

TAP IN.

MOTOROLA **QUENCH**[™] with MOTOBLUR[™]

Downloaded from <http://www.gsmarc.com>

Congratulations

MOTOROLA QUENCH with MOTOBLUR

MOTOROLA **QUENCH** with MOTOBLUR is the first touch tablet with social skills.

- Streamlined messaging: Syncs messages, feeds and updates from your office to today's most popular social sites.
- Contacts connected: Contact updates are delivered automatically without you raising a finger.
- More Web: The enhanced browser lets you see more of the Web, while pinch-and-zoom and front-nav-pad features give you more control of it.
- Music connectivity: The music player directly connects online for instant music, such as Internet radio; Widgets and applications let you share preferences and see lyrics.

Caution: Before assembling, charging or using your phone for the first time, please read the important legal and safety information packaged with your phone. Once your phone is up and running, press Menu  > **Settings** > **About phone** > **Safety & regulatory** to read the full information.

More information

On your phone—Touch  > **Help Center**.

You can also flick your home screen left or right to see two widgets called **Getting started** and **Tips & tricks**. Touch them for helpful advice.

On your computer—Go to www.motorola.com/support/quench.

After you create a MOTOBLUR account, you can also log in and find help with MOTOBLUR: www.motorola.com/mymotoblur

So, whether you want to read, watch or play, we can help.

Your phone

* If you use a wired headset with built-in microphone, you'll need to use an OMTP (*Open Mobile Terminal Platform*) compliant headset such as the Motorola OH15. Look for the OMTP logo shown here, or go to www.motorola.com/wired for additional information.

When you turn your phone, the keypad adjusts for you.

To open the display keypad, touch a text field, or press and hold Menu.

To close the keypad, press Back.

Note: Your phone might look a little different.

Tip: To change the Notification LED, press Menu > **Settings > Display & security > Notification LED.**

Let's go

let's get you up and running

Assemble & charge

1 cover off

2 SIM in

3 battery in

4 microSD in
(already done)

5 cover on

6 charge up

Caution: Please read the battery use and safety text in the important legal and safety information packaged with your phone.

Tip: To save battery life, see “Battery tips” on page 23.

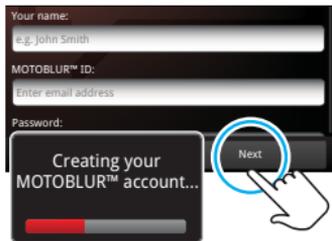

Set up & go

Create or log into a MOTOBLUR account to get your contacts, email, messages and status information, for all your accounts, all in one place, all the time. There’s more in “Your MOTOBLUR account” on page 10. Registration is secure and should only take a few minutes:

- 1 Turn on.
- 2 Select a language.
- 3 Register or log in.

If you have not created a MOTOBLUR account, you’ll need to register: Enter your name, your current email address (where MOTOBLUR can send account information), and a new MOTOBLUR password.

Tip: Turn your phone to type.

- 4 Let’s go

- 4 Add your accounts to MOTOBLUR.

To add an account, touch it. Then, enter the user name or email and password that you set up on that account.

Tip: For more, or to add accounts any time, go to “Add account” on page 10.

Turn it on & off

To turn on your phone, press Power (⏻) (on the right side).

To turn off your phone, press and hold Power (⏻), then touch **Power off** in the menu that appears.

Wi-Fi connect

If you want to use a Wi-Fi network for even faster Internet access, press Menu (☰) > **Settings** > **Wireless controls** > **Wi-Fi settings**. Touch **Wi-Fi** to search for and connect to wireless networks. There’s more in “Wi-Fi” on page 39.

Cool content & more

Browse and download thousands of the coolest apps on the planet from Android. On top of that, you get a full HTML browser, so you can surf in style.

Download new apps with “Apps for all” on page 37. Your phone comes with a microSD memory card installed—you can fill it with photos, videos and music from your computer using “Transfer files with a USB connection” on page 40.

Note: Do not remove your memory card while your phone is using it or writing files to it.

Security

Your contacts are backed up on MOTOBLUR, so don't worry. Even if you lose your phone, MOTOBLUR can help you find it or wipe it. When you receive your next MOTOBLUR product, your stored info makes it a breeze to set up with just a username and password.

Of course it doesn't stop there. There are plenty of ways to protect your phone and your information, in “Security” on page 44.

Touchscreen & keys

a few essentials

Touch tips

Here are some tips on how to navigate around your phone.

Touch

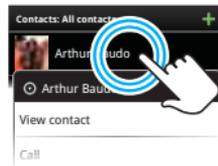

To choose an icon or option, *Touch* it. Try it: on the home screen, touch

 **Contacts.**

Touch & hold

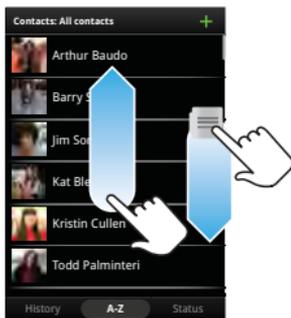

To open special options, *touch and hold* an icon or other item. Try it: on the home screen, touch  **Contacts**, then touch and hold a contact to open options.

Drag

To scroll through a list or move slowly, *drag* across the touchscreen. Try it: on the home screen, touch  **Contacts**, then drag your list up or down.

Tip: When you drag or flick a list, a *scroll bar* appears on the right. Drag the scroll bar to move the list to a letter A - Z.

Flick

To scroll through a list or move quickly, *flick* across the touchscreen (drag quickly and release).

Tip: When you flick a long list, touch the screen to stop it from scrolling.

Touch pad

You can use the touch pad to select small items in the display (like a small link on a Web page), or control a game without blocking your view. Just flick across the pad to scroll or move, and press the pad to select.

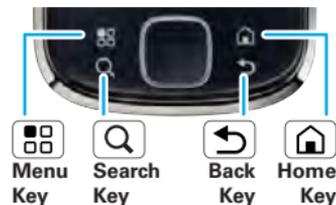

Key tips

Menu, home, search, & back

Press Menu  to open menu options on your home screen, lists and other places.

Press Home  to close any menu or app and return to the home screen. Press and hold Home  to show the last few apps you used, then touch an app to open it. On the home screen, press Home  to open or close the app menu.

Press Search  to open "Search" on page 8.

Press Back  to go to the previous screen.

Sleep & wake up

To save your battery, prevent accidental touches, or when you want to wipe smudges off your touchscreen, put the touchscreen to sleep by pressing Power . To wake up the touchscreen, just press Power , Menu , Search , Home , or Back .

To change how long your phone waits before the screen goes to sleep automatically, press Menu  > **Settings > Display & security > Screen timeout.**

Tip: To make the screen lock when it goes to sleep, use “Screen lock” on page 45.

Power key menu

Press and hold Power  to open the menu in which you can turn off the phone (**Power off**) or turn off features (**Flight mode, Bluetooth, Wi-Fi or GPS**).

Adjust volume

Press the volume keys to change the ring volume (on the home screen) or the earpiece volume (during a call).

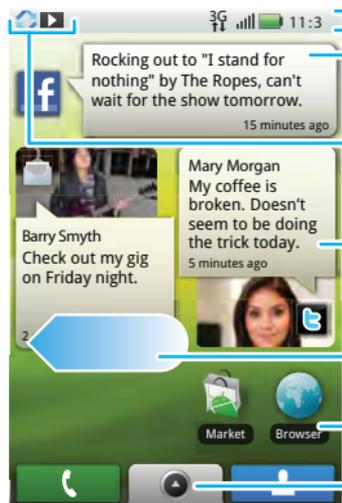

Home screen

quick access to the things you need most

Quick start: Home screen

The *home screen* gives you all your latest information in one place. It's what you see when you turn on the phone or press Home  from a menu. It's basically like this:

Status Indicators
Your Online Status
Touch to change your status.

Notifications
Click this bar down to see details.

Widgets
Touch to open, or touch & hold to move or delete.

Shortcuts
Touch to open.
Open the main menu.

Use & change your home screen

On your home screen, *shortcuts* are icons that let you open your favourite apps, web bookmarks, contacts, mail labels or music playlists. *Widgets* display news, weather, messages and other updates.

Flick the home screen left or right to open other *panels* of shortcuts and widgets.

- To **open** something, touch it. Press Home  to return to the home screen.
- To **change** a widget's settings, open it and then press Menu  > **Setup**.

You can find details about the settings for **Happenings** ("Add account" on page 10), **Messages** ("Set up messaging" on page 19), **Music** ("Music" on page 29), **Social status** ("Update your status" on page 10) or **News** or **Weather** ("Set up widgets" on page 24).

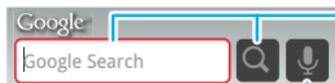

- To **add** something or change your wallpaper, touch and hold an empty spot until you see the **Add to Home screen** menu.

You can add a folder to organise your shortcuts.

- To **move** or **delete** something, touch and hold it until you feel a vibration, then drag it to another spot, another panel or the bin at the bottom of the screen.

Search

To search, use a Search widget on your home screen or press Search .

Type, then touch the icon for a text search.

Touch the icon, then speak for a voice search.

Tip: In your app menu or **Contacts**, you can press and hold Menu  to open a display keypad, then type contact details to search.

Phone status & notifications

At the top of the screen, icons on the left notify you about new messages or events (flick the bar down for details). Icons on the right tell you about phone status:

	Bluetooth™ active		network (full signal)
	GPS active		network (roaming)
	Wi-Fi active	G	GPRS (fast data)
	downloading	E	EDGE (faster data)
	vibrate	3G	3G (fastest data)
	silent		flight mode

	mute call		battery (charging)
	speakerphone active		battery (full charge)
	Google™ sync active		alarm set

Tip: To see today's date, touch and hold the status indicators.

App menu

Quick start: App menu

The app menu shows you all of your applications. To open it from the home screen, touch . To close it, touch  again.

Tip: To find an app in the menu, press and hold Menu  to open a display keypad, then type the app name.

Recent apps

Press and hold Home  to see the last few apps you used, then touch the app you want. Press Home  to return to the home screen.

Social networking

my life, your life

Your MOTOBLUR account

The first time you turned on your phone, you registered for a MOTOBLUR account that manages your messages, contacts and more (“Set up & go” on page 4). You can log into this account from a computer to upload contacts, reset your password, get help or even locate your phone:

www.motorola.com/mymotoblur

What is MOTOBLUR?

Only MOTOBLUR syncs contacts, posts, feeds, messages, e-mails, photos and much more—from sources like Facebook, Twitter, MySpace, your work e-mail, Picasa, Photobucket—and automatically serves it up just the way you want it. No opening and closing apps and menus, it’s all front and centre on your home screen and integrated throughout the entire phone so you can communicate anyway you like.

Update your status

After you add a social networking account, you can update and see your current status in a **Social status** widget on your home screen.

To update your status, just touch your **Social status** widget and enter text. If you have more than one account, you can use the pull-down menu to limit which accounts are updated. If you don’t see a **Social status** widget, flick your home screen left or right to check all panels.

To add a **Social status** widget:

- 1 Touch and hold an empty spot on your home screen to open the **Add to Home screen** menu.
- 2 Touch **Widgets** > **Social status**. The widget appears in the empty spot and will show your status the next time your phone updates from the network.

Add account

Note: You can add your **Facebook**, **MySpace**, **Twitter** or other accounts to your phone. If you don’t have accounts, you can visit their websites to set them up.

Find it:  >  **Accounts** > **Add account**

To sign into your account, use the user name or email and password that you set up on that account (the same as on your computer).

When you sign into social networking accounts, you’ll see your friends and contacts in your **Contacts** list. Your status and updates can appear in **Social status** and **Happenings** widgets.

Twitter and MySpace messages will always appear as “read” on your phone, but your phone notifies you when you receive a new message. MySpace marks your messages as “read” online.

For email accounts, see “Set up messaging” on page 19.

Tip: To download updates faster, use “Wi-Fi” on page 39.

View account updates & features

After you add a social networking account, you can see and respond to friends’ updates with the **Happenings** widget on your home screen. If you don’t see one, set one up in “Widgets” on page 24.

When you touch the **Happenings** widget to open an update, you can touch  to open the full update, then touch the social network’s icon to open its Web site.

Note: Your network or other factors might affect the speed of widget updates.

Edit & delete accounts

Find it:  >  **Accounts**

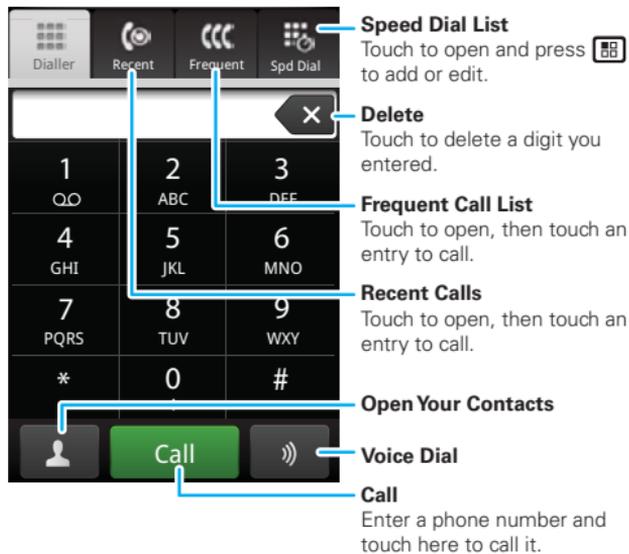

Touch and hold an account, then touch **Open account** to edit it or touch **Remove account** to remove it (along with the associated contacts and messages).

Calls

it’s good to talk

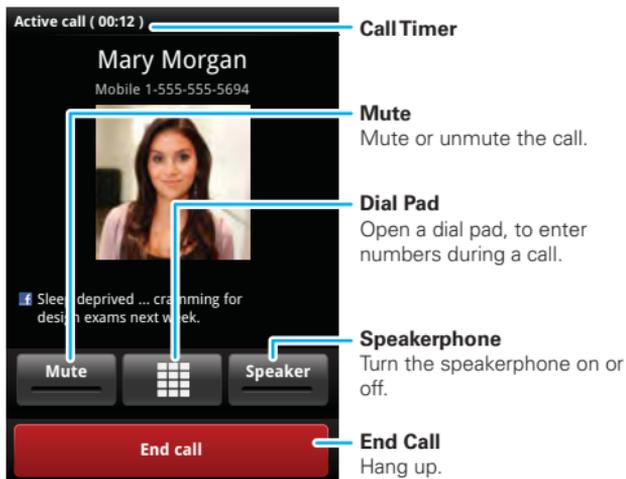

Quick start: Calls

Find it:  **Dialer**

During a call, press Menu  to choose **Hold**, **New call**, or **Use Bluetooth** or to wake up the touchscreen if it’s

dark. Your touchscreen goes dark to avoid accidental touches.

Tip: You can press Home or Back to hide the active call display. To reopen it, touch **Dialler**.

Make & answer calls

To make a call, touch **Dialler**, enter a number, then touch **Call**.

Tip: To enter the international dialling code, touch and hold . To add a pause or wait after numbers, press Menu .

To answer a call, drag **Answer** to the right (when your phone is unlocked, **Answer** is just a touch button).

You can also press Power to ignore the call, or press a volume key to silence the ring.

End calls

Touch **End call**.

Note: When you hold your phone to your ear, the display goes dark to avoid accidental touches.

When you move your phone away from your ear, the display lights up again.

Tip: You can press Home or Back to hide the active call display. To reopen it, touch **Dialler**.

Speed dial

Find it: **Dialler** > **Spd Dial**

- To call a number, touch it.
- To add, edit or clear entries, press Menu .

Hands-free

Note: Using a mobile device or accessory while driving may cause distraction and may be illegal. Always obey the laws and drive safely.

During a call:

- To use the speakerphone, touch **Speaker**.
- To use a Bluetooth™ device, press Menu  > **Use Bluetooth**.

Mute & hold

During a call:

- To mute the current call, touch **Mute**.
- To put a call on hold, press Menu  > **Hold**.

Enter numbers during a call

To enter numbers during a call, touch  and then touch the dial pad.

Recent calls

Find it:  **Dialler > Recent**

- To call a number, touch it.
- To send a text message, create a contact, view a contact, add the call to speed dial or other options, touch and hold an entry.

- To filter the list, touch the view name (like **All calls**) at the top.
- To clear the list, press Menu .

Frequent calls

Find it:  **Dialler > Frequent**

- To call a number, touch it.
- To send a text message, view a contact, add the call to speed dial or other options, touch and hold an entry.

Conference calls

To start a conference call, call the first number. After the person answers, press Menu  > **New call** and call the next number. When the next number answers, press Menu  > **Join**.

Your phone number

Find it: Menu  > **Settings > About phone > Status > My telephone numbers**

Your caller ID

To hide your number from the people you call, press Menu  > **Settings > Call settings > Additional call settings > Caller ID**.

Call forwarding & waiting

You can forward calls all the time, or only when your phone is busy, unanswered or unreachable (not on the network):

Find it: Menu  > **Settings** > **Call settings** > **Call forwarding**

When you're on a call and a second call comes in, **Call waiting** lets you answer it by touching **Answer**. You can turn off **Call waiting**, to send second calls straight to your voicemail:

Find it: Menu  > **Settings** > **Call settings** > **Additional call settings** > **Call waiting**

Restrict outgoing calls

To restrict your phone so that it can only dial a few numbers:

Find it: Menu  > **Settings** > **Call settings** > **Fixed Dialling Numbers**

- To turn fixed dialling on, touch **FDN disabled**.
- To add or delete allowed numbers from the list, touch **Manage FDN list**.

Emergency calls

Note: Your service provider programmes one or more emergency phone numbers (such as 000 or 112) that you can call under any circumstances, even when your phone is locked. Emergency numbers vary by country. Your pre-programmed emergency number(s) may not work in all locations, and sometimes an emergency call cannot be placed due to network, environmental or interference issues.

- 1 Touch  **Dialler** (if your phone is locked, touch **Emergency Call** or press Menu  > **Emergency call**).
- 2 Enter the emergency number.
- 3 Touch **Call** to call the emergency number.

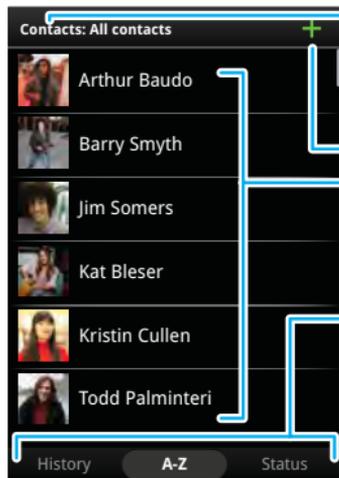

Note: Your mobile device can use AGPS satellite signals to help emergency services find you (see the important legal and safety information packaged with your phone).

Contacts

contacts like you've never had before

Quick start: Contacts

Find it:  **Contacts**

Group

Press Menu  to choose which group to show (like All, Favorites, or Facebook).

Create Contacts

Contacts List

Touch to view contact information. Touch & hold to edit, delete, and more.

Views

Touch a list view, or flick the display right or left to show:

History - recently used

A-Z - list without status

Status - list with status

Tip: To search the list, press and hold Menu  to open a display keypad, then type a name. When you flick or drag this list, a scroll bar appears on the right. Drag the scroll bar to move the list faster.

Call, text or email contacts

Find it:  **Contacts**

For **Call**, **Send text message**, **Email**, **View contact** or other options, touch and hold the contact.

View & use contacts

With a MOTOROLA **QUENCH** with MOTOBLUR, you'll know what everybody's up to and when. Every time you pick up a call, check a message or look up a friend's contact info: not only you'll see their name and number, but you'll see their social network status and smiling face, too.

Find it:  **Contacts**

- To filter the contacts by group (**All**, **Facebook** etc.), touch the filter name at the top.

Tip: To change which account provides the pictures for your **Contacts**, from the home screen press  >  **Accounts** > Menu  > **Picture source**.

- To change the list view, touch **History** (recently used), **A-Z** (list without status) or **Status** (list with status) at the bottom.
- To find a contact, just type the name.

Touch a contact to open their details. To start a call or compose a message, just touch their phone

number or other info. You can touch **History**, **Info** or **Happenings** at the bottom of the screen to see more.

Edit or delete contacts

Find it:  **Contacts**

Touch the contact, then press Menu  > **Edit** or **Delete**. You can set a ringer, address and other details that will be saved on your phone and your MOTOBLUR account.

Where are contacts edited or deleted? Your phone edits the contacts in its memory and also updates your MOTOBLUR account. Your changes won't affect your SIM card.

Link contacts

You might have two **Contacts** for the same person, maybe a Facebook friend who is also stored on your SIM card, or one friend with two email addresses. To combine these two contacts:

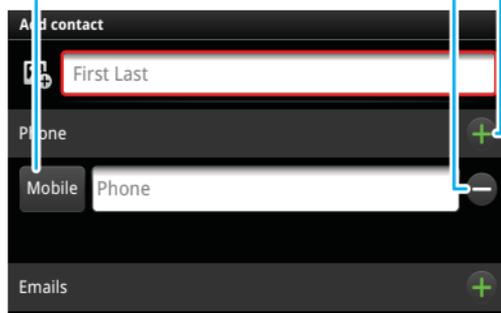

Find it:  **Contacts**

Touch a contact to open it, then press Menu  > **Link contact** and touch the second entry. Your MOTOBLUR account remembers this connection.

Create contacts

Find it:  **Contacts** > Menu  > **Add contact**

Touch **Mobile** to choose a different type for this entry. + adds another entry.
- removes this entry.

To see more details, flick up.

When you're finished, press Menu  > **Save**.

Where are contacts saved? Your phone saves new contacts in its memory, your MOTOBLUR account and other accounts you select: In **Contacts**, touch Menu  > **Settings** to choose which accounts get updated. New contacts won't be on your SIM card, but they will be downloaded to any new MOTOBLUR phone when you log into your MOTOBLUR account.

Synchronise contacts

When you change one of your **Contacts**, your phone automatically updates your MOTOBLUR account online. Your phone also updates your **Contacts** and MOTOBLUR account whenever you change a friend in your social networking accounts.

So you don't have to do anything to synchronise your **Contacts** with your other accounts! MOTOBLUR takes care of it for you.

My details

Find it:  **Contacts** > Menu  > **More** > **View my details**

To edit details, touch them.

Groups

You can put your **Contacts** into groups that you create (such as "friends", "family" or "work"). Then, you can find contacts faster by showing one group at a time.

To create a group in your **Contacts**, press Menu  > **Add group**. Enter a group name, then touch **Add** to add members.

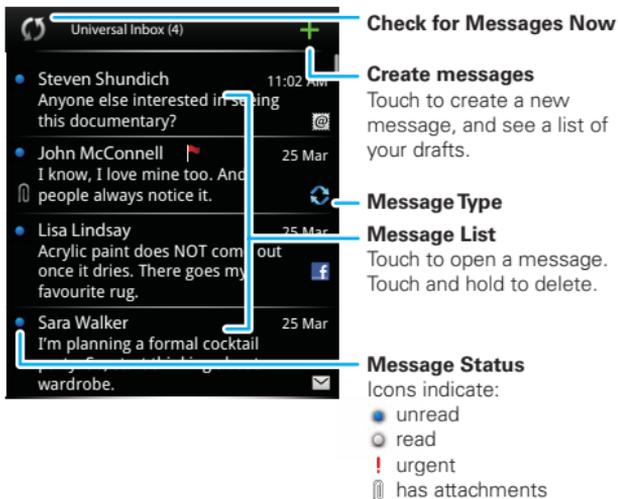

To show only one group in your **Contacts**, touch **Contacts** at the top of your screen and choose the group name.

Messaging

sometimes it's best to text, IM or email . . .

Quick start: Messaging

Find it:  >  **Messaging** > **Universal inbox**

Tip: To see more messages, flick or drag up.

Read & reply to messages

Every text, email, friend-feed, wall post and bulletin is automatically delivered to you. The best part is you don't have to dig through any apps, screens or

menus—every message streams right to the phone, viewable exactly the way you want.

Find it:  >  **Messaging** > **Universal inbox**

Note: **Universal inbox** shows all of your messages together—text, email and social networking messages. To show only one type of message, touch a message account type instead of **Universal inbox**.

- To **open a message** and all of its replies, touch it.
- To **respond** to a message, just open it and enter your response in the text box at the bottom.

To **forward** a text message, touch and hold a message in the conversation, then touch **Forward message**.

For email, touch  to choose a reply or forward option.

- To **open options**, touch and hold a message.

Tip: Try the **Messages** widget in “Widgets” on page 24.

Create messages

Find it:  >  > **Messaging** 

Choose a message type. Then, enter the recipient and message.

In text messages and emails, press Menu  to add files or choose other options.

Send & receive attachments

To send a file in a message, open a new message, press Menu , and choose the file.

When you receive a message with an attachment, open the message and touch the file name to download it. Then, touch the name again to open it. Some file formats can be converted to HTML for faster viewing. Your phone will show a button that says **Get HTML version**.

Tip: To send and receive large attachments faster, use a Wi-Fi connection, in “Wi-Fi” on page 39.

Set up messaging

To add email accounts, press  >  **Accounts** > **Add account**.

- **Corporate Sync** is for Exchange server work email accounts. Enter details from your IT administrator.

Tip: You might need to enter your domain name with your username (like *domain/username*)

Note: Some work accounts might require you to add a password lock to your phone, for security. To stop an account from showing the contacts you create on your phone, touch  **Contacts**, press Menu  > **More** > **Settings**, then untick the account under **New contacts**.

- **Email** is for most personal email accounts. For account details, contact the account provider.

Note: While you are using a Wi-Fi network, you will not be able to access **Yahoo Mail** accounts. You can still use your browser to see these accounts at mail.yahoo.com.

To change your settings, touch  >  **Messaging** > Menu , then touch:

- **Manage accounts** to change your username or password (or server settings, for email).
- **Edit universal inbox** to choose which accounts show messages in the **Universal inbox**.
- **Messaging settings** to set the notification for each account type (along with other preferences, for email).

To get Google Mail™ in your Messages widget and **Universal inbox**, you'll need to add it as an **Email** account: Touch  >  **Messaging** > Menu , then touch **Manage accounts** > **Add account** > **Email** and enter your Google Mail™ details. If you added your **Google** account too, turn off its email sync to avoid duplicate email notices: Touch  >  **Accounts**, touch your Google™ account, and touch the tick to turn off **Gmail**.

Tip: For social network accounts, see “Add account” on page 10.

Instant messages

To send and receive instant messages, you can use an instant messaging app or your browser.

If you don't see an app for your IM provider, you can use your web browser. Touch  >  **Browser** > Menu  > **Go**, then enter your provider's website. Once you're there, follow the link to sign in.

Note: Your IM options will depend on your IM provider. To browse instant messaging apps from your computer, go to www.android.com/market.

Voicemail

When you have a new voicemail,  shows at the top of your screen. To listen to the voicemail, touch  **Dialer**, then touch and hold .

If you need to change your voicemail number, on the home screen press Menu  > **Settings** > **Call settings** > **Voicemail**.

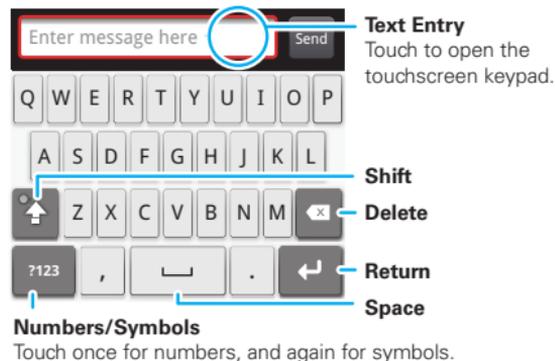

Please note, this is a network dependant feature.

Text entry

think keyboard, now think smaller

Touchscreen keypad

To open the touchscreen keypad, touch a text box or press and hold Menu . To close it, press Back .

For bigger keys, turn your phone to put the screen in landscape mode.

To **move the cursor**, touch and hold a word you entered. A magnifier opens, and you can drag the cursor to another spot.

To **switch the keypad** to **Android keyboard** or **Swype**, touch and hold a blank spot in the text box. A menu opens, where you can choose **Input Method**.

Swype™ text entry

Swype lets you enter a word with one continuous motion. To enter a word, just drag your finger over the letters.

Tips:

- To enter apostrophes in common words (like "I'll"), drag through the **n** as though it was an apostrophe.
- To enter several symbols, touch **SYM**.
- To correct a word, double-tap it. Swype shows a small menu of other word options. Swype might also show a menu if it can't guess your word.
- If Swype doesn't know a word, you can still touch the letter keys to enter it. Swype remembers, so next time you can just drag over the letters.

Text entry settings

When you enter text, your phone automatically corrects or suggests words. To change these settings, press Menu  > **Settings** > **Locale & text**, then:

- To change your Swype settings, touch **Swype**.
- To edit your word suggestion dictionary, touch **User dictionary**.
- To change the language and the style of your touchscreen keypad, touch **Select locale**.
- To change the sounds, corrections and other settings for your touchscreen keypad, touch **Android keyboard**.

Add a shortcut on your home screen for an app or contact	Touch and hold an open area on your home screen to open the Add to Home screen menu, then choose Shortcuts . You can then choose from the Applications or Contacts lists.
Move a widget or shortcut	Touch and hold the widget or shortcut until you feel a vibration, then drag it to where you want.
Delete a widget or shortcut	Touch and hold a widget or shortcut until you feel a vibration, then drag it to the bin at the bottom of your screen.

Battery tips

Your phone is like a small computer, giving you a lot of information and apps, at 3G speed, with a touch display! Depending on what you use, that can take a lot of power.

To start getting the most out of your battery, press Menu  > **Settings** > **Battery Manager** > **Battery Profile**. Choose **Performance Mode** for constant data

transfer and battery use, **Battery Saver Mode** when your battery is low, or **Smart Mode** if you want to set **Battery Profile Options** that limit your data and wireless connections during off-peak hours.

To save even more battery life between charges, you could reduce:

- recording or watching videos, listening to music or taking pictures.
- widgets that stream information to your home screen, like news or weather (“Use & change your home screen” on page 8).
- unused online accounts that you registered with MOTOBLUR (“Edit & delete accounts” on page 11).
- GPS, Wi-Fi and Bluetooth™ use: Press and hold Power  to open the Power key menu, then touch items to turn them off or on.
- Email updates: Touch  **Messaging** > Menu  > **Messaging Settings** > **Email** > **Get new email** > **Every hour** or **Manually**.
- Google™ app updates: Press Menu  > **Settings** > **Synchronisation** > **Background data**.
- network speed: Press Menu  > **Settings** > **Wireless controls** > **Mobile networks** > **Select network** > **2G Only saves battery**.

- network searching: If you are out of coverage, to prevent your phone from looking for networks, press and hold Power  to open the Power key menu, then touch **Flight mode**.
- display brightness: Press Menu  > **Settings** > **Display & security** > **Brightness** > (*dimmer setting*).
- display timeout delay: Press Menu  > **Settings** > **Display & security** > **Screen timeout** > (*shorter setting*).

Personalise

add your personal touch

Widgets

Create widgets

- 1 Find an empty spot on your home screen where you want to add a widget. You can flick left or right to open other panels on your home screen.
- 2 Touch and hold the empty spot until you see the **Add to Home screen** menu.
- 3 Touch **Widgets**.
- 4 Touch the type of widget. If necessary, enter the widget settings.

Set up widgets

You can customise some widgets. Touch a widget to open it, then press Menu :

- **Happenings:** Update your status, choose which accounts appear in this widget or manage your accounts (the same as “Add account” on page 10).
- **Messages:** Change the widget name or choose how long it shows new messages. To add email accounts, “Set up messaging” on page 19.

- Set this widget to an artist, album, song, playlist or just press Menu  for more options. There's more about "Music" on page 30.
- **News:** Change the widget name, choose how long it shows new stories or choose a news source. To choose a source, touch , then choose preset **Bundles** or **Channels**, or choose **Custom** to enter a URL for a **Webpage** or an **RSS feed**.
- **Weather:** Change temperature units or add locations. To add locations, touch , enter a city and touch **Search**. When you open the weather widget, flick left to see other locations you added.

Note: Some apps have custom widget types that you can add and set up after you install the app.

Ringtones

To change your ringtone and notifications, press Menu  > **Settings** > **Sound & ringtones**.

To set vibrate for messages, touch  >  **Messaging** > Menu  > **Messaging settings** > **Text messaging**, **Email** or **Social Messaging**.

Tip: To use a song as a ringtone, touch  >  **Music** > **My Music** > **Songs**, touch and hold the song name, then touch **Set as ringtone**.

Sounds

features

set volume for media and videos

Menu  > **Settings** > **Sound & ringtones** > **Media volume**

play sound on screen selection

Menu  > **Settings** > **Sound & ringtones** > **Audible selection**

Display settings

features

notification LED

Blinks to tell you that a notification has been received. Menu  > **Settings** > **Display & security** > **Notification LED**

set display brightness

Menu  > **Settings** > **Display & security** > **Brightness**

set animation

Menu  > **Settings** > **Display & security** > **Animation**

Quick launch shortcuts

To use a quick launch shortcut, press and hold Search  on the keypad, then press the assigned key, such as Search  and **B** to launch the browser.

Date & time

Set date, time, time zone and formats:

Find it: Menu  > **Settings** > **Date & time**

Language & region

Set your menu language and region:

Find it: Menu  > **Settings** > **Locale & text** > **Select locale**

Photos & videos

see it, capture it, share it!

Photos

Take & share photos

Take that family photo and post it online for everyone to see.

Find it: Press Camera 

Note: Photos are stored on your microSD memory card. To change picture resolution, in the viewfinder press Menu  > **Settings** > **Picture Resolution**.

To take the photo, lightly press Camera  halfway until the autofocus box turns green, then press all the way to take the photo.

Touch the screen to see a thumbnail of your photo in the bottom left or right corner. Touch the thumbnail, then:

Photo options

In the viewfinder, press Menu  > **Settings** to open a menu:

options

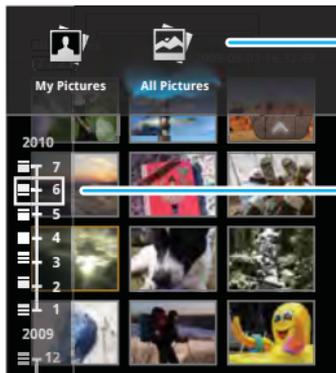

Picture Resolution

Set the resolution of your photo.

options	
Colour Effects	Choose your colour settings, such as None , Negative or B/W .
Advanced settings	Set the Picture Quality of your photo or choose your White Balance light settings, such as Auto , Daylight or Cloudy .
Video Resolution	Set the resolution of your video.

View your photos

Find it:  >  **Picture Gallery**

Categories

Touch at the top to open, then touch a category.

Picture Dates

Touch on the left to open the date list, then drag the dates to find pictures.

To zoom a picture, slide two fingers together or apart on the touchscreen.

Play a slideshow

Touch  >

 **Picture Gallery**, touch a picture, then touch  to start a slideshow. To stop the slideshow, touch the display. To return to the gallery, press Back .

Share your photo gallery

Find it:  >  **Picture Gallery**

To send your photo in a message or post it online:

- 1 Touch and hold a photo, then touch **Share**.
- 2 Choose how you want to share—such as **Email**, **MySpace**, **Social sharing** or **Text messaging**.

Tip: With **Social sharing - Photo sharing**, you can post a photo to more than one social network at the same time.

Manage your photos

Find it:  >  **Picture Gallery**

Touch and hold a photo, then:

- To delete the photo, touch **Delete**.
- To set the photo as a contact picture, social network profile picture or wallpaper, touch **Set as**.
- To open file details, touch **Picture Info**.

Tip: To copy photos to/from a computer, go to “Transfer files with a USB connection” on page 40.

Edit your photos

Find it:  >  > **Picture Gallery** *picture* > Menu  > **Edit**

To crop a photo, touch the crop tool, stretch and drag the crop square to the image you want, then touch the crop save icon.

Videos

Record & share videos

Find it:  >  **Camcorder**

Tip: To send your video in a message, set the video quality to **Small (for MMS messages)**: Press Menu  > **Settings** > **Video Resolution**.

To record the video, press Camera . To stop the video recording, press Camera  again.

Touch the screen to see a thumbnail of your video in the bottom right corner. Touch the thumbnail, then:

- To **see** all your videos, touch **Gallery**.
- To **play** the video, touch **Play**.
- To **send** the video in a message or post it online, touch **Share**. For more info on sharing your photos, see “Share your video gallery” on page 29.
- To **delete** the video, touch **Delete**.

Play your videos

Find it:  >  **Video Gallery** > *video*

Progress Bar

Video Controls

Share your video gallery

Find it:  >  **Video Gallery**

To send your video in a message or post online:

- 1 Touch & hold a video, then touch **Share**.
- 2 Choose how you want to share—such as **Text messaging**, **Facebook** or **MySpace**.

Manage your videos

Find it:  >  **Video Gallery**

To delete a video, touch and hold a video, then touch **Delete**.

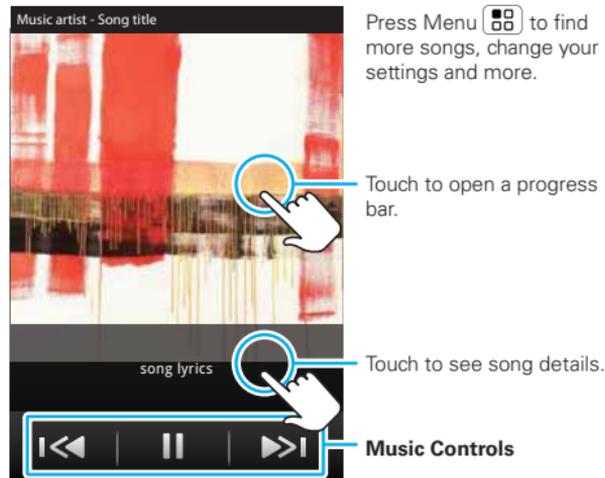

Music

when music is what you need...

Quick start: Music

Find it:  >  **Music** > **My Music**

Your music is stored by artists, albums, songs and playlists. Touch a category, then touch the song or playlist you want to play.

Tip: When a song is playing, you can press Menu  to add it to a playlist or see other options.

Set up music

What music transfer tools do I need?

To put music on your computer and then load it on your phone, you need:

- Microsoft™ Windows™ PC or Apple™ Macintosh™.
- USB data cable.
- memory card. Your music is stored on your memory card. Your phone supports removable microSD memory cards up to 32 GB capacity. To make sure your memory card is installed, go to “Assemble & charge” on page 3.

Tip: To see the available memory on your memory card, press Menu  > **Settings** > **SD card & storage**.

What music file formats can I play?

Your phone can play many types of files: MP3, M4A, AAC, ACC+, MIDI, WAV and OGG Vorbis.

Note: Your phone does not support any DRM protected files.

What headphones can I use?

Your phone has an OMTP 3.5 mm headset jack for wired stereo listening. You can go wireless with Bluetooth™ stereo headphones or speakers (see “Bluetooth™ wireless” on page 37).

Get music

Rip a CD

Not literally. If you're new to digital music transfer, this means transferring music from a music CD to your computer.

To rip a music CD on your computer, you can use Microsoft™ Windows™ Media Player. You can download Windows Media Player from www.microsoft.com.

- 1 On your computer, open Windows Media Player.
- 2 Insert a music CD into the computer's CD ROM drive.
Note: Make sure you change the format to MP3 in “Rip > Format > Rip Settings”.
- 3 In the Windows Media Player window, click on the “Rip” tab.
- 4 Highlight the songs you want to import, and click “Start Rip”.

The songs are imported to the Windows Media Player Library.

Transfer using Windows Media Player

Transfer music files from a computer to your memory card.

Note: Copyright—do you have the right? Always follow the rules in your phone’s safety, regulatory and legal information, packaged with your phone.

- 1 With a memory card inserted and your phone showing the home screen, connect a Motorola micro USB data cable from your phone’s micro USB port to a USB port on your computer. Your phone should show  in the status bar.

Note: Your phone supports Microsoft™ Windows™ XP, Windows Vista™ and Apple™ Macintosh™. Other operating systems may not be compatible.

- 2 Your phone shows a USB connection dialogue. Touch **USB drive**. You can’t use the files on your memory card while it is connected.
- 3 On your computer, open Windows Media Player.
- 4 On the “Sync” tab, select “More options.” Under “Device,” select your phone.
- 5 Select “Properties,” tick the “Create folder hierarchy on device” box and click “OK”.
- 6 Drag your music files over to the “Sync list” and press “Start sync”.

Transfer using USB

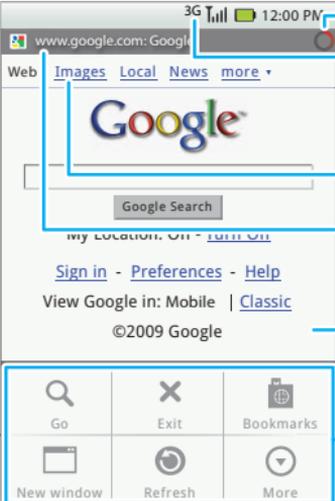

To use a USB cable, see “Transfer files with a USB connection” on page 40.

Web

you don’t need a computer, surf the web with your phone

Quick start: Browser

Find it:  >  **Browser**

The page is loading.

Connection
Over the air:
Mobile network: **G, E, 3G**
Wi-Fi: 

Links
Touch to open.

Web Address
To go to a URL, press  > Go.

Drag or flick to scroll.

Press  to open a menu where you can open a webpage, your bookmarks, a new window and more.

To **enter a webpage address** in the browser or your home screen, just press Search .

Note: If you can’t connect, contact your service provider.

Connect

Your phone uses the mobile phone network (over the air) to automatically connect to the web.

Note: Your service provider may charge to surf the web or download data.

To use a wireless network, press Menu  > **Settings** > **Wireless controls**. Touch **Wi-Fi** to turn it on, then touch **Wi-Fi settings** to search for nearby wireless networks. Touch a network to connect. There's more in "Wi-Fi" on page 39.

Web touch tips

Zoom & magnify

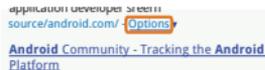

In webpages, when you scroll (drag or flick), zoom icons appear at the bottom of your screen.

Select links

When you touch a link, your phone outlines it. If you touch and hold the link, your phone shows options such as **Open in new window** or **Bookmark link**.

Tip: To help select links, use the "Touch pad" on page 6.

Browser options

Press Menu  to see browser options:

options	
Go	Enter the web address (URL) you want. Tip: Some sites are optimised for mobile phones and they use an “m” in the URL instead of “www” (like m.youtube.com).
Exit	Close the browser.
Bookmarks	Shows a list of your bookmarks. Touch Add bookmark... to add the current page to your list.
New window	Opens a new window.
Refresh	Reloads the current page.
More	Shows browser options, such as Find on page , Select text , Page info , Share page , Downloads and Settings .

Download apps

Warning: Apps downloaded from the web can be from unknown sources. To protect your phone and personal data, only download apps from sources you trust, such as “Apps for all” on page 37.

Note: All apps downloaded are stored in your phone memory.

To download apps:

- 1 If you want to download apps from any webpage, press Menu  > **Settings** > **Applications** > **Unknown sources**.
- 2 To launch the browser, touch  >  **Browser**.
- 3 Find the app you want to download and touch the download link.

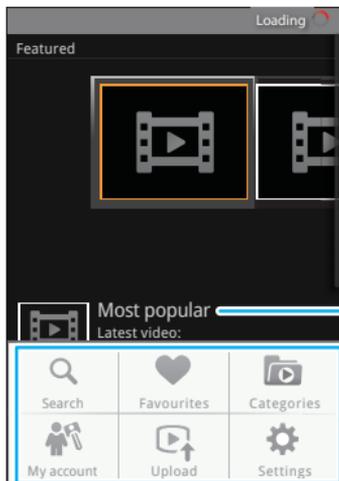

Manage your downloads

To view files or applications you have downloaded, touch  >  > **Browser**  > **More** > **Downloads**.

To clear your download history, press Menu  > **Clear list**. To cancel, press Menu  > **Cancel all downloads**.

Quick start: YouTube

Find it:  >  YouTube

Categories

Touch a video to play.

Press  to open a menu where you can search, upload, edit your account and more.

The YouTube user-generated content website lets you share videos with YouTube users everywhere. You don't need a YouTube account to browse and view videos.

Note: If you don't have a YouTube account, visit www.youtube.com to find out more. To create an account or sign in, go to "Your account" on page 35.

Watch YouTube videos

See popular video categories, like Featured, Most viewed and Top rated. Touch a category, then touch the video to start playing it.

To see more video categories, press Menu  > **Categories**.

Search for YouTube videos

Find it:  >  YouTube > Menu  > **Search**

Enter text, then touch **Search**. To clear your search history, press Menu  > **Settings** > **Clear search history**.

Share videos

Send someone a link to a video that you are watching.

1 Press Menu  > **Share**.

Tip: Just touch a video to open the **Share** menu.

2 Choose the type of message and recipients, then touch **Send**.

Your account

Log in or create account

Find it:  >  **YouTube** > Menu  >

My account

If you have a YouTube account, enter your username and password, and touch **Sign in**.

To create a YouTube account, touch the link to open the YouTube site and enter your information.

Upload videos

Find it:  >  **YouTube** > Menu  > **Upload**

- 1 Touch the video you want to upload. You can change the video title, description, set access rights and add tags.
- 2 Touch **Upload**.

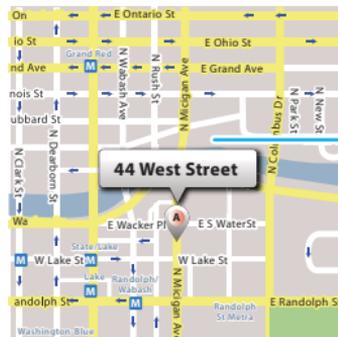

Locations

toss away your maps

Google Maps™

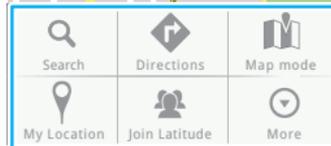

Where am I? What's around here? Let Google Maps help you explore your surroundings and find what you're looking for.

Find it:  >  **Google Maps**

Map View

Drag or flick to scroll.
Touch to show zoom.

Press  to open a menu where you can search, get directions, find your location and more.

Google Maps opens by default in "Map mode"

Latitude

Join Latitude

See where your friends and family are on Google Maps™. Plan to meet up, check that your parents got home safely or just stay in touch.

Don't worry, your location is not shared unless you agree to it. You need to join Latitude and then invite your friends to view your location or accept their invitations. When using Google Maps (in any mode except in Street View), press Menu  > **Join Latitude**. Read the privacy policy and, if you agree with it, choose to continue.

Add & remove friends

Find it:  >  **Google Maps** > Menu  > **Latitude**

To add friends:

- 1 Press Menu  > **Add friends**.
- 2 Touch **Select from Contacts** or **Add via email address**, then touch a contact and **Add friends**.

If your friends already use Latitude, they'll receive an email request and a notification. If they have not yet joined Latitude, they'll receive an email request that invites them to sign into Latitude with their Google account.

To remove friends:

- 1 Press Menu  > **Latitude** to show your friends list, then touch a friend in your list.
- 2 Touch **Remove**.

Share location

When you receive a request to share location details you can choose to:

- **Accept and share back**—see your friend's location, and your friend can see yours.
- **Accept, but hide my location**—see your friend's location, but they can't see yours.
- **Don't accept**—location information is not shared between you and your friend.

Hide your location

To hide your location from a friend, press Menu  > **Latitude** to show your friends list. Touch your contact name, then press Menu  > **Privacy** > **Hide your location**.

Turn off Latitude

Press Menu  > **Latitude** to show your friends list. Touch Menu  > **Privacy** > **Turn off Latitude**.

Apps for all

get the app you want

About Android Market™

Find it:  >  **Market**

Get all the fun games and cool apps you want! Android Market provides access to applications developed by developers worldwide, so you can find the app you want. If you need help or have questions about Android Market, press Menu  > **Help**.

Browse & install apps

Scroll to and touch the app you want to install. Then touch **Install** (if the app is free) or **Buy**.

Manage & restore apps

Find it: Menu  > **Settings** > **Applications** > **Manage applications**

Touch an app in the list, then touch **Uninstall** (for apps you have downloaded), **Clear cache** or other options.

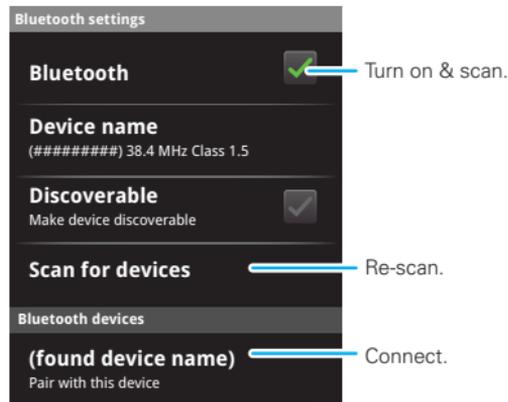

To reinstall any downloaded items, touch  >  **Market** > **My downloads**. Previously installed apps are listed and available for download.

Bluetooth™ wireless

lose the wires and go wireless

Quick start: Bluetooth wireless

Find it: Menu  > **Settings** > **Wireless controls** > **Bluetooth settings**

Turn Bluetooth power on or off

Find it: Press and hold Power  > **Bluetooth**

Note: To extend battery life, turn Bluetooth power off when not in use.

Connect new devices

Note: This feature requires an optional accessory.

To connect with a new device, you need to pair with it. You only need to do this once for each device—to connect again, just turn on the device.

- 1 Make sure the device you are pairing with is in discoverable mode.

Note: Refer to the guide that came with the device for details.

- 2 Press Menu  > **Settings** > **Wireless controls** > **Bluetooth settings**.
- 3 Touch **Bluetooth** to turn on and scan. If Bluetooth power is already on, touch **Scan for devices**.
- 4 Touch a device to connect.
- 5 If necessary, touch **OK** or enter the device passkey (such as **0000**) to connect to the device. When the device is connected, the Bluetooth indicator  appears in the status bar.

Note: Using a mobile device or accessory while driving may cause distraction and may be illegal. Always obey the laws and drive safely.

Reconnect devices

To automatically reconnect your phone to a paired device, simply turn on the device.

To reconnect your phone to a paired device manually, touch the device name in the **Bluetooth devices** list.

Disconnect devices

To automatically disconnect your phone from a paired device, simply turn off the device.

To disconnect your phone from a paired device manually, touch the device name in the devices list, then press Menu  > **Disconnect**.

Edit properties

Press Menu  > **Settings** > **Wireless controls** > **Bluetooth settings** > **Device name**. Enter a name and touch **OK**.

Wi-Fi

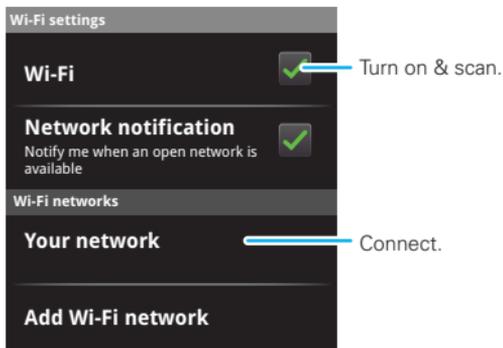

home, office or hotspot

Quick start: Wi-Fi

Find it: Menu  > **Settings** > **Wireless controls** > **Wi-Fi settings**

Note: Your phone's Wi-Fi features and power levels are not allowed for outdoor operation in France. To avoid unlawful interference with radio signals, do not use the Wi-Fi features in France unless you are indoors.

Use a wireless network for fast Internet access and to download data.

Turn Wi-Fi on or off

Find it: Press and hold Power  > **Wi-Fi**

Note: To extend battery life, turn off Wi-Fi power when not in use.

Wi-Fi search & connect

To find networks in your range:

- 1 Press Menu  > **Settings** > **Wireless controls** > **Wi-Fi settings**.
- 2 Touch **Wi-Fi** to turn on and scan. If Wi-Fi is already on, press Menu  > **Scan**. Your phone lists the networks it finds within range.
Tip: To see your phone's MAC address or other Wi-Fi details, press Menu  > **Advanced**.
- 3 Touch a network to connect.
- 4 If necessary, enter **Network SSID**, **Security** and **Wireless password** and touch **Connect**. When your phone is connected to the network, the wireless indicator  appears in the status bar.

Tip: When you are in range and Wi-Fi is on, you will automatically reconnect to available networks you've connected to before.

Memory card & file transfer

copy photos, music and more to your phone

Memory card

Note: You need the memory card installed for some features on your phone, such as **Camera**.

To insert a memory card, see “Assemble & charge” on page 3.

Note: Do not remove your memory card while your phone is using it or writing files to it.

Warning: When you format a memory card, all data on the card is deleted.

To remove or format your memory card, you need to unmount it. Press Menu  > **Settings** > **SD card & storage** > **Unmount SD card**. Then, to format your memory card, touch **Format SD card**.

Transfer files with a USB connection

Note: This feature requires an optional accessory.

There are two ways to transfer files with a USB connection:

- You can use Motorola Media Link (MML) on your computer to bridge your digital world—manage,

sync and back up files or quickly upload files to the web.

To use MML, install it on your computer (downloaded MML). To download MML or get more information, visit www.motorola.com/medialink.

- You can use the “My Computer” program on a PC to drag and drop files between your phone and computer.

On your computer, open MML or “My Computer,” then:

- 1 With a memory card inserted and your phone showing the home screen, connect a Motorola micro USB data cable from your phone’s micro USB port to a USB port on your computer. Your phone should show  in the status bar.

Note: Make sure you connect the phone to a high power USB port. Typically, these are located directly on your computer.

- 2 On your phone, touch **USB drive** in the USB connection dialogue. You can’t use the files on your memory card while it is connected.

3 On your computer:

- To use MML, open it and select a tab to manage **Photos**, **Videos** or **Music**. You can back up content with the Synch button, drag and drop content or upload files to social networking sites.
 - To use “My Computer,” open it and select “Removable Disk” to see your memory card folders.
- Drag and drop files between your computer and memory card folders. When you’re done, use the “Safely Remove Hardware” feature.

Synchronise

keep up-to-date

Google™ data synchronisation

Find it: Menu  > **Settings** > **Synchronisation**

The Google apps on your phone give you access to the same personal information (emails, events and contacts) that you have on a computer using Google Mail™, Google Calendar™ and Contacts. It’s easy to synchronise the Google apps information you want to keep up-to-date.

Select apps to synchronise

1 Touch **Background data** and **Auto-sync**.

Tip: To save battery power, do not touch **Background data**.

2 Touch the apps you want to synchronise, like **Gmail**, **Calendar** or **Contacts**.

Synchronise with Microsoft™ Office Outlook

If you use Microsoft Office Outlook on your work computer, your phone can synchronise emails, events and contacts with your Microsoft Exchange server.

Find it:  >  **Accounts** > **Add account** > **Corporate Sync**

- 1 Enter your username (username@company.com), password, email address and server details (server address is the same URL you use to access your company's email using the web on your computer).

Note: Contact your business IT department for server details.

- 2 Touch **Next**.

Tools

stay on top of things

Alarm clock

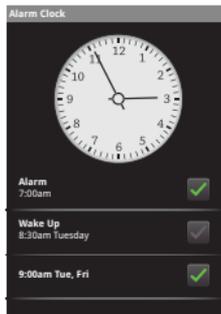

Find it:  >  **Alarm Clock**

To turn on an alarm, touch the tick box.

When an alarm sounds, drag **Dismiss** to turn it off or touch the screen to delay.

To add an alarm, press Menu  > **Add alarm**, then enter the alarm details.

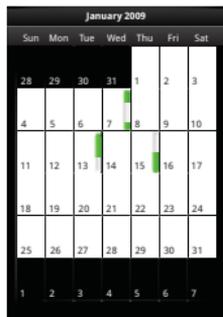

To set a snooze period, in the **Alarm Clock** list press Menu  > **Snooze time**.

Calendar

Find it:  >  **Calendar**

Your calendar events can be viewed in different ways: Press Menu  > **Agenda, Day or Week**. When you highlight an event in the day and week views, more details appear.

Add calendar events

From any calendar view, press Menu  > **New event**. Enter the event details and touch **Save**.

Manage calendar events

To edit an event, touch and hold it, then touch **Edit event**. When you're done, touch **Save**.

To delete an event, touch and hold it, then touch **Delete event**.

To go to today, press Menu  > **Today**.

Calculator

Find it:  >  **Calculator**

Your calculator has two views: basic and advanced. To change your views, press Menu  > **Advanced panel** or **Basic panel**. To clear the history, press Menu  > **Clear history**.

Management

stay in control

Wireless manager

Find it: Menu  > **Settings** > **Wireless controls**

Manage all your wireless connections: Wi-Fi, Bluetooth™, flight mode & mobile networks ("Network" on page 43).

Shortcut: Press and hold Power  to display the power menu—from here you can control Bluetooth power, Wi-Fi and GPS as well as turn the phone off and set flight mode.

Flight mode

Use flight mode to turn all your wireless connections off—useful when flying. Press and hold Power  > **Flight mode**.

Update my phone

To keep your phone current, software updates may be available. Press Menu  > **Settings** > **About phone** > **System updates** to see if your phone is up to date. If it isn't, touch **Update**.

Network

You should not need to change any network settings. Contact your service provider for help.

Press Menu  > **Settings** > **Wireless controls** > **Mobile networks** to show options for roaming networks, network selection, operator selection and access point names.

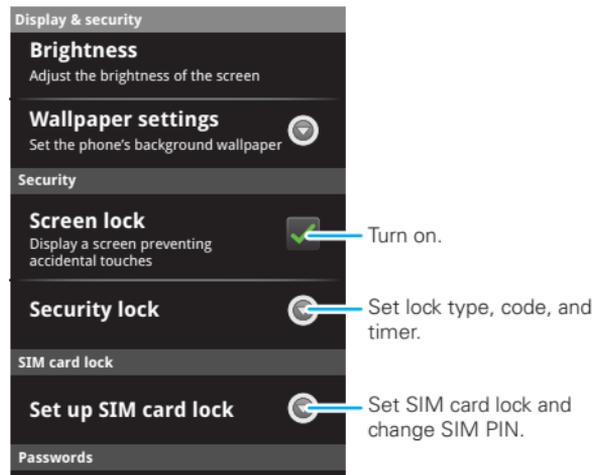

Security

help keep your phone safe

Quick start: Security

Find it: Menu  > **Settings** > **Display & security**

You have lots of ways to keep your phone safe.

If you lose your phone, you can log into your MOTOBLUR account from a computer to locate your phone or clear the data on it:
www.motorola.com/mymotoblur.

Screen lock

To set your phone to display a lock screen and prevent accidental key presses, press Menu  > **Settings** > **Display & security** > **Screen lock**. You can also set a security lock to prevent others from using your phone.

To set your security level, press Menu  > **Settings** > **Display & security** > **Security lock** > **Security lock type**.

Some work accounts might require you to add a password lock to your phone, for security.

- **Pattern lock:** draw a pattern to unlock.
- **Passcode lock:** enter a code to unlock.

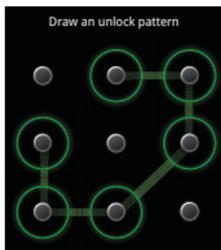

Note: You can make emergency calls on a locked phone ("Emergency calls" on page 14). A locked phone still rings, **but you need to unlock it to answer**.

Lock pattern

To set the lock pattern, press Menu  > **Settings** > **Display & security** > **Security lock** > **Security lock type** > **Pattern lock**.

Follow the instructions to draw your lock pattern.

When prompted, draw the pattern to unlock the phone.

Passcode lock

To set the passcode, press Menu  > **Settings** > **Display & security** > **Security lock** > **Security lock type** > **Passcode lock**.

Enter a passcode, then confirm it.

When prompted, enter the passcode to unlock the phone.

Personalise your lock screen

To change your timeout, press Menu  > **Settings** > **Display & security** > **Screen timeout**. If you don't touch the screen or press any keys for this amount of time, the screen locks automatically. To unlock, see "Lock & unlock" below.

To change your lock screen picture, press Menu  > **Settings** > **Display & security** > **Wallpaper settings**.

Lock & unlock

To lock the screen/phone:

- Press Power .
- Let the screen time out (don't press anything).
- Switch the power off.

To unlock the screen/phone:

- Press Menu  or switch the phone on to display the lock screen.

- Press Menu  to unlock—if you've set a lock pattern or passcode, you'll be asked to enter it.

Forgotten your pattern or passcode?

In the **passcode** unlock screen, press Menu  > **Forgot passcode?** to unlock your phone with your MOTOBLUR email address and MOTOBLUR password.

In the **pattern** unlock screen, after you enter an incorrect pattern five times, you can touch **Forgot passcode?** to unlock your phone with your MOTOBLUR email address and MOTOBLUR password.

Lock your SIM

Enable SIM PIN

To lock your SIM (the next time you switch on the phone you will need to enter your SIM PIN), press Menu  > **Settings** > **Display & security** > **Set up SIM card lock** > **Lock SIM card**. Enter your SIM PIN code.

Caution: If you enter an incorrect PIN code three times, your phone locks your SIM card and asks for your PIN unlock code. Contact your service provider.

Change SIM PIN

To change your **SIM PIN**, press Menu  > **Settings** > **Display & security** > **Set up SIM card lock** > **Change SIM PIN**.

PUK code

To unlock your SIM PIN, you need to enter your PIN unlock code (PUK code) when prompted.

Note: Your PUK code is provided by your service provider.

Reset

To reset your phone to factory settings and erase all the data on your phone, press Menu  > **Settings** > **SD card & storage** > **Factory data reset** > **Reset phone**.

Warning: All downloaded apps and user data on your phone will be deleted. Data on your memory card will not be deleted.

Lost, stolen, broken, cleared

Don't you just hate it when your life is on your phone and it all goes wrong? Lose it, break it, reset it or even worse—stolen! Relax, MOTOBLUR can help find your phone, clear it (if you need to) and best of all, restore all your stuff.

Track your phone

To locate your phone:

- 1 Log into your MOTOBLUR account:
www.motorola.com/mymotoblur.
- 2 On the phone profile page, follow the link to locate your phone.

MOTOBLUR locates your phone using GPS and AGPS (see the important legal and safety information packaged with your phone).

Remote clear

To wipe your phone data:

- 1 Log into your MOTOBLUR account:
www.motorola.com/mymotoblur.
- 2 On the phone profile page, follow the link to delete data.

Warning: All downloaded apps and user data on your phone will be deleted. Data on your memory card will not be deleted.

Restore your phone

If you lose your phone don't worry, your contacts are backed up on MOTOBLUR.

Note: If you recover your phone after a remote clear, you need to complete a factory reset: Hold the Camera  key and press Power  to turn on your phone. When you see a blue screen, press Alternate  + **L** and Alternate  + **W**. Now, press Power  and log into MOTOBLUR.

When you get your next MOTOBLUR product, just log into your existing MOTOBLUR account on your phone to recover all your stuff automatically.

To recover your Android Market apps, see "Manage & restore apps" on page 37.

Troubleshooting

we're here to help

Crash recovery

In the unlikely event that your phone stops responding to touches and key presses, try a quick reset. Remove the back cover and battery ("Assemble & charge" on page 3), then replace and turn on your phone as usual.

Battery use & safety

Important: Handle and store batteries properly to avoid injury or damage.

Most battery issues arise from improper handling of batteries, and particularly from the continued use of damaged batteries.

DON'Ts

- **Don't disassemble, crush, puncture, shred or otherwise attempt to change the form of your battery.**
- **Don't let the phone or battery come in contact with water.** Water can get into the phone's circuits, leading to corrosion. If the phone and/or battery get wet, have them checked by your service provider or contact Motorola, even if they appear to be working properly.*
- **Don't allow the battery to touch metal objects.** If metal objects, such as jewellery, stay in prolonged contact with the battery contact points, the battery could become very hot.
- **Don't place your battery near a heat source.** Excessive heat can damage the phone or the battery. High temperatures can cause the battery to swell, leak or malfunction. Therefore:
- Do **not** dry a wet or damp battery with an appliance or heat source, such as a hair dryer or microwave oven.
- Avoid leaving your phone in your car in high temperatures.*

DOs

- **Do avoid dropping the battery or phone.** Dropping these items, especially onto a hard surface, can potentially cause damage.*
- **Do contact your service provider or Motorola if your phone or battery has been damaged by being dropped or by high temperatures.**

* **Note:** If the product guide expressly states that your **phone** is designed to resist damage from exposure to certain rugged conditions, such as water immersion, rain, dust, high and low temperatures, shock or other conditions, do **not** exceed the stated limits and ensure the stated precautions are taken. Always make sure that

the battery compartment is closed and secure to avoid direct exposure of the battery to any of these conditions.

Important: Use Motorola Original products for quality assurance and safeguards. To aid consumers in identifying authentic Motorola batteries from non-original or counterfeit batteries (that may not have adequate safety protection), Motorola provides holograms on its batteries. Consumers should confirm that any battery they purchase has a "Motorola Original" hologram.

Motorola recommends that you always use Motorola-branded batteries and chargers. Motorola mobile devices are designed to work with Motorola batteries. If you see a message on your display, such as **Invalid battery** or **Unable to charge**, take the following steps:

- Remove the battery and inspect it to confirm that it has a "Motorola Original" hologram;
- If there is no hologram, the battery is not a Motorola battery;
- If there is a hologram, replace the battery and try charging it again;
- If the message remains, contact a Motorola authorised service centre.

Important: Motorola's warranty does not cover damage to the phone caused by non-Motorola batteries and/or chargers.

Warning: Use of a non-Motorola battery or charger may present a risk of fire, explosion, leakage or other hazard.

Proper and safe battery disposal and recycling: Proper battery disposal is not only important for safety, it benefits the environment. Consumers may recycle their used batteries in many retail or service provider locations. Additional information on proper disposal and recycling may be found on the Web:

- www.motorola.com/recycling
- www.rbrc.org/call2recycle/ (in English only)

Disposal: Promptly dispose of used batteries in accordance with local regulations. Contact your local recycling centre or national recycling organisations for more information on how to dispose of batteries.

Warning: Never dispose of batteries in a fire because they may explode.

Battery charging

Notes for charging your phone's battery:

- When charging your battery, keep it near room temperature. Never expose batteries to temperatures below 0°C (32°F) or above 45°C (113°F) when charging.
- New batteries are not fully charged.
- New batteries or batteries stored for a long time may take more time to charge.
- Motorola batteries and charging systems have circuitry that protects the battery from damage from overcharging.

Specific absorption Rate (ICNIRP)

Your model of wireless phone meets international guidelines for exposure to radio waves.

Your mobile device is a radio transmitter and receiver. It is designed not to exceed the limits for exposure to radio waves recommended by international guidelines. These guidelines were developed by the independent scientific organisation ICNIRP and include safety margins designed to assure the protection of all persons, regardless of age and health, and to account for any variations in measurements. The guidelines use a unit of measurement known as the Specific Absorption Rate (SAR). The ICNIRP SAR limit for mobile devices used by the general public is 2 watts per kilogram (W/kg), and the highest SAR value for this mobile device when tested at the ear is 0.96 W/kg. As mobile devices offer a range of functions, they can be used in other positions, such as on the body as described in this guide. In this case, the highest tested SAR value is 1.16 W/kg. The tests are carried out in accordance with international guidelines for testing. The SAR information includes the Motorola testing protocol, assessment procedure and measurement uncertainty range for this product.

As SAR is measured using the mobile device's highest transmitting power, the actual SAR of this mobile device while operating is typically below that indicated above. This is due to automatic changes to the power level of the mobile device to ensure it only uses the minimum level required to reach the network.

While there may be differences between the SAR levels of various mobile devices and at various positions, they meet the governmental requirements for safe

exposure. Please note that improvements to this product model could cause differences in the SAR value for later products; in all cases, products are designed to be within the guidelines.

The World Health Organisation has stated that present scientific information does not indicate the need for any special precautions for the use of mobile devices. They note that if you want to reduce your exposure, then you can do so by limiting the length of calls or using a hands-free device to keep the mobile device away from the head and body.

Additional information can be found on the websites of the World Health Organisation (<http://www.who.int/emf>) or Motorola, Inc. (<http://www.motorola.com/rfhealth>).

European Union directives conformance statement

[Only Indoor Use
Allowed In France]

Hereby, Motorola declares that this product is in compliance with:

- The essential requirements and other relevant provisions of Directive 1999/5/EC
- All other relevant EU Directives

IMEI: 350034/40/394721/9

CE 0168

Type: MC2-41H14

Product
Approval
Number

The above gives an example of a typical Product Approval Number.

You can view your product's Declaration of Conformity (DoC) to Directive 1999/5/EC (to R&TTE Directive) at www.motorola.com/rtte. To find your DoC, enter the Product Approval Number from your product's label in the "Search" bar on the website.

Software copyright notice

Motorola products may include copyrighted Motorola and third-party software stored in semiconductor memories or other media. Laws in the United States and other countries preserve for Motorola and third-party software providers certain exclusive rights for copyrighted software, such as the exclusive rights to distribute or reproduce the copyrighted software. Accordingly, any copyrighted software contained in Motorola products may not be modified, reverse-engineered, distributed or reproduced in any manner to the extent allowed by law. Furthermore, the purchase of Motorola products shall not be deemed to grant, either directly or by implication or estoppel or otherwise, any licence under the copyrights, patents or patent applications of Motorola or any third-party software provider, except for the normal, non-exclusive, royalty-free licence to use that arises by operation of law in the sale of a product.

Content copyright

The unauthorised copying of copyrighted materials is contrary to the provisions of the Copyright Laws of the United States and other countries. This device is intended solely for copying non-copyrighted materials, materials in which you own the copyright or materials which you are authorised or legally permitted to copy. If you are uncertain about your right to copy any material, please contact your legal advisor.

Open source software information

For instructions on how to obtain a copy of any source code being made publicly available by Motorola related to software used in this Motorola mobile device, you may send your request in writing to the address below. Please make sure that the request includes the model number and the software version number.

MOTOROLA, INC.
OSS Management
600 North US Hwy 45
Libertyville, IL 60048
USA

The Motorola website opensource.motorola.com also contains information regarding Motorola's use of open source.

Motorola has created the opensource.motorola.com website to serve as a portal for interaction with the software community at large.

To view additional information regarding licences, acknowledgments and required copyright notices for open source packages used in this Motorola mobile device, please press the Menu key > **Settings** > **About phone** > **Legal information** > **Open source licenses**. In addition, this Motorola device may include self-contained applications that present supplemental notices for open source packages used in those applications.

GPS & AGPS

Your mobile device can use *Global Positioning System* (GPS) signals for location-based applications. GPS uses satellites controlled by the U.S. government that are subject to changes implemented in accordance with the Department of Defense policy and the Federal Radio Navigation Plan. These changes may affect the performance of location technology on your mobile device.

Your mobile device can also use *Assisted Global Positioning System* (AGPS), which obtains information from the mobile network to improve GPS performance. AGPS uses your wireless service provider's network and therefore airtime, data charges and/or additional charges may apply in accordance with your service plan. Contact your wireless service provider for details.

Your location

Location-based information includes information that can be used to determine the approximate location of a mobile device. Mobile phones that are connected to a wireless network transmit location-based information. Devices enabled with GPS or AGPS technology also transmit location-based information. Additionally, if you use applications that require location-based information (e.g. driving directions), such

applications transmit location-based information. This location-based information may be shared with third parties, including your wireless service provider, applications providers, Motorola and other third parties providing services.

Emergency calls

When you make an emergency call, the mobile network may activate the AGPS technology in your mobile device to tell the emergency responders your approximate location.

AGPS has limitations and **might not work in your area**. Therefore:

- Always tell the emergency responder your location to the best of your ability; and
- Remain on the phone for as long as the emergency responder instructs you.

Performance tips

- Go outside and away from underground locations, covered vehicles, structures with metal or concrete roofs, tall buildings and foliage. Indoor performance might improve if you move closer to windows, but some window sun shielding films can block satellite signals.
- Move away from radios, entertainment equipment and other electronic devices.

Navigation

Motorola strives to provide complete and accurate mapping information, directions and other navigational data, using a combination of governmental and private location information sources. These sources may contain inaccurate or incomplete data. In some countries, complete information may not be available. Therefore, you should visually confirm that the navigational instructions are consistent with what you see. All drivers should pay attention to road conditions, closures, traffic and all other factors that may impact driving. Always obey posted road signs.

Safety & general information

This section contains important information on the safe and efficient operation of your mobile device. Read this information before using your mobile device.

Exposure to radio frequency (RF) energy

Your mobile device contains a transmitter and receiver. When it is ON, it receives and transmits RF energy. When you communicate using your mobile device, the system handling your call controls the power level at which your mobile device transmits.

Your mobile device is designed to comply with local regulatory requirements in your country concerning exposure of human beings to RF energy.

Operational precautions

For optimal mobile device performance and to be sure that human exposure to RF energy does not exceed the guidelines set forth in the relevant standards, always follow these instructions and precautions.

Product operation

When placing or receiving a phone call, hold your mobile device just like you would a landline phone.

If you wear the mobile device on your body, always place the mobile device in a Motorola-supplied or approved clip, holder, holster, case or body harness. If you do not use a body-worn accessory supplied or approved by Motorola, keep the mobile device and its antenna at least 2.5 centimetres (1 inch) from your body when transmitting.

Using accessories not supplied or approved by Motorola may cause your mobile device to exceed RF energy exposure guidelines. For a list of Motorola-supplied or approved accessories, visit our website at: www.motorola.com.

RF energy interference/compatibility

Nearly every electronic device is subject to RF energy interference from external sources if inadequately shielded, designed or otherwise configured for RF energy compatibility. In some circumstances, your mobile device may cause interference with other devices.

Follow instructions to avoid interference problems

Turn off your mobile device in any location where posted notices instruct you to do so.

In an aircraft, turn off your mobile device whenever instructed to do so by airline staff. If your mobile device offers an aeroplane mode or similar feature, consult airline staff about using it in-flight.

Implantable medical devices

If you have an implantable medical device, such as a pacemaker or defibrillator, consult your doctor before using this mobile device.

Persons with implantable medical devices should observe the following precautions:

- ALWAYS keep the mobile device more than 20 centimetres (8 inches) from the implantable medical device when the mobile device is turned ON.
- DO NOT carry the mobile device in the breast pocket.
- Use the ear opposite the implantable medical device to minimise the potential for interference.
- Turn OFF the mobile device immediately if you have any reason to suspect that interference is taking place.

Read and follow the directions from the manufacturer of your implantable medical device. If you have any questions about using your mobile device with your implantable medical device, consult your health care provider.

Driving precautions

Using a mobile device while driving may cause distraction. End a call if you can't concentrate on driving. Enter information about your destination and route prior to your drive. Do not input data or engage in text messaging while driving. Keep your eyes on the road while driving. Listen to the audible turn-by-turn directions, if available.

Also, using a mobile device or accessory may be prohibited or restricted in certain areas. Always obey the laws and regulations on the use of these products.

Responsible driving practices can be found at www.motorola.com/callsmart (in English only).

Operational warnings

Obey all posted signs when using mobile devices in public areas.

Potentially explosive atmospheres

Areas with potentially explosive atmospheres are often, but not always, posted and can include fuelling areas, such as below decks on boats, fuel or chemical transfer

or storage facilities or areas where the air contains chemicals or particles, such as grain dust or metal powders.

When you are in such an area, turn off your mobile device and do not remove, install or charge batteries. In such areas, sparks can occur and cause an explosion or fire.

Symbol key

Your battery, charger or mobile device may contain symbols, defined as follows:

Symbol	Definition
	Important safety information follows.
	Do not dispose of your battery or mobile device in a fire.
	Your battery or mobile device may require recycling in accordance with local laws. Contact your local regulatory authorities for more information.
	Do not dispose of your battery or mobile device in everyday household waste.
	Do not let your battery, charger or mobile device get wet.
	Listening at full volume to music or voice through a headset may damage your hearing.

Batteries & chargers

Caution: Improper treatment or use of batteries may present a danger of fire, explosion, leakage or other hazard. For more information, see "Battery use & safety".

Keep your mobile device & its accessories away from small children

These products are not toys and may be hazardous to small children. For example:

- A choking hazard may exist for small, detachable parts.
- Improper use could result in loud sounds, possibly causing hearing injury.
- Improperly handled batteries could overheat and cause a burn.

Glass parts

Some parts of your mobile device may be made of glass. This glass could break if the product is dropped on a hard surface or receives a substantial impact. If glass breaks, do not touch or attempt to remove. Stop using your mobile device until the glass is replaced by a qualified service centre.

Seizures/blackouts

Some people may be susceptible to epileptic seizures or blackouts when exposed to flashing lights, such as when playing video games. These may occur even if a person has never had a previous seizure or blackout.

If you have experienced seizures or blackouts or if you have a family history of such occurrences, please consult your doctor before playing video games or enabling a flashing-lights feature (if available) on your mobile device.

Discontinue use and consult a doctor if any of the following symptoms occur: convulsion, eye or muscle twitching, loss of awareness, involuntary movements or disorientation. It is always a good idea to hold the screen away from your eyes, leave the lights on in the room, take a 15-minute break every hour and stop use if you are tired.

Caution about high volume usage

Warning: Exposure to loud noise from any source for extended periods of time may affect your hearing. The louder the volume sound level, the less time is required before your hearing could be affected.

To protect your hearing:

- Limit the amount of time you use headsets or headphones at high volume.
- Avoid turning up the volume to block out noisy surroundings.
- Turn the volume down if you can't hear people speaking near you.

If you experience hearing discomfort, including the sensation of pressure or fullness in your ears, ringing in your ears or muffled speech, you should stop listening to the device through your headset or headphones and have your hearing checked.

For more information about hearing, see our website at direct.motorola.com/hellomoto/nss/AcousticSafety.asp (in English only).

Repetitive motion

When you repetitively perform actions such as pressing keys or entering finger-written characters, you may experience occasional discomfort in your hands, arms, shoulders, neck or other parts of your body. If you continue to have discomfort during or after such use, stop use and see a doctor.

[Nov0109]

FCC notice to users

The following statement applies to all products that have received FCC approval. Applicable products bear the FCC logo and/or an FCC ID in the format FCC-ID:xxxxxx on the product label.

Motorola has not approved any changes or modifications to this device by the user. Any changes or modifications could void the user's authority to operate the equipment. See 47 CFR Sec. 15.21.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. See 47 CFR Sec. 15.19(3).

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by

turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and the receiver.
- Connect the equipment to an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Use & care

To care for your Motorola phone, please keep it away from:

liquids of any kind

Don't expose your phone to water, rain, extreme humidity, sweat or other moisture. If it does get wet, don't try to accelerate drying using an oven or dryer, as this may damage the phone.

extreme heat or cold

Avoid temperatures below 0°C/32°F or above 45°C/113°F.

microwaves

Don't try to dry your phone in a microwave oven.

dust and dirt

Don't expose your phone to dust, dirt, sand, food or other inappropriate materials.

cleaning solutions

To clean your phone, use only a dry soft cloth. Don't use alcohol or other cleaning solutions.

shock and vibration

Don't drop your phone.

Information from the World Health Organisation

Present scientific information does not indicate the need for any special precautions for the use of mobile phones. If you are concerned, you may want to limit your own or your children's RF exposure by limiting the length of calls or by using hands-free devices to keep mobile phones away from your head and body.

Further information: <http://www.who.int/peh-emf>

Caring for the environment by recycling

This symbol on a Motorola product means the product should not be disposed of with household waste.

Disposal of your mobile device & accessories

Please do not dispose of mobile devices or electrical accessories (such as chargers, headsets or batteries) with your household waste. Do not dispose of your battery or mobile device in a fire. These items should be disposed of in accordance with the national collection and recycling schemes operated by your local or regional authority. Alternatively, you may return unwanted mobile devices and electrical accessories to any Motorola Approved Service Centre in your region. Details of Motorola-approved national recycling schemes and further information on Motorola recycling activities can be found at: www.motorola.com/recycling

Disposal of your mobile device packaging & product guide

Product packaging and product guides should only be disposed of in accordance with national collection and recycling requirements. Please contact your regional authorities for more details.

Privacy & data security

Motorola understands that privacy and data security are important to everyone. Because some features of your mobile device may affect your privacy or data security, please follow these recommendations to enhance protection of your information:

- **Monitor access**—Keep your mobile device with you and do not leave it where others may have unmonitored access. Lock your device's keypad where this feature is available.
- **Keep software up to date**—If Motorola or a software/application vendor releases a patch or software fix for your mobile device that updates the device's security, install it as soon as possible.
- **Secure personal information**—Your mobile device can store personal information in various locations including your SIM card, memory card and phone memory. Be sure to remove or clear all personal information before you recycle, return or give away your device. You can also back up your personal data to transfer to a new device.

Note: For information on how to back up or wipe data from your mobile device, go to www.motorola.com/support

- **Online accounts**—Some mobile devices provide a Motorola online account (such as MOTOBLUR). Go to your account for information on how to manage the account and how to use security features such as remote wipe and device location (where available).
- **Location-based information**—Location-based information includes information that can be used to determine the approximate location of a mobile device. Mobile phones that are connected to a wireless network transmit location-based information. Devices enabled with GPS or AGPS technology also transmit location-based information. Additionally, if you use applications that require location-based information (e.g. driving directions), such applications transmit location-based information. This location-based information may be shared with third parties, including your wireless service provider, applications providers, Motorola and other third parties providing services.
- **Other information your device may transmit**—Your device may also transmit testing and other diagnostic (including location-based) information, and other

non-personal information to Motorola or other third-party servers. This information is used to help improve products and services offered by Motorola. If you have further questions regarding how the use of your mobile device may impact your privacy or data security, please contact Motorola at privacy@motorola.com or contact your service provider.

Smart practices while driving

Drive safe, call smart

Check the laws and regulations on the use of mobile devices and their accessories in the areas where you drive. Always obey them. The use of these devices may be prohibited or restricted in certain areas—for example, hands-free use only. Go to www.motorola.com/callsmart (in English only) for more information.

Your mobile device lets you communicate by voice and data—almost anywhere, anytime, wherever wireless service is available and safe conditions allow. When driving a car, driving is your first responsibility. If you choose to use your mobile device while driving, remember the following tips:

- **Get to know your Motorola mobile device and its features such as speed dial and redial.** If available, these features help you to place your call without taking your attention off the road.
- **When available, use a hands-free device.** If possible, add an additional layer of convenience to your mobile device with one of the many Motorola Original hands-free accessories available today.
- **Position your mobile device within easy reach.** Be able to access your mobile device without removing your eyes from the road. If you receive an incoming call at an inconvenient time, if possible, let your voicemail answer it for you.
- **Let the person you are speaking to know you are driving; if necessary, suspend the call in heavy traffic or hazardous weather conditions.** Rain, sleet, snow, ice and even heavy traffic can be hazardous.
- **Do not take notes or look up phone numbers while driving.** Jotting down a “to do” list or going through your address book takes attention away from your primary responsibility—driving safely.

- **Dial sensibly and assess the traffic; if possible, place calls when your car is not moving or before pulling into traffic.** If you must make a call while moving, dial only a few numbers, check the road and your mirrors, then continue.
- **Do not engage in stressful or emotional conversations that may be distracting.** Make people you are talking to aware you are driving and suspend conversations that can divert your attention away from the road.
- **Use your mobile device to call for help.** Dial 999 or another local emergency number in the case of fire, traffic accident or medical emergencies (wherever wireless phone service is available).
- **Use your mobile device to help others in emergencies.** If you see a road accident, crime in progress or other serious emergency where lives are in danger, call 999 or another local emergency number (wherever wireless phone service is available), as you would want others to do for you.
- **Call roadside assistance or a special non-emergency wireless assistance number when necessary.** If you see a broken-down vehicle posing no serious hazard, a broken traffic signal, a minor traffic accident where no one appears injured or a vehicle you know to be stolen, call roadside assistance or another special non-emergency wireless number (wherever wireless phone service is available).

www.hellomoto.com

Certain mobile phone features are dependent on the capabilities and settings of your service provider's network. Additionally, certain features may not be activated by your service provider and/or the provider's network settings may limit the feature's functionality. Always contact your service provider about feature availability and functionality. All features, functionality and other product specifications, as well as the information contained in this guide, are based upon the latest available information and believed to be accurate at the time of printing. Motorola reserves the right to change or modify any information or specifications without notice or obligation.
