

Installing SIM Card and TF Memory Card

1. Open the battery cover, Remove the battery.

2. Put the SIM1 into the card slot1 on the left side, and put the SIM2 into the card slot2 on the right side, then put the TF card on the middle card slot.

InFocus M500

Quick Start Guide

Warranty Statement

Limited warranty

InFocus provides "Product Warranty Statement", at the time of its original purchase, from the InFocus or its authorized distributor, describing the product warranty service.

Notes: InFocus does not provide global cross border warranty. This limited warranty (free of defects in materials and workmanship causing malfunction and defective) shall last for twelve (12) months for the device and six (6) months for the battery from the purchase date. Other than battery, all in-box accessories including data cable, earphone, charger if applied, will have six (6) months warranty. The customer should present the PROOF OF PURCHASE for claiming the warranty. Throughout the warranty period InFocus or its authorized agent will, at own discretion and subject to section Non-Warranty below repair or replace a defective product. All replaced defective parts or components will become the property of InFocus after returning the repaired/replaced product in good working condition. This repair on the same symptom, one (1) month repair warranty is provided.

Non-Warranty

No warranty may be asserted or claimed if (1) the product serial number, date code, IMEI, water indicator or the warranty seal has been removed, erased, defaced or altered; or (2) the defect is found to be case by

- (1) By engineering judgment, the product is mishandled/misused carelessly or accidentally. Unauthorized disassembling or repair, repair by use if unauthorized spare parts, or other actions beyond the reasonable control of InFocus.
- (2) Improper shipping and packing.
- (3) Forces of nature of willful misconduct.
- (4) Rough handling, exposure to moisture, dampness or extreme thermal or environmental conditions or a rapid change in such conditions, corrosion, oxidation, unauthorized modifications or connections.
- (5) Deterioration of the product due to normal wear and tear. Products installed or integrated with software or applications which are not made or authorized by InFocus.

Be sure to back up data and remove any confidential, proprietary or personal information from the product when asking service. InFocus is not responsible for the damage to or loss of any programs, data, or removable storage media inside or sent with the products. As to Non-warranty product, InFocus will check if a repair is economical/available and provide a chargeable service to customer's consideration.
IN NO EVENT SHALL InFocus BE LIABLE UNDER THIS LIMITED WARRANTY FOR LOSS OF PROFIT, LOSS OF ANTICIPATED SAVINGS, LOSS OF DATA OR INDIRECT LOSS, LOSS OF THE PRODUCT OR ANY ASSOCIATED EQUIPMENT, INCIDENTAL OR CONSEQUENTIAL LOSSES OR DAMAGES OF ANY NATURE WHATSOEVER TO THE FULLEST EXTENT THAT THOSE LOSSES OR DAMAGES CAN BE DISCLAIMED BY LAW.

InFocus Information

SAR Information

THIS MOBILE DEVICE MEETS GUIDELINES FOR EXPOSURE TO RADIO WAVES. Your mobile device is a radio transmitter and receiver. It is designed not to exceed the limits for exposure to radio waves recommended by international guidelines. These guidelines were developed by the independent scientific organization ICNIRP and include safety margins designed to assure the protection of all persons, regardless of age and health.

The exposure guidelines for mobile devices employ a unit of measurement known as the Specific Absorption Rate or SAR. The SAR limit stated in the ICNIRP guidelines is 1.6 W/kg averaged over 1 grams of tissue. Tests for SAR are conducted using standard operating positions with the device transmitting at its highest certified power level in all tested frequency bands. The actual SAR level of an operating device can be below the maximum value because the device is designed to use only the power required to reach the network. That amount changes depending on a number of factors such as how close you are to a network base station. The highest SAR value under the ICNIRP guidelines for use of the device at the ear is 0.616W/kg and at the body is 0.548W/kg (The measure distance of 1.5 cm). Use of device accessories and enhancements may result in different SAR values. SAR values may vary depending on national reporting and testing requirements and the network band.

Important Safety Information

- Use a wireless hands-free system (headphone, headset) with a low power Bluetooth emitter.
- Make sure the cell phone has a low SAR.
- Keep your calls short or send a text message (SMS) instead. This advice applies especially to children, adolescents and pregnant women.
- Use cell-phone when the signal quality is good.
- People having active medical implants should preferably keep the cell phone at least 15 cm away from the implant.

RoHS Compliance

This product is in compliance with DIRECTIVE 2011/65/EU OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL of 8 June 2011, on the restriction of the use of certain hazardous substances in electrical and electronic equipment and its amendments.

For more detailed information, see the User Guide.

Charging the Battery

Before using the phone, it is recommended to fully charge the battery first.

1. Connect the smaller end of the USB cable to the USB port of the device.
2. Connect the other end of the cable to the USB charger or other USB port with power source (for example, laptop).
3. Plug the AC adapter to a wall outlet to start charging.

Warning

- Charge only indoors and in dry environments.
- For safety, the overheat protection will be active during charging. If the system temperature reaches above the maximum level, the device will automatically stop charging. The device will only resume charging when normal operating temperature is reached.
- If there is no response after you press the power button or touch the panel, press and hold the 'power button and volume (+) key' for 8 seconds, phone will restart. If you hold the 'power button and volume (+) key' for 3 seconds more, it will hint release key to power off the phone.
- InFocus standard for water ingress criteria
 - (1) Water ingress label become red color or contaminated.
 - (2) Water marks or corrosions on device PCB or components.
- The operating temperature for this device is from 0° to 45°.
- Please make sure the temperature for adapter will not be higher than 50 °C
- Do not store your phone in temperatures higher than 50 °C
- The operating temperature for this device is from -10 °C to 50 °C

WEEE Notice

The WEEE logo on the product or on its box indicates that this product must not be disposed of or dumped with your other household waste. You are liable to dispose of all your electronic or electrical waste equipment by relocating over to the specified collection point for recycling of such hazardous waste. Isolated collection and proper recovery of your electronic and electrical waste equipment at the time of disposal will allow us to help conserve natural resources. Moreover, proper recycling of the electronic and electrical waste equipment will ensure safety of human health and environment. For more information about electronic and electrical waste equipment disposal, recovery, and collection points, please contact your local city center, household waste disposal service, shop from where you purchased the equipment, or manufacturer of the equipment. Do dispose according to the local laws and regulations of your region
