SAFETY PRECAUTIONS

Please read the following safety guidelines before using the device.

- Do not use the phone while you are driving.
- Do not place magnetic storage media near your phone. Radiation from the phone may erase the information stored on them.
- Keep your phone and its accessories away from children.
- Mobile phones can interfere with the functioning of medical devices such as hearing aids or pacemakers. People having active medical implants should keep their cell phone at least 15 cm away from the implant.
- Permanent hearing loss may occur if you use earphones or headphones at high volume.
- Use a wireless hands-free system (headphone/ headset) with a low power Bluetooth emitter.
- Make sure the cell phone has a low SAR.
- Keep your calls short or send a text message (SMS) instead. This advice applies specially to children adolescents and pregnant women.
- Use cell phone when the signal quality is good.

Notice:

- Do not dismantle the device or accessories otherwise, manufacturer is not liable to pay for damages as the device and accessories are not covered by warranty.
- Use only original batteries and charging devices.
- Please back up your important data timely and keep them properly. The company is not liable for any failure to call or loss of data due to mis-operation, poor signal or power cut, etc.
- All the screens in this manual are for reference only, and some contents actually displayed may depend upon the presetting of the service provider or the network operator,

or the SIM card. If any functions referred to in this manual are different from those of your device, please follow your device.

- Do not put use it in a place with flammable gas such as a petrol pumps. The temperature recommended for using the device is 5-35℃ Do not touch the charger, power cable or socket with wet hands. This may cause an electric shock.

☛ ***If your phone or any of its accessories do not function normally, then please visit your nearest authorized service facility. The qualified personnel will assist you, and if necessary, will arrange for the service.***

Myths and Facts

- Various Myths about Mobile Handsets & Mobile base stations:
- Myth -Mobile phone use cause headaches.
- Fact - Headaches are not related to Mobile phone use and there is no scientific evidence.
- Myth- It is safer using a mobile phone in a car as the car shields from the radiation.
- Fact - The RF radiation is increased by Mobile phones when used in a car to overcome the shielding.
- Myth- Mobile phones cause brain cancer to the people who use it.
- Fact - There is no scientific evidence that Mobile Phone can cause brain cancer.
- Myth - Nobody is investigating the health effects of RF radiation.
- Fact - The World Health Organization, many national & international organizations and independent expert groups are coordinating to investigate health effects of RF radiation.

SAR (Specific Absorption Rate)

Your device conforms to the Indian guidelines for exposure to radio waves. The limits are given in terms of a unit referred to as the Specific Absorption Rate (SAR), which is a measure of the amount of radio

frequency energy absorbed by the body when using a mobile phone. The SAR value as per the Indian guidelines standard is 1.6 Watts per kg (Watt/kg), averaged over a 6 minutes period and taken over a volume containing a mass of 1 gram of human tissue. The highest SAR value of this device when tested is **0.6894Watt/kg.**

ENVIRONMENTAL CONCERN

Help us save Our Environment…GO GREEN..!!

All our endeavors are directed towards providing environment friendly products to you. The materials used in our devices are recyclable and can be reused to make new products. We strive to make products that are safe for our consumers as well as the environment. Come join hands with us and make world a better place to live.

Preserve natural resources for future generations by recycling your phone. The phone contains some metals, when recycled properly; these can be put back into circulation, decreasing the need for new metal mining. Recycling reduces the need for raw materials, saves energy, helps mitigate Global Warming and reduces pollution, reduces waste products in landfills; therefore preserving natural resources for the future and saving the planet.

Follow some simple steps and contribute towards saving the planet.

DOs
Recycle your handset and its accessories.
To protect natural resources and to promote re-use of the material, kindly separate batteries from other type of waste.

DONTs
Do not dispose off your mobile and its battery in fire.
Do not dispose your mobile with the regular waste.
Do not over charge your handset. Remove the charger when battery is full.

Don’t trash your phone, instead RECYCLE it

This logo signifies that this product and/or its constituents should not be disposed off with other household waste.

Hazards of Improper handling, accidental breakage, damage and /or improper recycling of hazardous elements

If this product is improperly handled, broken or damaged or carelessly recycled or disposed off in the fire, can result in environmental and data security concerns, including the following:

Affect nearly every system in the human body and result in birth defects, brain, heart, liver, kidney and skeletal system damage. They will also significantly affect the nervous and reproductive systems of the human body;
When burned, create cancer-producing dioxins which are released into the air we breathe; if thrown in landfills, may leach into groundwater affecting your local community;
In warm climates, the oxidation of mercury in the environment can be accelerated, leading to the creation of oxidized Hg atoms that are known to be associated with ozone depletion; and Improper recycling additionally results in data security issues, as private electronic information remains on hard drive, if not properly removed before disposal.

How to Recycle

Please get your electronics products recycled only through authorized recyclers, approved by Pollution Control Board. We provide facility of recycling of our products. For details of our collection centers, please visit our website or call our customer care. Help us to GO GREEN.

Constitution of Hazardous Elements in your Device:

Your device does not contain the following hazardous elements in a proportion higher than the limits provided hereunder: maximum concentration value of 0.1% by weight in homogenous materials for lead, mercury, hexavalent chromium, polybrominated biphenyls and polybrominated diphenyl ethers; and maximum concentration value of 0.01% by weight in homogenous materials for cadmium.
