, a space on every user's profile page that allows friends to post messages for the user to see; Pokes, which allow users to send a virtual "poke" to each other; Gifts, a feature allowing users to send virtual gifts which appear on the recipient's profile; Market places, which lets users post free classified goods, etc. To open an account online, please go to: <http://www.facebook.com/>.

11.7 mTweet

Twitter is a social networking and microblogging service that has gained notability and popularity worldwide. This feature enables phone users to exchange news updates and ideas with a community in the form of messages or posts. Posts are displayed on the author's profile page and delivered to the author's subscribers or followers. To open an account online, please go to: <http://twitter.com/>.

12 Entertainment

12.1 Stopwatch

The stopwatch is a simple application for measuring time with the possibility to register several results and suspend/resume measurement.

12.2 Ebook

A bookshelf contains the electronic books (.txt and .pdb file only). While reading the book, you may add bookmark, or reach the text by searching words, phrases (Options\Find, Options\Jump to).

12.3 Java

Your Alcatel phone may include ⁽¹⁾ some Java™ applications and games. You can also download new applications and games to your phone.

13 Camera

Your mobile phone is fitted with a camera for taking photos and shooting videos that you can use in different ways:

- store them in your "File manager\My creations".
- send them in a multimedia message (MMS) to a mobile phone or an email address.
- send them directly by Email or Bluetooth.
- customise your main screen.
- select them as incoming call image to a contact in your directory.
- transfer them by data cable or microSD card to your computer.

⁽¹⁾ Depending on your network operator.

14 Profiles

With this menu, you may personalise ringtones for different events and environments.

15 File manager

You will have access to all audio and visual files stored in phone or memory card in File manager. You can access a number of items with this option: **My audios, My images, My videos, Ebook, My creations, Others, Phone, Memory card and Memory status**.

Inserting the memory card:

- Unclip the cover and gently push the MicroSD card into the slot.
- Unclip the cover and insert the memory card until unlocked. Take out your MicroSD card and clip the cover closed.

16 Bluetooth™

Access this feature by tapping to enter the main menu, then selecting "Bluetooth".

17 Wi-Fi

To access this function, tap to enter the main menu, and select .

⁽¹⁾ Depending on your network operator.

19 Settings

From the main menu, select the menu icon and select the function of your choice in order to customise your telephone: **Phone settings, Call settings, Security, Network, Connectivity.**

Touch settings

- LCD Touch Calibration** To calibrate the touch screen, tap anywhere on the screen to start calibration.
- Touch Vibration** When "On", the phone vibrates when the screen is touched.

Screen lock during call

Select "On"/"Off" to activate/deactivate screen lock during call.

20 Making the most of your mobile

PC suite

You can download software upgrade for free from the website.

Webcam

You can use your phone as a webcam for instant messaging on your PC.

21 Latin input mode

There are two text entry methods that can be used to write messages

- Normal:** this mode allows you to type a text by choosing a letter or a sequence of characters associated with a key.
- TouchPal mode:** This mode can perform predictive input on both hardware keypad and on-screen soft keypad, and supports multi-languages input.

Keyboard inputting

- Key:** Press once: Input a capitalized character
Press twice: Lock the keyboard in capital letter input mode
- FN Key:** Press once: Input a top-half character
Press twice: Lock the keyboard in top-half key input mode
- Key:** Short key press: Enter a space
Long key press: Access language list
Hold down FN key, then press space key to select input mode
- key:** Short key press: Delete one by one
Long key press: Delete all
- key:** Confirm an option
Enter the next line
- Key:** Enter a dot
Hold down Fn key, then press sym key to enter symbol table

Safety and use.....

We recommend that you read this chapter carefully before using your phone. The manufacturer disclaims any liability for damage, which may result as a consequence of improper use or use contrary to the instructions contained herein.

TRAFFIC SAFETY:

Given that studies show that using a mobile phone while driving a vehicle constitutes a real risk, even when the hands-free kit is used (car kit, headset...), drivers are requested to refrain from using their mobile when the vehicle is not parked.

When driving, do not use your phone and headphone to listen to music or to the radio. Using a headphone can be dangerous and forbidden in some areas. When switched on, your phone emits electromagnetic waves that can interfere with the vehicle's electronic systems such as ABS anti-lock brakes or airbags. To ensure that there is no problem:
- do not place your phone on top of the dashboard or within an airbag deployment area,
- check with your car dealer or the car manufacturer to make sure that the dashboard is adequately shielded from mobile phone RF energy.

CONDITIONS OF USE:

You are advised to switch off the telephone from time to time to optimise its performance.
Switch the phone off before boarding an aircraft.
Switch the phone off when you are in health care facilities, except in designated areas. As with many other types of equipment now in regular use, mobile telephones can interfere with other electrical or electronic devices, or equipment using radio frequency.
Switch the phone off when you are near gas or flammable liquids. Strictly obey all signs and instructions posted in a fuel depot, petrol station, or chemical plant, or in any potentially explosive atmosphere.
When the phone is switched on, it should be kept at least 15 cm from any medical device such as a pacemaker, a hearing aid or insulin pump, etc. In particular when using the phone, you should hold it against the ear on the opposite side to the device, if any.
To avoid hearing impairment, pick up the call before holding your phone to your ear. Also move the handset away from your ear while using the "hands-free" mode because the amplified volume might cause hearing damage.
Do not let children use the phone and/or play with the telephone and accessories without supervision.
When replacing the cover please note that your phone may contain substances that could create an allergic reaction.
Always handle your phone with care and keep it in a clean and dust-free place.

Do not allow your phone to be exposed to adverse weather or environmental conditions (moisture, humidity, rain, infiltration of liquids, dust, sea air, etc). The manufacturer's recommended operating temperature range is -10°C to +55°C. At over 55°C the legibility of the phone's display may be impaired, though this is temporary and not serious.
Emergency call numbers may not be reachable on all cellular networks. You should never rely only on your phone for emergency calls.
Do not open, dismantle or attempt to repair your mobile phone yourself.
Do not drop, throw or bend your mobile phone.
Do not point it.

Use only batteries, battery chargers, and accessories which are recommended by TCT Mobile Limited and its affiliates and are compatible with your phone model. TCT Mobile Limited and its affiliates disclaim any liability for damage caused by the use of other chargers or batteries.
Remember to make back-up copies or keep a written record of all important information stored in your phone.
Some people may suffer epileptic seizures or blackouts when exposed to flashing lights, or when playing video games. These seizures or blackouts may occur even if a person never had a previous seizure or blackout. If you have experienced seizures or blackouts, or if you have a family history of such occurrences, please consult your doctor before playing video games on your phone or enabling a flashing-lights feature on your phone.
Parents should monitor their children's use of video games or other features that incorporate flashing lights on the phones. All persons should discontinue use and consult a doctor if any of the following symptoms occur: convulsion, eye or muscle twitching, loss of awareness, involuntary movements, or disorientation.
To limit the likelihood of such symptoms, please take the following safety precautions:
- Do not play or use a flashing-lights feature if you are tired or need sleep.
- Take a minimum of a 15-minute break hourly.
- Play in a room in which all lights are on.
- Play at the farthest distance possible from the screen.
- If your hands, wrists, or arms become tired or sore while playing, stop and rest for several hours before playing again.
- If you continue to have sore hands, wrists, or arms during or after playing, stop the game and see a doctor.

When you play games on your phone, you may experience occasional discomfort in your hands, arms, shoulders, neck, or other parts of your body. Follow the instructions to avoid problems such as tendonitis, carpal tunnel syndrome, or other musculoskeletal disorders.
CAUTION: Prolonged exposure to music at full volume on the music player may damage the listener's hearing. Set your phone volume safely. Use only headphones recommended by TCT Mobile Limited and its affiliates.

PRIVACY: Please note that you must respect the laws and regulations in force in your jurisdiction or other jurisdiction(s) where you will use your mobile phone regarding taking photographs and recording sounds with your mobile telephone. Pursuant to such laws and regulations, it may be strictly forbidden to take photographs and/or to record the voices of other people or any of their personal attributes, and duplicate or distribute them, as this may be considered to be an invasion of privacy. It is the user's sole responsibility to ensure that prior authorisation be obtained, if necessary, in order to record private or confidential conversations or take a photograph of another person; the manufacturer, the seller or vendor of your mobile phone (including the operator) disclaim any liability which may result from the improper use of the mobile phone.
BATTERY: Before removing the battery from your phone, please make sure that the phone is switched off. Observe the following precautions for battery use:
- Do not attempt to open the battery (due to the risk of toxic fumes and burns).
- Do not puncture, disassemble or cause a short-circuit in a battery.
- Do not burn or dispose of a used battery in household rubbish or store it at temperatures above 60°C.
Batteries must be disposed of in accordance with locally applicable environmental regulations. Only use the battery for the purpose for which it was designed. Never use damaged batteries or those not recommended by TCT Mobile Limited and/or its affiliates.

This symbol on your telephone, the battery and the accessories means that these phones must be taken to collection points at the end of their life:
- Municipal waste disposal centres with specific bins for these items of equipment
- Collection bins at points of sale.

They will then be recycled, preventing substances being disposed of in the environment, so that their components can be reused.
In European Union countries: These collection points are accessible free of charge.
All phones with this sign must be brought to these collection points.
In non European Union jurisdictions: Items of equipment with this symbol are not to be thrown into ordinary bins if your jurisdiction or your region has suitable recycling and collection facilities; instead they are to be taken to collection points for them to be recycled.
CAUTION: RISK OF EXPLOSION IF BATTERY IS REPLACED BY AN INCORRECT TYPE. DISPOSE OF USED BATTERIES ACCORDING TO THE INSTRUCTIONS.

General information

- Internet address:** www.alcatel-mobilephones.com
- Hot Line Number:** see "TCT Mobile Services" leaflet or go to our Internet site.

On our Internet site, you will find our FAQ (Frequently Asked Questions) section. You can also contact us by e-mail to ask any questions you may have.

An electronic version of this user guide is available in English and other languages according to availability on our server:
www.alcatel-mobilephones.com

Your telephone is a transceiver that operates on GSM networks with 900, and 1800 MHz bands.

CE 1588

This equipment is in compliance with the essential requirements and other relevant provisions of Directive 1999/5/EC. The entire copy of the Declaration of Conformity for your telephone can be obtained through our website: www.alcatel-mobilephones.com.

Protection against theft ⁽¹⁾

Your telephone is identified by an IMEI (phone serial number) shown on the packaging label and in the phone's memory. We recommend that you note the number the first time you use your telephone by entering *#06# and keep it in a safe place. It may be requested by the police or your operator if your telephone is stolen. This number allows your mobile telephone to be blocked preventing a third person from using it, even with a different SIM card.

Disclaimer

There may be certain differences between the user manual description and the phone's operation, depending on the software release of your telephone or specific operator services.

15

22

22

Warranty

There are no express warranties, whether written, oral or implied, other than this printed limited warranty or the mandatory warranty provided by your jurisdiction.

In no event shall TCT Mobile Limited or any of its affiliates be liable for incidental or consequential damages of any nature whatsoever, including but not limited commercial loss, to the full extent those damages can be disclaimed by law.

Some countries/states do not allow the exclusion or limitation of incidental or consequential damages, or limitation of the duration of implied warranties, so the preceding limitations or exclusions may not apply to you.

Your phone is warranted against any defect which may occur in conditions of normal use during the warranty period of twelve (12) months ⁽¹⁾ from the date of purchase as shown on your original invoice.

Batteries ⁽²⁾ and accessories sold with your phone are also warranted against any defect which may occur during the first six (6) months ⁽¹⁾ from the date of purchase as shown on your original invoice.

In case of any defect of your phone which prevents you from normal use thereof, you must immediately inform your vendor and present your phone with your proof of purchase.

If the defect is confirmed, your phone or part thereof will be either replaced or repaired, as appropriate. Repaired Phone and accessories are entitled to a one (1) month warranty for the same defect. Repair or replacement may be carried out using reconditioned components offering equivalent functionality.

This warranty covers the cost of parts and labor but excludes any other costs.

This warranty shall not apply to defects to your phone and/or accessory due to (without any limitation):

- 1) Non-compliance with the instructions for use or installation, or with technical and safety standards applicable in the geographical area where your phone is used,
- 2) Connection to any equipment not supplied or not recommended by TCT Mobile Limited,
- 3) Modification or repair performed by individuals not authorised by TCT Mobile Limited or its affiliates or your vendor,
- 4) Inclement weather, lightning, fire, humidity, infiltration of liquids or foods, chemical products, download of files, crash, high voltage, corrosion, oxidation...

Your phone will not be repaired in case labels or serial numbers (IMEI) have been removed or altered.

⁽¹⁾ The warranty period may vary depending on your country.

⁽²⁾ The life of a rechargeable mobile phone battery in terms of conversation time standby time, and total service life, will depend on the conditions of use and network configuration. Batteries being considered expendable supplies, the specifications state that you should obtain optimal performance for your phone during the first six months after purchase and for approximately 200 more recharges.

TRAFFIC SAFETY: Prolonged exposure to music at full volume on the music player may damage the listener's hearing. Set your phone volume safely. Use only headphones recommended by TCT Mobile Limited and its affiliates.

16

16

Troubleshooting

Before contacting the aftersales department, you are advised to follow the instructions below:

- You are advised to switch off the telephone from time to time to optimise its performance.
- You are advised to fully charge the battery for optimal operation.
- Avoid storing large amounts of data in your telephone as this may affect the performance of your telephone.

and carry out the following checks:

- My mobile phone will not switch on**
 - Press until the screen comes on
 - Check the battery charge level
 - Check the battery contacts, remove and reinstall your battery, then turn your telephone back on
- My phone has not responded for several minutes**
 - Press the key
 - Remove the battery and re-insert it, then switch the phone back on
- My screen is difficult to read**
 - Clean your screen
 - Use your mobile phone in accordance with the recommended conditions of use
- My mobile phone turns off by itself**
 - Check that your keypad is locked when you are not using your mobile phone
 - Check the battery charge level
- My mobile phone will not charge properly**
 - Make sure that your battery is not completely discharged; the battery charge indicator can take several minutes and may be accompanied by a quiet whistling sound
 - Make sure charging is carried out under normal conditions (0°C +40°C)
 - Make sure your battery is inserted. It must be inserted before plugging in the charger
 - Make sure you are using an Alcatel battery and charger in the box
 - When abroad, check that the electrical current is compatible

Unable to make outgoing calls
- Make sure you have dialled a valid number and press the key
- For international calls, check the country and area codes
- Make sure your mobile phone is connected to a network, and that the network is not overloaded or unavailable
- Check your subscription status with your operator (credit, SIM card valid, etc.)
- Make sure you have not barred outgoing calls

Unable to receive incoming calls
- Make sure your mobile phone is switched on and connected to a network (check for overloaded or unavailable network)
- Check your subscription status with your operator (credit, SIM card valid, etc.)
- Make sure you have not forwarded incoming calls
- Make sure that you have not barred certain calls

The caller's name does not appear when a call is received
- Check that you have subscribed to this service with your operator
- Your caller has concealed his/her number

The sound quality of the calls is not optimal
- You can adjust the volume during a call by means of the Volume key
- Check the network strength

I am unable to use the features described in the manual
- Check with your operator to make sure that your subscription includes this service
- Make sure this feature does not require an Alcatel accessory

When I select a number from my directory, the number is not dialled
- Make sure that you have correctly recorded the number in your file
- Make sure that you have selected the country prefix when calling a foreign country

17

17

My mobile phone will not connect to a network

- Try connecting in another location
- Verify the network coverage with your operator
- Check with your operator that your SIM card is valid
- Try selecting the available network(s) manually
- Try connecting at a later time if the network is overloaded

SIM card error

- Make sure the SIM card has been correctly inserted
- Verify with your operator that your SIM card is 3V or 1.8V compatible; the old 5V SIM cards cannot be used
- Make sure the chip on your SIM card is not damaged or scratched

Unable to make outgoing calls

- Make sure you have dialled a valid number and press the key
- For international calls, check the country and area codes
- Make sure your mobile phone is connected to a network, and that the network is not overloaded or unavailable
- Check your subscription status with your operator (credit, SIM card valid, etc.)
- Make sure you have not barred outgoing calls

Unable to receive incoming calls

- Make sure your mobile phone is switched on and connected to a network (check for overloaded or unavailable network)
- Check your subscription status with your operator (credit, SIM card valid, etc.)
- Make sure you have not forwarded incoming calls
- Make sure that you have not barred certain calls

The caller's name does not appear when a call is received
- Check that you have subscribed to this service with your operator
- Your caller has concealed his/her number

The sound quality of the calls is not optimal
- You can adjust the volume during a call by means of the Volume key
- Check the network strength

I am unable to use the features described in the manual
- Check with your operator to make sure that your subscription includes this service
- Make sure this feature does not require an Alcatel accessory

When I select a number from my directory, the number is not dialled
- Make sure that you have correctly recorded the number in your file
- Make sure that you have selected the country prefix when calling a foreign country

18

25

18

CHARGERS
Mains powered chargers will operate within the temperature range of: 0°C to 40°C.
The chargers designed for your mobile phone meet with the standard for safety of information technology equipment and office equipment use. Due to different applicable electrical specifications, a charger you purchased in one jurisdiction may not work in another jurisdiction. They should be used for this purpose only.

RADIO WAVES:

Proof of compliance with international standards (ICNIRP) or with European Directive 1999/5/EC (R&TE) is required of all mobile phone models before they can be put on the market. The protection of the health and safety for the user and any other person is an essential requirement of these standards or this directive.
THIS MOBILE PHONE COMPLIES WITH INTERNATIONAL AND EUROPEAN REQUIREMENTS REGARDING EXPOSURE TO RADIO WAVES.
Your mobile phone is a radio transmitter/receiver. It was designed and manufactured to comply with the radiofrequency (RF) exposure thresholds recommended by international requirements (ICNIRP) ⁽¹⁾ and by the Council of the European Union (Recommendation 1999/519/EC) ⁽²⁾. These limits are part of a set of requirements and establish authorized radiofrequency levels for the public. These limits were established by independent groups of experts on the basis of regular and detailed scientific assessments. They include a significant safety margin intended to ensure the safety of all, regardless of age or state of health.

The exposure standard for mobile phones is determined by a measurement unit known as the Specific Absorption Rate or "SAR". The SAR limit is set by international requirements or by the Council of the European Union at 2 watts/kilogram (W/kg) averaged over 10 grams of body tissue. The tests used to determine SAR levels were carried out on the basis of standard usage modes with the phones transmitting at their maximum power level over the entire range of frequency bands.
Although the SAR was established at the highest certified level, the actual SAR level for the mobile phone during use is generally much lower than the maximum values. In fact, since mobile phones are designed to operate at many different power levels, they only use the minimum level of power required to provide a connection to the network. In theory, the closer you are to a base station antenna, the lower the power level required by the mobile phone.
The highest tested SAR value for this mobile phone for use at the ear and compliance against the standard is 0.8 W/kg. While there may be differences between the SAR levels on various phones and at various positions, they all meet the relevant International guidelines and EU requirements for RF (radio-waves) exposure.

⁽¹⁾ The ICNIRP requirements are applicable in the following regions: Central America (except Mexico), South America, North and South Africa, Pacific Asia (except Korea), Australia.
⁽²⁾ The European recommendation (1999/519/EC) is applicable in the following regions: Europe, Israel.

I am unable to add a contact in my directory

- Make sure that your SIM card directory is not full; delete some contacts or save the contacts in the phone directory (i.e. your professional or personal directories)

My callers are unable to leave messages on my voicemail

- Contact your network operator to check service availability

I cannot access my voicemail

- Make sure your operator's voicemail number is correctly entered in "My numbers"
- Try later if the network is busy

I am unable to send and receive MMS

- Check your phone memory available as it might be full
- Contact your network operator to check service availability and check MMS parameters
- Verify the server centre number or your MMS profile with your operator
- The server centre may be swamped; try again later

The red icon is displayed on my standby screen

- You have saved too many short messages on your SIM card; delete some of them or archive them in the phone memory

"No service" is displayed

- You are outside of the network coverage area

I have already entered 3 incorrect PIN codes

- Contact your network operator to obtain the PLUK code (Personal Unblocking Key)

I am unable to connect my telephone to my computer

- Install first of all Alcatel's PC suite
- Use "Install the connection" and perform the installation
- Check that your computer meets the requirements for Alcatel's PC Suite installation

I am unable to download new files

- Check for free space
- Delete some files
- Select the MicroSD Card to store the files you downloaded
- Check your subscription status with your operator

The phone can't be detected by others via Bluetooth

- Make sure that Bluetooth is turned on and your mobile phone is visible to other users

The World Health Organisation (WHO) considers that present scientific information does not indicate the need for any special precautions for use of mobile phones. If individuals are concerned, they might choose to limit their own or their children's RF exposure by limiting the length of calls, or using "hands-free" devices to keep mobile phones away from the head and body (fact sheet n° 193). Additional information about electromagnetic fields and public health are available on the following site: <http://www.who.int/peh-emf>. Although no danger relating to the use of telephone was ever proved, the World Health Organisation advises as a precautionary measure to use your telephone with a good level of network reception as indicated on the telephone display (4 to 5 bars). It is also advised to keep the telephone, during communications, away from the belly of pregnant women and from the lower abdomen for teenagers. Your telephone is equipped with a built-in antenna. For optimal operation, you should avoid touching it or degrading it. As mobile devices offer a range of functions, they can be used in positions other than against your ear. In such circumstances the device will be compliant with the guidelines when used with headset or usb data cable. If you are using another accessory ensure that whatever product is used is free of any metal and that it positions the phone at least 2cm away from the body.

My mobile phone is frozen, can't power on

- Make sure your battery is not completely used up or damaged
- Remove your battery, remove your SIM card then reinstall them to power on again, if still does not work
- Hold down # key and press Power on/off key for a while to reset the phone

ALL User phone data: contacts, photos, messages and files, downloaded applications like Java games will be lost permanently.

How to make your battery last longer

- Make sure you followed the complete charge time (minimum 3 hours)
- After a partial charge, the battery level indicator may not be exact. Wait for at least 20 minutes after removing the charger to obtain an exact indication
- Switch on the backlight upon request.
- Extend email auto-check interval as long as possible.
- Update news, weather information upon demand manually or set its auto-check interval longer.
- Exit Java
