User manual
Allview Viva H8+

Foreword

Thank you for purchasing our product.

These operational guidelines for the user, to ensure you a quick and convenient to use, read the instructions carefully before use.

This player is a specialized top quality portable player product with a series of remarkable functions. There will be no separate notice in the case of any change in content of this text.

This company will continue to provide new functions for the development of the product, and there will be no separate change in the case of any change in the product's performance and functions. While this unit is used as a mobile hard disk, this company will not be held liable for the security of files saved in the disk.

If the actual setup and the application methods are not identical to those as set forth in this manual, please access to the latest product information of this company's website.

Key Functions

- Capacitive touch screen, support multi-touch;
- Support WIFI, 3G wireless Network;
- Integrates dual cameras, front 2MP, back 5MP AF
- Network video conversation and support photography function;
- Adopt Android 4.4 system;
- Support auto rotation the screen horizontally or vertically;
- Support Web browsing, chat online, online video, online games and download etc;
- Support ten thousands games and programs download and install.
- Supporting lyric synchronous display;
- Supports maximum 1080P resolution video file putout
- Supporting picture browsing, rotation and lantern slide playing in multiple formats;
- Support E-book function, playing in multiple formats;
- USB2.0 high rate transmission;
- Built-in microphone and long time recording;
- Supporting firmware upgrade;
- Supporting Micro SD Card; Support OTG function, can expand storage space

Basic Operation

Power on

In the shutdown state, long press " ⏻ " button boots

Power off

In the power on state, long press the " ⏻ " key 3 seconds then pop-up device options, select "Power off " for shut down.

Sleep

Under normal operating conditions, short press the power button to get tablet into hibernation. Now, the screen will close. Short press the power button again to resume the normal mode. You can set the device to enter sleep mode automatically after a desired time of non-operation.

Power reset

If there is shutdown to the player in the process of operation, you can turn off and restart the player by pressing "reset" key.

Screen time out

If you do not contact the player within the set time, and do not operate by the button, the contact screen will be automatically turned off.

In any state, short press " ⏻ " button and for activation; Then skid the lock upwards to the green of spotted which will accomplish to access to the upper interface.

If it is necessary to deactivate the contact screen time out function, you can set the [Screen time out] option under [display] function into "Never ".

Using the Micro SD card

After this unit is connected with the computer, you will find two moving disks. The first one is the built-in memory disk for this unit and the other is the disk for the Micro SD card. If no card is inserted, the second disk can not be opened. This unit supports the extension of the Micro SD card from 128MB to 32GB.

Inserting and Pulling out the Micro SD card

Inserting:

Put the Micro SD card face up (side with words), and slightly force the card into the socket of the card, i.e. connecting the unit. Under this state, you can play the content in the Micro SD card.

Pulling:

Slightly push the Micro SD, and it will bounce by a section, and then you can take it out.

Caution:

Please perform inserting and pulling operation when power is off! Otherwise, it will lead to the loss or damage to the files within the unit! If no card is inserted, the computer will be unable to perform read and write operation for the disk notes of the later removable disk (Micro SD card).

Battery:

High capacity Polymer battery is used for this unit.

The duration available of the battery power depends on volume, types of playing files and operation of batteries. The player can be set up by the user as "user define power off time" or "display setup" to save batteries.

Charging:

This unit can be recharged by USB port, you can also use DC Charger:

Take out the DC charger, plug it into the wall outlet with AC 220V, then plug in the DC jack into the device DC-in jack.

Warnings for charging:

1. ***A new battery may be empty and not charged before you get the device.***
2. ***If the device is not used for long time, it is better to charge it to full capacity every 2 or 3 months during storage.***

Power adapter is a key component of the portable player, which play a crucial role in keeping the portable player's normal work and protecting your security when using the player, a long-term customer surveys and after-sales service Practice shows that the malfunction of the portable player In many cases were caused by using inappropriate accessories, in particular the power adapter.

Use the substandard power adapter will shorten the life of the portable player by

considerably, the voltage instability will seriously affected the normal work of the portable player and bring permanent damage on the player's performance and reliability, Use the substandard power adapter will also reduced the vocal quality of the players, shutdown the player when you using it, In addition, Use the substandard power adapter will cause combustion and explosion which will disserve the safety of the consumers.

Gravity induction and horizontal、 vertical screen switch

Through the clicked " ", open/locking gravity induction and horizontal 、 vertical screen switch function.

Go back to main menu and open *"navi"* application to start your navigation.
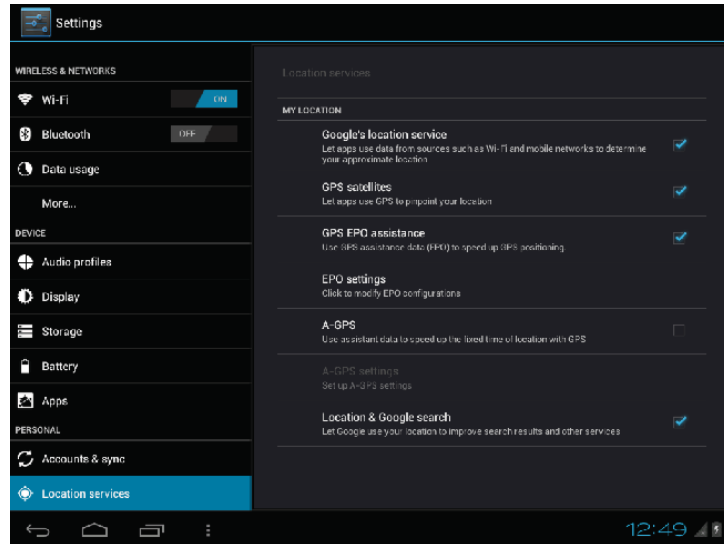

OTG

OTG is the On-The-Go abbreviation. It is a technology that realizes data transmission between portable devices without a host. Specifically, computers are not needed to act as a medium when share data with or transfer documents from other portable devices to your player such as flash disk, audio player and portable hard disk.

OTG Connection Steps:

1. Please check if devices connected to your machine have USB connection activated.

2. In order to access external storage devices from main screen click on File Manager application and then select "Mobile disk".

Remarks:

1. Due to large varieties of portable devices, the player might not recognize some of them.

2. Compatibility with more and more portable devices will be realized through firmware improvement.

3. While using OTG connection, the other portable device relies on the player's power supply. Thus if your player maintains less than 1/3 battery or the other device is a heavy electric consumer, OTG connection might not be proceeded

24

successfully. As an alternative, please provide power supply to the other device exclusively

4.　Currently the OTG only supports one-way operation. That is, documents in other devices can be read or copied to your player. But files in your player can't be pasted to the other device. Nor could you delete files in the other device.

Connect the computer

This machine can be connected through the USB cable to to a personal computer and the data is copied or delete. The specific procedure is as follows.
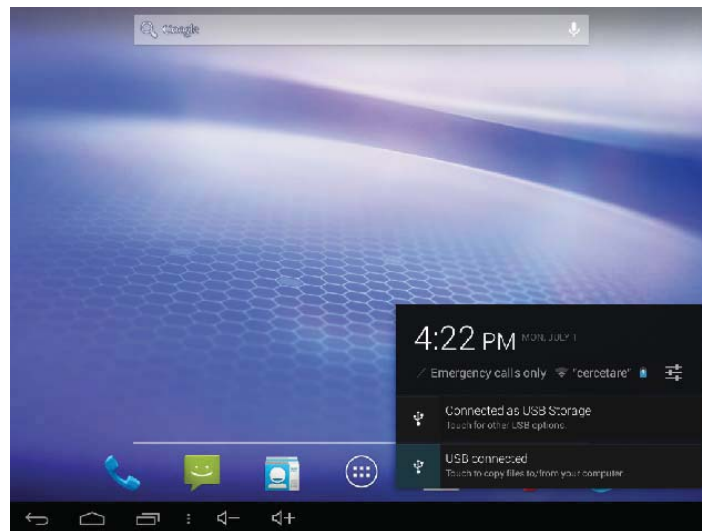

1. Connect the machine through the USB cable to the PC's USB port and you will get notification "USB already connected".

2. Click "USB already connected" notice options, and choose the "open USB storage devices", and then in the personal computer see mobile operators disk dish, can as U disk the use of the machine disk data operation.

3G network Settings

1. Insert the SIM card into the dedicate slot.

2. Into the machine "Settings" under a "wireless and network", will be closed Wifi option, Wifi and 3G are not used in the same time.

Note

Make sure that you turn off the tablet before you insert a SIM card. Also, you must turn off the tablet before you remove any SIM card.

Ethernet network Settings

1. Please deactivate Wi-Fi option from menu "Settings";

2. Connect the Ethernet USB card to the USB port of the device by OTG.

The system will automatically identify the attached device.

3. From "Settings" menu, "Ethernet Settings" please choose "Ethernet" option.

4. If it is necessary to configure IP and Gateway they can be entered by accessing option "Ethernet configuration".

Note

1. Due to the different communication systems Ethernet card more, this machine Ethernet function can't ensure that is compatible with all equipment.

2. Due to external Ethernet card equipment from the machine to the USB interface take electricity, so in Ethernet connection, please ensure that the battery power in one case above.

Calendar

In the main menu, touch "calendar" icon to be able to access the calendar interface.

Under this menu, Touch & slide screen left and right which will accomplish to flip increase or decrease month by month. Before you can add any event, you must add at least one Calendar account to the device and make a calendar visible.
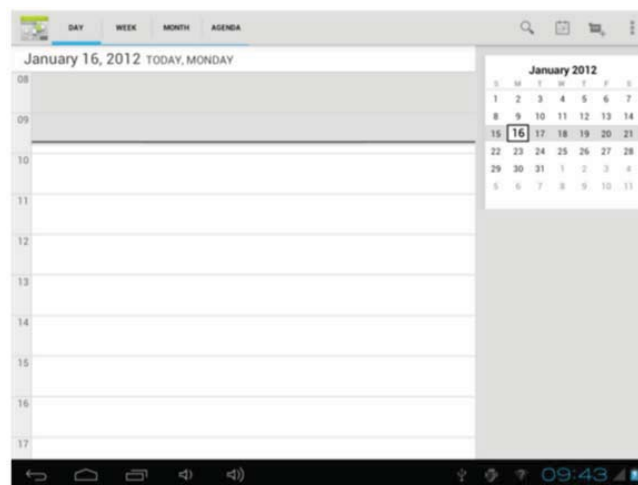

Sound Recorder

In the main menu, select the option of "Sound Recorder" to be able to access recorder interface.
Keys of functions:

- " ☰ ": Return to the recorder folder
- " ● " : Start or pause record
- " ■ ": Stop current record and select save the current record.
- " ⋮ " : Record playing setting menu

Calculator

In the main menu, touch "Calculator" icon to be able to activate the function of Calculator. The calculators can be used like normal others. It's a good assistant for your work and study.
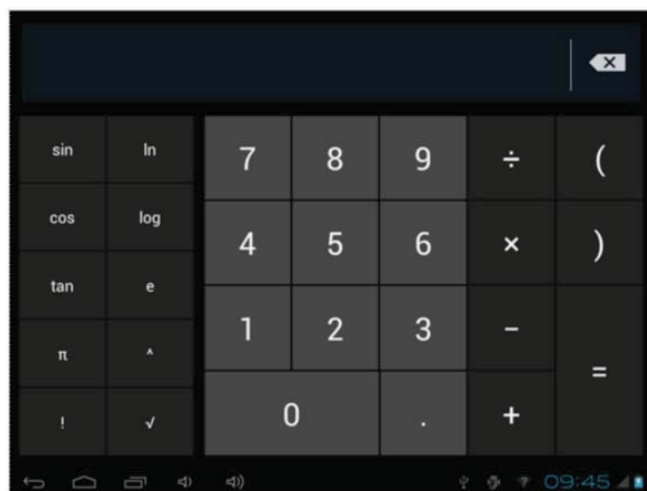

Clock

In the main menu, touch "Clock" icon to be able to activate the function. It's a good assistant for your everyday life.

1.Click "clock" appear as follows interface

2." 🕐 ": Click on it you can set alarm
It will be automatically alarming when you set time.

You can set time, ring tone, repeat options for every alarm clock.

Factory data reset

If this machine is infected, or third party software installed to run this machine is unusual, but through the recovery factory Settings, remove the third party software, and restore the state out by default. Into this machine "Settings"-" privacy ", select

28

"Factory data reset" item, confirmed, will remove all of the data.
Upgrade Player Driver

The firmware is a built-in program, by which you can run various hardware functions. By upgrading the firmware, you can improve or enhance the performance and functions of the player. No upgrading the firmware will not affect the normal operation of the player itself.

The upgrading of firmware may lead to the unit unable to work properly due to error operation. Please read carefully the instructions for upgrading before upgrading. **Note**. Please make sure that players have the upgrading at more than 60% of the battery power. Avoid because the battery power leads to upgrade failure to boot.

2. The upgrade process do not reset or shutdown operation, avoid accident interrupt upgrade can't boot.

3. Through our company provide formal or test versions of the firmware update, but without notice in the premise of the function of the products and the menu changes.

4. When the firmware upgrade stored in all the data in the player will be deleted. So in the firmware upgrade will be stored in the user must be before the important data within the player for backup.

5. The machine firmware does not apply to other types of products, resulting

from the negative consecquences, our company does not undertake any related responsibility.

Common troubleshooting

1.   What is the APK file? It and Android PMP have what relation?

A: APK is the abbreviation of Android Package, that Android installation Package. Through the APK files directly to Android system can be installed in execution PMP players.

2.   How to get the APK application

A: You can download via PC-side installation, you can also "Android market" online to download and install.

3.   Why WIFI connection will interrupt

A: If set "screen time", when the player overtime in standby screen saver, WIFI function will be closed to save electricity purpose; When sensei player, WIFI function will be in about 5 seconds to resume automatic connection.

4.   Why some download APK program, not working properly

A: Download the APK software, mostly by the user to development, without the platform compatibility testing, and part of the hardware and software for Android system version has a special requirements, so there could be downloaded APK documents not compatible, not the normal operation of the phenomenon, the player itself quality problems

5.   Why connected the charger not show charging state

A: When the battery is extremely low, need to use DC charger charging half an hour or more to show charging status

6.   Why can't realize the gravity induction function

A: This machine support gravity feeling function, can be through the shaking to switch the screen machine did show, but some of the application does not support the gravity induction function, it can't realize the screen of switching function, this is the software support question, the functionality of the player.

7.   Players can't boot

1. Check the battery no electricity

2. Connect the ac adapter after inspection again

3 .If after charging still unable to boot, please contact our customer service

8.   Can't Hear the voice in the headset

1) Please check the volume is set to 0

2) Please check whether the connection headphones

9.   Player charging abnormalities

1) Please confirm that the use of the equipment complies with the charger of the player charger requirements

2) Such as connection USB charging, please do not connect to computers lead USB interface

10. Why some download video can't normally broadcast

This player can be compatible with the Internet video files of the play, but because the Internet provide video format, coding method, the resolution, code flow rate in the parameters are different, and may result in part of the video file cannot be played or play anomaly, it is recommended to use a third party video conversion software, in the computer support convert player within the scope of the file format and then copied to the player to play.
