- be distracting. Make people you are talking with aware you are driving and suspend conversations that have the potential to divert your attention from the road.
- in the case of fire, traffic accident, or medical emergencies
- auto accident, a crime in progress, or a serious emergency where lives are in danger, call a local emergency number
- assistance number when necessary. If you see a broken-down vehicle posing no serious hazard, a broken traffic signal, a minor traffic accident where no one appears injured, or a vehicle you know to be stolen, call roadside assistance or another special, non-emergency number

### Proper care and use of your mobile device

## Keep your device dry

- electronic circuits.
- Do not turn on your device if it is wet. If your device is already on, turn it off and remove the battery immediately (if the device will not turn off or you cannot remove the battery, leave it as-is). Then, dry the device with a towel and take it to a service

Do not store your device on slopes

## Warning: Prevent electric shock, fire, and

Do not use damaged power cords or plugs, or loose electrical

Do not touch the power cord with wet hands, or disconnect the charger by pulling on the cord

Do not bend or damage the power cord

Safety precautions

Do not use your device while charging or touch your device

Do not short-circuit the charger or the battery

Do not drop or cause an impact to the charger or the battery

Do not charge the battery with chargers that are not approved

Do not use your device during a thunderstorm

Your device may malfunction and your risk of electric shock is

Do not handle a damaged or leaking Lithium Ion (Li-Ion)

For safe disposal of your Li-lon batteries, contact your nearest

#### Handle and dispose of batteries and chargers with care

- Use only Samsung-approved batteries and chargers specifically designed for your device. Incompatible batteries and chargers can cause serious injuries or damage to your device.
- Never dispose of batteries or devices in a fire. Follow all loca regulations when disposing of used batteries or devices.

- Never place batteries or devices on or in heating devices such as microwave ovens, stoves, or radiators. Ba
- explode when overheated. Never crush or puncture the battery. Avoid exposing the battery to high external pressure, which can lead to an internal short

### Protect the device, batteries, and chargers from damage

- · Avoid exposing your device and batteries to very cold or very
- Extreme temperatures can cause the deformation of the device and reduce the charging capacity and life of your device and
- Prevent batteries from contacting metal objects, as this can create a connection between the + and terminals of your batteries and lead to temporary or permanent battery damage
- Never use a damaged charger or battery.

circuit and overheating.

#### Caution: Follow all safety warnings and regulations when using your device in restricted areas

#### Turn off your device where prohibited

Comply with all regulations that restrict the use of a mobile device in a particular area.

#### Do not use your device near other electronic devices Most electronic devices use radio frequency signals. Your device

Avoid using your device within a 15 cm range of a pacemaker if possible, as your device can interfere with the pacemaker.

- If you must use your device, keep at least 15 cm away from the

Using your device in an aircraft is illegal. Your device may interfere

#### Electronic devices in a motor vehicle may malfunction due to the radio frequency of your device

Electronic devices in your car may malfunction due to radio frequency of your device. Contact the manufacturer for more

### Comply with all safety warnings and regulations regarding mobile device usage while operating a vehicle

While driving, safely operating the vehicle is your first responsibility. Never use your mobile device while driving, if it is prohibited by law. For your safety and the safety of others, practice good common sense and remember the following tips:

- Use a hands-free device.
- · Get to know your device and its convenience features, such as speed dial and redial. These features help you reduce the time needed to place or receive calls on your mobile device.
- · Position your device within easy reach. Be able to access your wireless device without removing your eyes from the road. If you receive an incoming call at an inconvenient time, let your voice mail answer it for you
- Let the person you are speaking with know you are driving. Suspend calls in heavy traffic or hazardous weather conditions Rain, sleet, snow, ice, and heavy traffic can be hazardous.
- · Do not take notes or look up phone numbers. Jotting down a "to do" list or flipping through your address book takes attention away from your primary responsibility of driving safely.
- Dial sensibly and assess the traffic. Place calls when you are not moving or before pulling into traffic. Try to plan calls when your car will be stationary. If you need to make a call, dial only a few numbers, check the road and your mirrors, then

# Do not engage in stressful or emotional conversations that may

- Use your device to call for help. Dial a local emergency number
- Use your device to help others in emergencies. If you see an
- Call roadside assistance or a special, non-emergency

- Humidity and all types of liquids may damage device parts or
- Liquids will change the colour of the label that indicates water damage inside the device. Water damage to your device can void your manufacturer's warranty.

#### Do not use or store your device in dusty, dirty areas Dust can cause your device to malfunction

### Do not store your device in hot or cold areas. Use your device · Your device can explode if left inside a closed vehicle, as the

- Do not expose your device to direct sunlight for extended periods of time (such as on the dashboard of a car).
- Store the battery at 0 °C to 40 °C.

#### Do not store your device with such metal objects as coins keys and necklaces

- Your device may become deformed or malfunction.
- · If the battery terminals are in contact with metal objects, it may cause a fire

### Do not store your device near magnetic fields

- Your device may malfunction or the battery may discharge from exposure to magnetic fields.
- Magnetic stripe cards, including credit cards, phone cards, passbooks, and boarding passes, may be damaged by Do not use carrying cases or accessories with magnetic
- closures or allow your device to come in contact with magnetic fields for extended periods of time.

#### Do not store your device near or in heaters, microwaves, hot cooking equipment, or high pressure containers

- The battery may leak.
- · Your device may overheat and cause a fire.

## Do not drop your device or cause impacts to your device

- · The screen of your device may be damaged.
- · If bent or deformed, your device may be damaged or parts may

### Do not use your device or applications for a while if the device is overheated

Prolonged exposure of your skin to an overheated device may cause low temperature burn symptoms, such as red spots and

### If your device has a camera flash or light, do not use a flash close to the eyes of people or pets

Using a flash close to the eyes may cause temporary loss of vision

#### Use caution when exposed to flashing lights

- While using your device, leave some lights on in the room and do not hold the screen too close to your eyes.
- Seizures or blackouts can occur when you are exposed to flashing lights while watching videos or playing Flash-based games for extended periods. If you feel any discomfort, stop using the device immediately.

#### Reduce the risk of repetitive motion injuries.

When you repetitively perform actions, such as pressing keys. drawing characters on a touch screen with your fingers, or playing games, you may experience occasional discomfort in your hands, neck, shoulders, or other parts of your body. When using your device for extended periods, hold the device with a relaxed grip. press the keys lightly, and take frequent breaks. If you continue to have discomfort during or after such use, stop use and see a

### Ensure maximum battery and charger life

- Avoid charging batteries for more than a week, as overcharging may shorten battery life.
- · Over time, unused batteries will discharge and must be recharged before use.
- Disconnect chargers from power sources when not in use. Use batteries only for their intended purposes.

#### Use manufacturer-approved batteries, chargers, accessories and supplies

 Using generic batteries or chargers may shorten the life of your device or cause the device to malfunction. · Samsung cannot be responsible for the user's safety when

using accessories or supplies that are not approved by

- Always turn the volume down before plugging the earphones into an audio source and use only the minimum volume setting necessary to hear your conversation or music.
- up in the headset. Avoid using head dry environments or touch a metal object to discharge static electricity before connecting a

Doing so may damage the device or cause explosion

Do not bite or suck on the device or the battery

· If children use the device, make sure that they use the device properly.

### When speaking on the device:

- Hold the device upright, as you would with a traditional phone
- · Speak directly into the mouthpiece.
- Avoid contact with your device's internal antenna. Touching the antenna may reduce the call quality or cause the device to transmit more radio frequency than necessary

### Protect your hearing and ears when using a headset

- · Excessive exposure to loud sounds can cause
- Exposure to loud sounds while driving may distract your attention and cause an accident.
- In dry environments, static electricity can build

#### Use caution when using the device while walking or moving Always be aware of your surroundings to avoid injury to yoursel

Do not carry your device in your back pockets or around

You can be injured or damage the device if you fall Do not disassemble, modify, or repair your device

- Any changes or modifications to your device can void your manufacturer's warranty. For service, take your device to a Samsung Service Centre
- Do not disassemble or puncture the battery, as this can cause

#### Do not paint or put stickers on your device Paint and stickers can clog moving parts and prevent proper

operation. If you are allergic to paint or metal parts of the product, you may experience itching, eczema, or swelling of the skin. When this happens, stop using the product and consult your

### When cleaning your device:

- · Wipe your device or charger with a towel or a rubber.
- · Clean the terminals of the battery with a cotton ball or a towel.
- · Do not use chemicals or detergents.

Do not use the device if the screen is cracked or broken Broken glass or acrylic could cause injury to your hands and face. Take the device to a Samsung Service Centre to have it

Do not use the device for anything other than its intended

Avoid disturbing others when using the device in public Do not allow children to use your device

Your device is not a toy. Do not allow children to play with it as they could hurt themselves and others, damage the device, or make calls that increase your charges.

- Install mobile devices and equipment with caution Ensure that any mobile devices or related equipment installed in your vehicle are securely mounted. Avoid placing your device and accessories near or in an air
- bag deployment area. Improperly installed wireless equipment can cause serious injury when air bags inflate rapidly. Allow only qualified personnel to service your device Allowing unqualified personnel to service your device may result

## in damage to your device and will void your manufacturer's

- Handle SIM cards or memory cards with care Do not remove a card while the device is transferring or accessing information, as this could result in loss of data and/ or damage to the card or device.
- Protect cards from strong shocks, static electricity, and electrical noise from other devices.
- Do not touch gold-coloured contacts or terminals with you fingers or metal objects. If dirty, wipe the card with a soft cloth.

Ensure access to emergency services Emergency calls from your device may not be possible in some areas or circumstances. Before travelling in remote or emergency services personnel.

## Keep your personal and important data safe

- While using your device, be sure to back up important data Samsung is not responsible for data loss.
- When disposing of your device, back up all data and then reset your device to prevent misuse of your personal information Do not distribute copyright-protected material

## Do not distribute copyright-protected material that you have recorded to others without the permission of the content owners.

Doing this may violate copyright laws. The manufacturer is not liable for any legal issues caused by the user's illegal use of copyrighted material

#### Specific Absorption Rate (SAR) certification information

Your device conforms to European Union (EU) standards that limit human exposure to radio frequency (RF) energy emitted by radio and telecommunications equipment. These standards prevent the sale of mobile devices that exceed a maximum expos (known as the Specific Absorption Rate, or SAR) of 2.0 W/kg. During testing, the maximum SAR recorded for this model was 0.866 W/kg. In normal use, the actual SAR is likely to be much lower, as the device has been designed to emit only the RF energy necessary to transmit a signal to the nearest base station By automatically emitting lower levels when possible, your device reduces your overall exposure to RF energy.

The Declaration of Conformity statement at the back of this

manual demonstrates your device's compliance with the Europea Radio & Terminal Telecommunications Equipment (R&TTE)

directive. For more information about the SAR and related EU standards, visit the Samsung website.

### Correct disposal of this product

(Waste Electrical & Electronic Equipment)

(Applicable in the European Union and other European countries with separate collection systems) This marking on the product, accessories or literature indicates that the product and its electronic accessories (e.g. charger, headset, USB cable) should not be

disposed of with other household waste at the end of

their working life. To prevent possible harm to the environment or human health from uncontrolled waste disposal, please separate these items from other types of waste and recycle them responsibly to promote the sustainable reuse of material Household users should contact either the retailer where they

purchased this product, or their local government office, for details of where and how they can take these items for environmentally

Business users should contact their supplier and check the terms and conditions of the purchase contract. This product and its electronic accessories should not be mixed with other commercia wastes for disposal

This EEE is compliant with RoHS.

human health or the environment.

## Correct disposal of batteries in this product

Samsung.

(Applicable in the European Union and other European countries with separate battery return systems) This marking on the battery, manual or packaging indicates that the batteries in this product should not be disposed of with other household waste at the end

To protect natural resources and to promote material reuse, please separate batteries from other types of waste and recycle them through your local, free battery return system

of their working life. Where marked, the chemical symbols Hg, Cd

or Pb indicate that the battery contains mercury, cadmium or lead above the reference levels in EC Directive 2006/66. If batteries

are not properly disposed of, these substances can cause harm to
