1 Introduction

1.1 Acknowledgment

Thanks for your purchase of our product, 7" high definition tablet PC. Its CPU is Quad-core Cortex –A7, which apply dominant frequency 1.3GHz; it is based on Android4.2 operation system, and easy to expand the third application procedure.

The product is designed with various functions, including WIFI, Camera, and Android OS and so on. It is easy to achieve wireless communication and internet; you have access to surf the internet anytime and anywhere. The manual systematically introduces the functions, use techniques and announcements, please read this manual carefully before use of device.

1.2 Announcements

Preventive maintainance

- Please always keep the device dry. To avoid the device short trouble, corrosion fault and electric short, please prevent the device, battery and charger from water and moisture, and don't operate the device or charger by wet hand.
- Please prevent the device, battery, charger from violent shock or shake to avoid Failure.
- Please prevent the device, battery, charger in overheating and too cold circumstances to avoid Failure.
- Never shock, throws, drop, and bend the device, Charger.
- Never disassemble the device and accessories arbitrarily, otherwise the device and accessories are not in our company warranty scope.
- Pattern lock and password forget by customer cases will be on chargeable basis.

1.3 Safety Instruction

Before the operation of the device, please read this chapter and teach your kids about these information. For further details, please refer to the safety instructions and announcement.

- Never use the device when driving car, in order to ensure safe driving.
- In the medical area, please follow related rules and regulations. Please shut down the device when it is near to the medical area.
- To avoid the wireless signal to interrupt the plane, please shut down the device or use airplane mode when you are boarding in a flight.
- To avoid electronic equipment failure, please shut down the device in the vicinage of high-accuracy electronic equipments.
- Please don't disassemble the device and accessories. Only authorized agent has access to service the device.
- Please keep the device far away from magnetic equipments, the radiation of device may erase the data stored in the magnetic equipments.
- Never use the device in the vicinage of high temperature, inflammable gas (gas station).
- Protect the device and accessories from kids reach scope, and avoid the kids to use the device without parents' supervision.
- Please comply with related rules and regulations, and respect others' privacy and legal rights while using the device.
- Please strictly adhere to related instructions in the manual when using USB cable to ensure the safety of the device or PC.

2 Device Introduction

2.1 Device Operation and Preparation

Battery Charging

If this device is first used, please use AC adaptor to charge it fully..

- 1. Apply the power adpter to charge for device.
- 2. Check power icon.

2.2 Device Status and Reminder

Reminder icons

When some reminder or notification message appears on the notification pane, please click column and slip the screen to open the reminder list. Choose the menu you need, and confirm the information. Then you can close the reminder window through clicking the column to slide up. Please refer to below status icons:

\checkmark	new email		Airplane Mode on			
4	USB connected	<u>+</u>	downloading			
\bigcirc	Return button Home butto		Home button			
Г	display	display recently-used application				

Picture 2.1

Reminder board

Reminder icons will work while receiving emails, WIFI is open, you can open the reminder board to view the detailed information.

Open the reminder board

When the reminder column shows new reminder icon, please hold the column and slip down your finger, then the reminder board is opened.

3 Quick Start Guide

3.1 Keys Function

Keys Function Description:

Power button	Short press to sleep/wake up, long press to startup and shutdown.
Volume ◀+	increase the volume
Volume ^{◀–}	decrease the volume
HOME (home)	Click it in any interface will return to main interface.
Back (back)	Click it in any interface will return to previous menu
Menu button	This button will display in menu interface.
display recently-used application	display recently browsed history

3.2 Startup and Shutdown

Startup

Long press **POWER key for three seconds**, you can enter into startup picture. The system enters into screen lock status, please unlock it.

Shutdown

- 1. Long press POWER, it will enter into shutdown window.
- 2. Shutdown window contains three options Power off, Restart and Silent mode..
- 3. Click Power off is the last step.

3.3 Open and Close of the Screen

Screen will be closed on its own when no operation happens.

- 1. Screen will be closed on its own if no operation happens for some time to save battery power
- 2. When screen is open, press **POWER** key, the screen will be closed immediately.

Open the screen when it is closed.

If the screen is closed, short press **POWER** key to open the screen. The screen will be locked, slide the unlock icon to unlock the screen.

3.4 Usage of Touch Screen

Device operating methods

There are below methods to view the main screen, menu and application procedure in your device.

Click

When you want to use the screen keyboard typing or choose application in the main interface, you only need to touch it by your finger.

Press on

If you want to open some item(textbox or the link in the webpage), or shortcut and main procedure move, you can press on this item.

Quickly slide or slide

Quickly slide or slide indicates make quick vertical or horizontal movement by finger

Pull

Before you pull, you need to hold it with strength until you pull it into the position you want.

Rotate

For most pictures, you only need to rotate the device sidewise to change the screen direction from horizontal to vertical. For instance, when you are typing words and watching movies

View notification

Click the right bottom of device , drag it and view notification

View system basic information

Click the right top of device, drag it and view notification

3.5 Homepage

The extended home page

The home page can be extended beyond the wideness of screen to provide more space, which you can put new-added shortcuts and widgets. Click the blank space in home page then slide right or left to extend to the right or left of the screen.

Desktop App Management

Creat folder in desktop

- 1. To make a new folder on your home screen, stack one app on top of another
- 2. Click the stacked icon, you can unfold all apps

Click black frame "unname folder", it will show hidden keyboard, you can rename this folder (this operation is same as iphone IOS system), the apps in this folder can be adjusted location.

Delete the icons in desktop

- 1. Long press the icons need to be remove, then on the right above of the screen, it will appear icons. X icons.
- 2. Drag the icon to the above of the remove icon, till the icon become red, then move your finger to delete the icon

3.6 Visit Application Procedures

Click **button**, enter into main menu as picture 3.8; choose the application procedure you want to visit.

Picture 3.8

3.7 USB Connection

Device storage configuration

Before transmitting documents, you have to conduct storage configuration for your

device:

- 1. Connect the device and computer by USB cable, the reminder column will show the notification.
- 2. Open the reminder board; please view Chapter 2.2 **device status and reminder** to learn how to open the board.
- 3. In the reminder board, click the "USB Connected", it will as below Picture **3.10**, then click "open USB storage configuration".
- 4. Now the USB is connected successfully.

🥌 USB mass storage			
		USB connected You've connected to your computer via USB. Touch the but want to copy files between your computer and your Andr	ton below if you oid's SD card.
		Turn on USB storage	
	ব- ব+ (০)	ψ USB connected	12:56

Picture 3.10

Copy the document into memory card

- 1. Connect the device to computer with USB cable.
- 2. As device storage configuration, it is connected with computer successfully.
- 3. Open the "My computer" in your computer, check the items in "removable disc".
- 4. Copy the documents you need into "removable disc".
- 5. After copying finishes, click "shutdown the USB storage configuration" to uninstall.

3.8 Typing words

Use the screen keyboard

When you start the procedure or choose the words or numbers edition, it will show the screen keyboard.

Choose the typing method you want, as Picture 3.11

- 1. Click **Setting** pocedure application.
- 2. Click Language and Keyboard.

- 3. In the text setting area will reveal all the installed words-typing methods in your device.
- 4. Tick the typing method you want.

4 Operation Technique

Enter widgets interface

In the application interface, click **widgets** on the above of screen, or slide the screen, it will swtich into widgets interface. Long press any widget to create its shortcut, then you can enter into the application through the shortcut icon.

Create application shortcut icons in the desktop

In the application interface or widgets interface, long press any icon to switch into desktop automatically, drag and hold the icon, you can move to any position in the desktop.

note: If the target position has no space, the widget won't be added in the main screen.

4.1 Wireless and network

1. Build wifi connection

- 1. In the main menu or interface, choose **setting** application procedure.
- 1. Open Wi-Fi, device will automatically search the available Wi-Fi wireless internet. As **Picture 4.1**
- 2. Choose the Wi-Fi internet you want to connect, if it has password, it will popup the password window, enter password, click connect.
