moto turbo

let's get started

At a glance

Your new Moto Turbo has it all — a big, bright, ultra-high-definition display, blazing speed and performance, and a high-capacity long-lasting battery. Use the included Motorola Turbo Charger for a lightning fast recharge.

Caution: before using your phone, please read the safety, regulatory and legal information provided with your product.

Note: your phone may look a little different.

Put in the SIM

Put the nano SIM in and power on. Use the Motorola Turbo Charger to charge up or top off your phone fast. Or, charge your phone without wires using an optional "Qi" wireless charging pad (sold separately).

Sign in

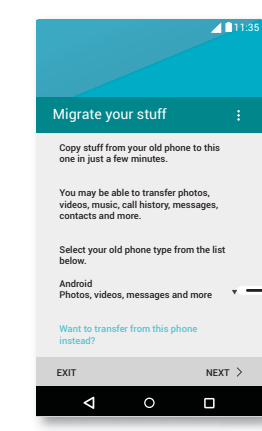

If you use Gmail™, you already have a Google™ account. If not, you can create an account during setup. Signing in to your Google account lets you use Google apps and see your contacts, appointments, photos and more. Just select your language and follow the screen prompts to get started.

Motorola Migrate

Copying your personal data from your old phone to your new phone with Motorola Migrate is easy.

- **From Android™:** on your old phone, download the Motorola Migrate app from Google Play™. Then on your new phone, touch Apps → **Motorola Migrate** → **Android** to get started.
- **From iPhone or other phone:** on your new phone, touch Apps → **Migrate** to get started.

Home screen & settings

From the Home screen, you can explore apps, check notifications, speak commands and more.

- **Add a shortcut to a Home screen page:** touch Apps, touch and hold an app, then drag it to your Home screen, or to the right side of the Home screen to add a new page.
- **Customise:** to change your Wi-Fi, brightness and more, drag the status bar down with two fingers.
- **Share your phone:** to change the user account or set up a new user account, drag the status bar down with two fingers and touch

Help & more

Get answers, updates and info:

- **Help is here:** touch Apps → **Help** for walk-through tutorials, how-tos, FAQs, videos and more, right on your phone.
- **Everything Turbo:** get PC software, user guides and more at www.motorola.com/mymototurbo.
- **Accessories:** get accessories for your phone at www.motorola.com/mobility.
- **Get apps:** touch Apps → **Play Store** to buy and download apps.
- **News:** here's how to find us:
 - YouTube™ www.youtube.com/motorola
 - Facebook™ www.facebook.com/motorola
 - Twitter www.twitter.com/motorola
 - Google+™ www.google.com/+Motorola/posts

SAR This product meets the applicable national or international RF exposure guidance (SAR guideline) when used normally against your ear, or when worn or carried, at a distance of 1.5 cm from the body. The SAR guideline includes a considerable safety margin designed to ensure the safety of all persons, regardless of age and health.

Discover your Moto Turbo

Your Moto Turbo knows whether you're in the car, in a meeting or at home, and adapts to you. Moto Turbo responds to your voice and hand gestures, and shows you important info when the display is off.

Tip: To adjust these features any time, touch Apps  .

Moto Assist

Based on where you are and what you are doing, Moto Assist suggests ways to help you throughout your day. For example, Moto Assist can keep your phone quiet at night when you are asleep.

Moto Voice

Your Moto Turbo is always ready for you. Use your voice to control your phone, even when it's not within reach.

Moto Display

See messages, calls and other notifications as they arrive. Even when your phone is asleep, information discreetly appears on the screen.

Moto Actions

Wave your hand to silence calls or snooze alarms. See your latest notifications with Moto Display just by reaching toward your phone with your hand. Or launch the camera with two flicks of your wrist.

Volume

Press the side Volume key up or down to select a ringtone volume from high to vibrate .

Also, touch one of these options for more settings:

- **All:** receive all notifications and alarms.
- **Priority:** touch  to select which interruptions to receive. You will always hear alarms. Set when you want to be in this mode, or choose indefinitely.
- **None:** turn off all sounds and alarms. Override sound settings from other apps. Set how long to stay in this mode, or choose indefinitely.

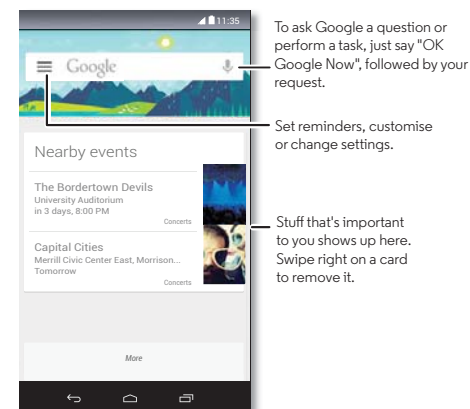

Tip: Touch  for vibrate or  to ring.

Google Now™

Google Now brings you just the right information at just the right time, before you even ask. Weather, traffic, public transport schedules, even the latest scores come automatically, appearing throughout the day just as you need them.

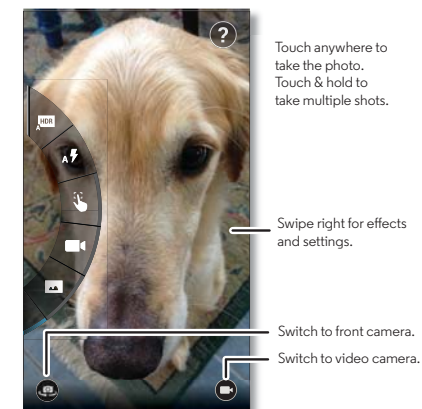

Find it: Flick Home  up

Camera

Take super clear photos with a twist of your wrist and a tap on the screen.

- **Launch it:** Twist your wrist twice, quickly, to launch the camera anytime.
- **Capture it:** tap the screen or press the volume keys to take a photo.
- **Record 4K video:** capture and play back movie-quality 4K videos.
- **Share it:** create a highlight reel of 21 MP photos and videos to share with your friends.

Google Play™

Google Play is a digital content experience from Google where you can find and enjoy your favourite films, books, magazines and Android apps and games.

Find it: Apps   **Play Store**

Note: content may not be available in all countries.

For your safety

Before assembling, charging or using your mobile device for the first time, please read the important product safety and legal information provided with your product.

Warning: don't try to remove or replace the battery yourself—doing so may damage the battery and could cause burning and injury. If your phone becomes unresponsive, try a reboot—press and hold the Power key until the screen goes dark and your phone restarts.

Specific Absorption Rate

YOUR MOBILE DEVICE MEETS MINISTRY OF COMMUNICATION LIMITS FOR EXPOSURE TO RADIO WAVES.

Your mobile device is a radio transmitter and receiver. It is designed not to exceed the limits for exposure to radio waves (radio frequency electromagnetic fields) adopted by the Ministry of Communication. These limits include a substantial safety margin designed to assure the safety of all persons, regardless of age and health.

The radio wave exposure guidelines use a unit of measurement known as the Specific Absorption Rate, or SAR. The SAR limit in India for mobile devices is 1.6 W/kg. Tests for SAR are conducted using standard operating positions with the device transmitting at its highest certified power level in all tested frequency bands. The highest SAR values under the guidelines for your device model are listed below:

Head SAR	GSM 850 MHz, WFi, Bluetooth	0.34 W/kg
Body-worn SAR	LTE BA, WFi, Bluetooth	1.38 W/kg

During use, the actual SAR values for your device are usually well below the values stated. This is because, for purposes of system efficiency and to minimise interference on the network, the operating power of your mobile device is automatically decreased when full power is not needed for the call. The lower the power output of the device, the lower its SAR value.

If you are interested in further reducing your RF exposure then you can easily do so by limiting your usage or simply using a hands-free kit to keep the device away from the head and body.

Usage

This phone supports apps and services that may use a lot of data, so make sure your data plan meets your needs. Contact your service provider for details. Certain apps and features may not be available in all countries.
