

# IdeaTab A1000

## Quick Start Guide v1.0

### Welcome

Please read this guide carefully before using your IdeaTab. The guide will help you learn tips on setting and using IdeaTab.

The information in this guide is based on default settings. Illustrations and screenshots used here may differ from the actual product appearance and screen displays.

### Getting started

**Screen lock/unlock**  
In standby mode, press the Power button to lock your IdeaTab. To unlock the screen, press the Power button, and then drag the on-screen slider to enter the interface displayed before it locks.

**Sleep/Wake**  
If you do not touch the screen for a while, IdeaTab dims its screen to enter sleep mode for power saving.

**Turning IdeaTab off**  
While in standby mode, press and hold the Power button and then follow the on-screen instructions to confirm shutdown.

## Inserting SD card

IdeaTab supports SD card extension. To insert an SD card, do the following:

1. Open the SD card cover.
2. Insert the SD card as shown by the arrow.
3. Close the SD card cover.

 Keep the metal surface down for SD card.

## Connecting IdeaTab to PC

You can connect IdeaTab to the PC's USB port with the cable provided for battery charging or data transferring with the PC.

There are three connection methods available: USB storage, Media device (MTP) and Camera (PTP).

### Installing apps and games

Transfer the APK setup file from the PC to IdeaTab, and then open it in the file manager on IdeaTab. The installer will run automatically.

## Customizing the desktop

► Touch  > **WIDGETS**. You can drag your favorite applications and widgets onto the desktop.

### Adding apps/widgets to the desktop

Tap and hold the icon of your desired application or widget, until the desktop background pattern appears on the screen, and then place the icon wherever you wish.

### Editing the desktop

Tap and hold any icon on the desktop and then drag it to your preferred location or delete it from the desktop.

## Communication

### Wi-Fi connection

You can connect your tablet to the Internet using Wi-Fi. When Wi-Fi is on, your IdeaTab will automatically scan for Wi-Fi hotspots within range. Select the Wi-Fi hotspot you want to connect to.

### Bluetooth connection

If your computer has an integrated Bluetooth adapter card, it can connect to and transfer data wirelessly with other Bluetooth enabled devices, such as notebook computers, PDAs and cell phones. You can transfer data between these devices without cables and up to 10 meters range in open space.

The actual maximum range may vary due to interference and transmission barriers.

## Browsing the web

► Touch  > **Browser**. Now you can browse the Web and download applications.

-  ..... Add a bookmark
-  ..... Search or type a URL
-  ..... Bookmarks, history and saved pages

 The above functions require your IdeaTab to connect to the Internet via Wireless network.

## Camera

► Touch  > **Camera**. Now you can record the wonderful moments of your life with the camera.

Touch  > **Gallery**. Now you can view photos/videos from your IdeaTab.

### Camera

There are two modes available for the camera: photo and video.

### Album

You can zoom in/out a photo by double-tapping or moving your two fingers apart/together while touching the screen.
