1   The basics

NOTE: For basic operating instructions, see the printed *Quick Start* guide included in the box with your tablet.

IMPORTANT: Before using the tablet for the first time, connect it to external power, and then charge the battery for at least 15 minutes.

To start using your tablet, follow these instructions:

1.   After charging the battery, and while the battery image is displayed on the screen, turn on the tablet by pressing and holding the power button about 5 seconds until the HP logo is displayed.

    The first time you turn on the tablet, you will see a Welcome screen.

    IMPORTANT: If the battery image is not displayed on the screen, press the power button briefly to display the image, and then press and hold the power button until the HP logo is displayed.

2.   Follow the on-screen instructions to select a language, connect to a wireless network, and sign into your Google™ account.

    NOTE: If you do not have a Google account, you can create one now. When you sign into a Google account, the email, contacts, calendar events, and data associated with that account are synchronized with your tablet. If you have additional Google accounts, you can add them later.

8 Backing up and recovering your data

Updating apps, widgets, and the operating system

HP recommends that you update your apps, widgets, and the operating system on a regular basis to the latest versions. Updates can resolve issues and bring new features and options to your tablet. Technology is always changing, and updating apps, widgets, and the operating system allows your tablet to run the latest technology available. For example, older apps and widgets might not work well with the most recent operating system.

Go to the Google Play store to download the latest versions of HP and third-party apps and widgets. The operating system will download system updates automatically and notify you when it is ready to install these updates. If you want to update the operating system manually, go to http://www.hp.com/support.

Back up and reset

You can set preferences for backing up and restoring your data in case of loss.

1. Touch (:::), and then touch ⬚.

2. Under **PERSONAL**, touch **Back up & reset**.

3. Under **BACKUP & RESTORE**, select one or more of the following:

   ● **Back up my data**—Select the check box to enable backing up app data, Wi-Fi passwords, and other settings to Google servers.

   ● **Backup account**—Select a Google account for backing up data.

   ● **Automatic restore**—Select the check box to enable backed up settings and data to be restored when an app is reinstalled.

Factory data reset

To reset all settings and delete all data on the device:

1. Touch (:::), and then touch ⬚.

2. Under **PERSONAL**, touch **Back up & reset**.

3. Under **PERSONAL DATA**, select **Factory data reset**, and then follow the on-screen instructions.
