This product meets applicable SAR national SAR limits of 2.0 W/kg. The specific maximum SAR values can be found in the SAR information section of this manual.

Warning: Prevent electric shock, fire, and explosion

Do not use damaged power cords or plugs, or loose electrical

Do not touch the power cord with wet hands, or disconnect the charger by pulling on the cord

Do not bend or damage the power cord

Do not use your device while charging or touch your device with

Do not short-circuit the charger or the battery

Safety precautions

Do not drop or cause an impact to the charger or the battery

Do not charge the battery with chargers that are not approved by

Do not use your device during a thunderstorm

Your device may malfunction and your risk of electric shock is increased.

Do not handle a damaged or leaking Lithium Ion (Li-Ion) battery For safe disposal of your Li-lon batteries, contact your nearest

Handle and dispose of batteries and chargers with care

- Use only Samsung-approved batteries and chargers specifically designed for your device. Incompatible batteries and chargers can cause serious injuries or damage to your device.
- Never dispose of batteries or devices in a fire. Follow all loca regulations when disposing of used batteries or devices.
- Never place batteries or devices on or in heating devices, such as ve ovens, stoves, or radiators. Batteries may explode wher
- Never crush or puncture the battery. Avoid exposing the battery to high external pressure, which can lead to an internal short circuit and

Protect the device, batteries, and chargers from damage

- · Avoid exposing your device and batteries to very cold or very hot
- Extreme temperatures can cause the deformation of the device and reduce the charging capacity and life of your device and batteries.
- · Prevent batteries from contacting metal objects, as this can create a connection between the + and – terminals of your batteries and lead between the temporary or permanent battery damage.
- · Never use a damaged charger or battery

Caution: Follow all safety warnings and regulations when using your device in restricted areas

Turn off your device where prohibited

Comply with all regulations that restrict the use of a mobile device in a

Do not use your device near other electronic devices

Most electronic devices use radio frequency signals. Your device may interfere with other electronic devices

Do not use your device near a pacemaker

- Avoid using your device within a 15 cm range of a pacemaker if possible, as your device can interfere with the pacemake
- · If you must use your device, keep at least 15 cm away from the
- To minimise the possible interference with a pacemaker, use your device on the opposite side of your body from the pacemak

Do not use your device in a hospital or near medical equipment that can be interfered with by radio frequency

If you personally use any medical equipment, contact the manufacturer of the equipment to ensure the safety of your equipment from radio

If you are using a hearing aid, contact the manufacturer for information about radio interference

Some hearing aids may be interfered with by the radio frequency of your device. Contact the manufacturer to ensure the safety of your hearing aid.

Turn off the device in potentially explosive environ

- Turn off your device in potentially explosive environments instead of removing the battery
- Always comply with regulations, instructions and signs in potentially · Do not use your device at refuelling points (service stations). near
- but not see your device at learning points (service stations), near fuels or chemicals, and at blasting areas.
 Do not store or carry flammable liquids, gases, or explosive materials in the same compartment as the device, its parts, or accessories.

Turn off your device when in an aircraft

Using your device in an aircraft is illegal. Your device may interfere with the electronic navigation instruments of the aircraft.

Electronic devices in a motor vehicle may malfunction due to the radio frequency of your device

Electronic devices in your car may malfunction due to radio frequency of your device. Contact the manufacturer for more information

Comply with all safety warnings and regulations regarding mobile device usage while operating a

While driving, safely operating the vehicle is your first responsibility. Never use your mobile device while driving, if it is prohibited by law. For your safety and the safety of others, practice good common sense and emember the following tips

- Use a hands-free device.
- Get to know your device and its convenience features, such as speed dial and redial. These features help you reduce the time Position your device within easy reach. Be able to access your wireless device without removing your eyes from the road. If you
- receive an incoming call at an inconvenient time, let your voice mail answer it for you.
- Let the person you are speaking with know you are driving. Suspend calls in heavy traffic or hazardous weather conditions. Rain, sleet, snow, ice, and heavy traffic can be hazardous.
- Do not take notes or look up phone numbers. Jotting down a "to do" list or flipping through your address book takes attention away from your primary responsibility of driving safely.
- Dial sensibly and assess the traffic. Place calls when you are not moving or before pulling into traffic. Try to plan calls when your car will be stationary. If you need to make a call, dial only a few numbers, check the road and your mirrors, then continue.

- Do not engage in stressul or included a overstance that may be distracting. Make people you are talking with aware you are driving and suspend conversations that have the potential to divert your attention from the road.
- Use your device to help others in emergencies. If you see an auto accident, a crime in progress, or a serious emergency where lives are in danger, call a local emergency number.
- Call roadside assistance or a special, non-emergency assistance number when necessary. If you see a broken-down vehicle posing no serious hazard, a broken traffic signal, a minor traffic accident

Proper care and use of your mobile device

- · Humidity and all types of liquids may damage device parts or
- Do not turn on your device if it is wet. If your device is already on
- Liquids will change the colour of the label that indicates water damage inside the device. Water damage to your device can void your manufacturer's warranty.

Do not use or store your device in dusty, dirty areas

Do not store your device on slopes

If your device falls, it can be damaged.

Do not store your device in hot or cold areas. Use your device at -20 °C to 50 °C

temperature can reach up to 80 °C

- Do not expose your device to direct sunlight for extended periods of
- Store the battery at 0 °C to 40 °C.

Do not store your device with such metal objects as coins, keys and necklaces

- Your device may become deformed or malfunction
- · If the battery terminals are in contact with metal objects, it may cause

Do not store your device near magnetic fields

- · Your device may malfunction or the battery may discharge from exposure to magnetic fields.
- Magnetic stripe cards, including credit cards, phone cards, passbooks, and boarding passes, may be damaged by magnetic fields. Do not use carrying cases or accessories with magnetic closures or allow your device to come in contact with magnetic fields for extended.
- Do not store your device near or in heaters, microwaves, hot

cooking equipment, or high pressure containers The battery may leak.

- · Your device may overheat and cause a fire.

Do not drop your device or cause impacts to your device · The screen of your device may be damaged

If bent or deformed, your device may be damaged or parts may

Do not use your device or applications for a while if the device is Prolonged exposure of your skin to an overheated device may cause

low temperature burn symptoms, such as red spots and pigmentation If your device has a camera flash or light, do not use a flash close

Using a flash close to the eyes may cause temporary loss of vision or damage to the eyes

Use caution when exposed to flashing lights

- While using your device, leave some lights on in the room and do not hold the screen too close to your eyes.
- Seizures or blackouts can occur when you are exposed to flashing ights while watching videos or playing Flash-based games for extended periods. If you feel any discomfort, stop using the device immediately.

Reduce the risk of repetitive motion injuries

When you repetitively perform actions, such as pressing keys, drawing characters on a touch screen with your fingers, or playing games, you may experience occasional discomfort in your hands, neck, shoulders, or other parts of your body. When using your device for extended periods, hold the device with a relaxed grip, press the keys lightly, and take frequent breaks. If you continue to have discomfort during or after such use, stop use and see a physician.

Ensure maximum battery and charger life

- · Avoid charging batteries for more than a week, as overcharging may shorten battery life.
- Over time, unused batteries will discharge and must be recharged
- Disconnect chargers from power sources when not in use · Use batteries only for their intended purposes

Use manufacturer-approved batteries, chargers, accessories a

- Using generic batteries or chargers may shorten the life of your device Samsung cannot be responsible for the user's safety when using
- accessories or supplies that are not approved by Samsung Do not bite or suck on the device or the battery
- . Doing so may damage the device or cause explosion
- . If children use the device, make sure that they use the device

When speaking on the device:

- Hold the device upright, as you would with a traditional phone
 Speak directly into the mouthpiece.

 Avoid contact with your device's internal antenna. Touching the antenna may reduce the call quality or cause the device to transmit

Protect your hearing and ears when using a headset

- · Excessive exposure to loud sounds can cause hearing damage
- Exposure to loud sounds while driving may distract your attention and cause an accident. Always turn the volume down before plugging the
- earphones into an audio source and use only the minimum volume setting necessary to hear your conversation or music. · In dry environments, static electricity can build up in the headset. Avoid using headsets in dry environments or touch a metal object to discharge static electricity before connecting a headset to the

Use caution when using the device while walking or moving Always be aware of your surroundings to avoid injury to yourself or

Do not carry your device in your back pockets or around your waist You can be injured or damage the device if you fall.

Do not disassemble, modify, or repair your device Any changes or modifications to your device can void your

- manufacturer's warranty. For service, take your device to a Samsung Service Centre
- Do not disassemble or puncture the battery, as this can cause

Do not paint or put stickers on your device

Paint and stickers can clog moving parts and prevent proper operation. If you are allergic to paint or metal parts of the product, you may experience itching, eczema, or swelling of the skin. When this happens stop using the product and consult your physician.

When cleaning your device:

- Wipe your device or charger with a towel or a rubber.
- Clean the terminals of the battery with a cotton ball or a towel.
 Do not use chemicals or detergents. Do not use the device if the screen is cracked or broken
- Broken glass or acrylic could cause injury to your hands and face. Take the device to a Samsung Service Centre to have it repaired.

Do not use the device for anything other than its intended use

Avoid disturbing others when using the device in public Do not allow children to use your device

Your device is not a toy. Do not allow children to play with it as they could hurt themselves and others, damage the device, or make calls that increase your charges. Install mobile devices and equipment with caution Ensure that any mobile devices or related equipment installed in your vehicle are securely mounted.

Avoid placing your device and accessories near or in an air bag

deployment area. Improperly installed wireless equipment can cause serious injury when air bags inflate rapidly.

Allow only qualified personnel to service your device Allowing unqualified personnel to service your device may result in damage to your device and will void your manufacturer's warranty.

- Handle SIM cards or memory cards with care Do not remove a card while the device is transferring or accessing information, as this could result in loss of data and/or damage to the
- Protect cards from strong shocks, static electricity, and electrica noise from other devices. Do not touch gold-coloured contacts or terminals with your fingers or

metal objects. If dirty, wipe the card with a soft cloth Ensure access to emergency services

Emergency calls from your device may not be possible in some areas or circumstances. Before travelling in remote or undeveloped areas, plan an alternate method of contacting emergency services personnel.

Keep your personal and important data safe While using your device, be sure to back up important data. Samsung is not responsible for data loss.

- When disposing of your device, back up all data and then reset your device to prevent misuse of your personal information. Carefully read the permissions screen when downloading applications. Be particularly cautious with applications that have
- access to many functions or to a significant amount of your personal Check your accounts regularly for unauthorised or suspicious use. If you find any sign of misuse of your personal information, contact your service provider to delete or change your account information.
- · In the event your device is lost or stolen, change the passwords on
- your accounts to protect your personal information.

 Avoid using applications from unknown sources and lock your device with a pattern, password, or PIN.

Do not distribute copyright-protected material Do not distribute copyright-protected material that you have recorded to others without the permission of the content owners. Doing this may violate copyright laws. The manufacturer is not liable for any legal issues caused by the user's illegal use of copyrighted material.

Specific Absorption Rate (SAR) certification information

THIS DEVICE MEETS INTERNATIONAL GUIDELINES FOR **EXPOSURE TO RADIO WAVES**

Your mobile device is a radio transmitter and receiver. It is designed not to exceed the limits for exposure to radio waves (radio frequency electromagnetic fields) recommended by international guidelines. The guidelines were developed by an independent scientific organisation (ICNIRP) and include a substantial safety margin designed to assure the safety of all persons, regardless of age and health.

The radio wave exposure guidelines use a unit of measurement known as the Specific Absorption Rate, or SAR. The SAR limit for mobile devices is 2.0 W/kg. Tests for SAR are conducted using standard operating positions with the device transmitting at its highest certified power level in all tested frequency bands. The highest SAR values under the ICNIRP guidelin

Maximum SAR for this model and conditions under which it was

Head SAR 0.88 W/kg

During use, the actual SAR values for this device are usually well below the values stated above. This is because, for purposes of system efficiency and to minimise interference on the network, the operating power of your mobile device is automatically decreased when full powe is not needed for the call. The lower the power output of the device, the lower its SAR value

Organisations such as the World Health Organisation and the US Food and Drug Administration have suggested that if people are concerned and want to reduce their exposure, they could use a hands-free accessory to keep the wireless device away from the head and body during use, or reduce the amount of time spent using the device For more information, visit www.samsung.com/sar and search for your device with the model number.

Correct disposal of this product

(Waste Electrical & Electronic Equipment)

' (Applicable in the European Union and other European countries with separate collection systems) This marking on the product, accessories or literature indicates that the product and its electronic accessories (e.g. charger, headset, USB cable) should not be disposed of with other household waste at the end of their working life.

To prevent possible harm to the environment or human health from uncontrolled waste disposal, please separate these items from othe types of waste and recycle them responsibly to promote the sustain reuse of material resources. Household users should contact either the retailer where they purchased this product, or their local government office, for details of where and how they can take these items for environmentally safe recycling. Business users should contact their supplier and check the terms and conditions of the purchase contract. This product and its electro

Use the touch screen

Learn basic actions to use the touch screen.

- For the optimal use of the touch screen, remove the protection film before using your phone.
- Your touch screen has a layer that detects small electrical charges emitted by the human body. For best performance, tap the touch screen with your fingertip. The touch screen will not react to touches of sharp tools, such as a stylus or pen.
- Tap: Touch once to select or launch a menu, option, or application

- · Tap and hold: Tap an item and hold it for more than 2 seconds.
- · Drag: Tap and hold on an item, and then drag your finger to move the item

Turn your phone on or off

To turn your phone on,

- 1. Press and hold [つ]
- 2. Enter your PIN and press **OK** (if necessary).
- 3. When the setup wizard opens, customise your phone as desired by following the screen.

If the battery remains fully discharged or removed from the device, the time and date will be reset.

To turn your phone off, repeat step 1 above.

Access menus

To access your phone's menus.

- 1. In Idle mode, press Menu to access Menu mode.
- 2. Scroll left or right to a main menu screen.
- 3. Select a menu or application.
- 4. Press the Back key to move up one level; Press [to return to Idle mode.

- When you access a menu requiring the PIN2, you must enter the PIN2 supplied by the SIM card. For details, contact your service provider.
- · Samsung is not responsible for any loss of passwords or private information or other damages caused by illegal software.

Manage your SIM cards

Your phone supports Dual SIM mode that enables you to use two SIM cards at the same time without changing them. Learn to activate SIM cards and change the card

Your device supports dual standby with two different networks. You cannot make or answer calls on both networks at the same time.

To switch networks

In Idle mode, press and hold the Back key to switch between networks. The icon of the selected SIM card is

To activate SIM cards

- 1. In Menu mode, select **Settings** \rightarrow **SIM cards** $management \rightarrow \textbf{Network}.$
- 2. Select a SIM card → On.

To switch SIM cards automatically

- 1. In Menu mode, select Settings \rightarrow SIM cards management → SIM auto switch.
- 2. Select SIM auto switch.
- 3. Set the starting and ending time to use the SIM card.
- 4. Select Save

To change the names and icons of the SIM cards

- In Menu mode, select Settings → SIM cards management → Register card.
- 2. Select a SIM card and change the name and the icon of the card
- 4. Repeat steps 2-3 for another SIM card.

Make a call

- 1. In Idle mode, select Keypad and enter an area code and a phone number
- Press [] to dial the number.
- 3. To end the call, press [].

Answer a call

- 1. When a call comes in, press [-].
- 2. To end the call, press [].

Adjust the volume

To adjust the volume of the ringtone
