### **SAFETY TIPS**

- Use of wireless hands-free system (headphone, headset) with a low power Bluetooth emitter.
- Make sure the cell phone has a low SAR.
- Keep your calls short or send a text message (SMS) (instead. This advice applies especially to children, adolescents and pregnant women.
- Use cell phone when the signal quality is good.
- People having active medical implants should preferably keep the cell phone at least 15 cm away from the implant.

## SAFETY PRECAUTION

---

For your safety and proper use of the mobile phone, please read the following guidelines carefully:

- Do not switch the mobile phone on when close to chemical factory, gas station or other explosive objects.
- While driving, please use headset for safety purposes, unless otherwise in emergency, always stop the car on roadside to have a call conversation.
- Because the use of the mobile phone can cause interference in the aircraft, never use the mobile phone in an aircraft. The use of the mobile phone is dangerous and illegal; do switch off the mobile phone before boarding.
- Pay special attention to the use of the mobile phone near heart pacemaker, deaf-aid and some other medical equipment, because the mobile phone can cause interference with them.
- Non genuine accessories will harm your device and could result in warranty cancellation.
- Do not dismantle the mobile phone without permission. In case of failure, please contact the supplier as soon as possible.
- Do not plug the charger into the mobile phone and charge without battery. Always power off the mobile phone when taking out the battery; otherwise the memory of the phone may be damaged.
- When charging the mobile phone, always keep it in the place with good ventilation, heat sink and away from flammable and explosive objects.

---

■ In order to avoid demagnetization, always keep the mobile phone away from magnetic objects such as CD, credit card etc.

■ Ensure the mobile phone not to contact any liquid; once such case occurs, remove the battery and contact the supplier immediately.

■ Do not use the mobile phone in the environment with too high or too low temperature, never expose the mobile phone under strong sunshine or too wet environment. The suitable temperature for the phone and accessories is 0°C-40°C. The height to use the phone shall be less than 2,000m.

■ Do not use liquid or wet cloth with a strong cleanser to clean the mobile phone.

■ This mobile phone has video shooting and audio recording functions, which shall be used as per the related laws and regulations.

■ Always keep the mobile phone out of children's reach. Do not throw or vibrate the mobile phone because violent treatment to the mobile phone may damage the inner circuits and precise structures.

■ Please do not discard the waste battery into general household garbage. Please deal with the waste battery according to the provisions.

**Warning:** Company will not bear any responsibility for any incompliance with the above guidelines or improper use of the mobile phone. Company keeps the right to make modifications to any of the content here in this user guide without public announcement in advance. The

---

content of this manual may vary from the actual content displayed on a mobile phone. In such case, the latter shall govern.

## WELCOME

---
