   will sound when time is up.

Important Safety Information
Please read before proceeding

- DO NOT place objects on top of the device, as they may scratch the screen.
- DO NOT drop your device or subject it to severe impacts. Bending the body and pushing the display or keys with extreme force could damage the device.
- DO NOT use a pen or any sharp object to tap the screen.
- DO NOT expose the device to dirty or dusty environments.
- DO NOT place the device on an uneven or unstable surface.
- DO NOT insert any foreign objects into the device.
- DO NOT expose the device to strong magnetic or electrical field.
- DO NOT use or store this equipment in a place where it will be exposed to high temperatures, such as near an open flame or heat-emitting equipment.
- DO NOT use it or store it where fluids such as water can splash onto it. Raindrops, water spray, juice, coffee, steam, or other types of liquids will also cause malfunctions.
- Using this device for long periods of time may cause the device to get warm. If you feel the device is too warm, avoid sustained contact with exposed skin otherwise this might cause discomfort, or eventually a burn.
- Refer to the rating label on the device and be sure that the power adapter complies with the rating. Only use accessories specified by the manufacturer.
- Disconnect the device from an electrical outlet and power off before cleaning the device.
- NEVER attempt to connect or disconnect the power adapter with wet hands.
- Clean the touch screen with a soft cloth. If needed, dampen the cloth slightly before cleaning. Never use abrasives or cleaning solutions.
- DO NOT disassemble the device. Only a certified service technician should perform repair.
- Please check with your Local Authority or retailer for proper disposal of electronic products.
- For USB connection, users must use a USB 2.0 (or higher version) cable.
- The adapter shall be installed near the equipment and shall be easily accessible.
- Keep the operating temperature between -10° C to 50° C for using your phone powered by a battery.
- Keep the operating temperature between -10° C and 45° C while your phone is being charged.
- Do not store your phone in temperatures higher than 50° C.

i

• The temperature of the device might increase while the CPU is busy handling resource consuming activities such as high resolution video decoding. The SW protection mechanism will ensure stop charging whenever the temperature is over the predefined threshold and prepare for shut down if necessary. Please worry not.

Safety Precautions for Battery Use

• Keep the battery dry and away from any liquid since this may cause a short circuit.
• Keep the battery away from metal objects since this may cause a short circuit.
• Do not use damaged or deformed batteries.
• If the battery emits a foul odor, discontinue use.
• Keep the battery away from babies and small children.
• If the battery leaks:
• Do not allow the leaking fluid to come in contact with your skin, eyes or clothing. If already in contact, rinse with clean water immediately and seek medical advice.
• Keep the battery away from fire since this may cause the battery to explode.
• Do not attempt to open or service the battery yourself.
• Do not dispose battery in fire or water.

• Risk of explosion if battery is replaced by an incorrect type.
• Dispose of used batteries according to the instructions.

Road and Environmental Safety

• Turn off the phone in areas with a potentially explosive atmosphere or where flammable objects exist such as gas stations, fuel depots, and chemical plants among others. Sparks from these areas could cause explosion or fire and result in injury or even death.
• Do not use hand-held phones while driving a vehicle. Use hands-free devices as an alternative.

Safety in Aircraft

Do not use the phone on board an aircraft. The phone's network signals may cause interference to the navigation system. As a safety measurement, it is against the law in most countries to use the phone on board an aircraft.

Compliance Information
SAR Information

THIS MOBILE DEVICE MEETS GUIDELINES FOR EXPOSURE TO RADIO WAVES. Your mobile device is a radio transmitter and receiver. It is designed not to exceed the limits for exposure to radio Your mobile device is a radio transmitter and receiver. It is designed not to exceed the limits for exposure to radio waves recommended by international guidelines. These guidelines were developed by the independent scientific organization ICNIRP and include safety margins designed to assure the protection of all persons, regardless of age and health.

The exposure guidelines for mobile devices employ a unit of measurement known as the Specific Absorption Rate or SAR. The SAR limit stated in the ICNIRP guidelines is 2.0W/kg averaged over 10 grams of tissue. Tests for SAR are conducted using standard operating positions with the device transmitting at its highest certified power level in all tested frequency bands. The actual SAR level of an operating device can be below the maximum value because the device is designed to use only the power required to reach the network.That amount changes depending on a number of factors such as how close you are to a network base station. The highest SAR value under the ICNIRP guidelines for use of the device at the ear is XXXX W/kg and at the body is XXXX W/kg (The measure distance of 1.5 cm). Use of device accessories and enhancements may result in different SAR values. SAR values may vary depending on national reporting and testing requirements and the network band.

WEEE Notice

The WEEE logo on the product or on its box indicates that this product must not be disposed of or dumped with your other household waste. You are liable to dispose of all your electronic or electrical waste equipment by relocating over to the specified collection point for recycling of such hazardous waste. Isolated collection and proper recovery of your electronic and electrical waste equipment at the time of disposal will allow us to help conserve natural resources. Moreover, proper recycling of the electronic and electrical waste equipment will ensure safety of human health and environment. For more information about electronic and electrical waste equipment disposal, recovery, and collection points, please contact your local city center, household waste disposal service, shop from where you purchased the equipment, or manufacturer of the equipment.

RoHS Compliance

This product is in compliance with Directive 2002/95/EC of the European Parliament and of the Council of 27 January 2003, on the restriction of the use of certain hazardous substances in electrical and electronic equipment (RoHS) and its amendments.

Warranty Statement

Limited warranty
