Welcome

Thank You!

We believe in sharing the best technology, designed to be fast, smooth, and user-centric. The OnePlus 6T offers a fast and smooth experience, with an emphasis on speed. Navigating between apps, photos and games is now easier than it's ever been. With speed at the center of its design, the OnePlus 6T now ensures that your time receives its optimum value.

With our continued attention to improve swift and smooth transitions based on a sense of speed, the OnePlus 6T is our fastest product yet. A beautiful combination of sophisticated hardware and software allows you to experience speed like you've never done before.

What's in The Box

OnePlus 6T

Screen Protector
(pre-applied)

Translucent Case

USB Type-C Cable

Power Adapter

SIM Tray Ejector

Quick Start Guide
Safety Information

USB Type-C 3.5mm
Adapter

Device

Power On

Turn on your OnePlus 6T by pressing and holding the <Power> button (found on the right side of the phone) for a few seconds.

Once switched on, simply follow the on-screen instructions to start personalizing your OnePlus 6T.

Setup Wizard

Upon booting up, use Google Wizard to setup your Google account, sync, setup... The OnePlus Setup Wizard allows you to personalize your OnePlus 6T to suit your specific needs and to create a smartphone experience that is tailor-made for you. Customize all the software buttons, gestures and other features to your liking. If you later change your mind or need to make adjustments, simply adjust all of the settings after setup in the settings menu.

Migrating Data - OnePlus Switch

Do you have files you want to migrate to your new OnePlus 6T?

Use the OnePlus Switch app, available in the App Store and Google Play Store, to easily and quickly transfer your files.

The OnePlus 6T comes pre-installed with OnePlus Switch so all you have to do is install the app on the old device, scan the QR code when prompted, and select the items you want to transfer. OnePlus Switch is compatible with most modern smartphones, but be sure to check whether your device is listed in the Play Store.

To download the OnePlus Switch app, please visit [<http://onepl.us/opswitch>]

Insert SIM Card - Dual SIM Card Tray

The OnePlus 6T is carrier-unlocked (works with more than one service provider) out of the box, with dual nano-SIM card support. This gives you the power to connect to two networks simultaneously, allowing you to use one device for everything.

Under Settings, go to SIM & Network settings to adjust your SIM carrier permission and restrictions.

Use the SIM Tray Ejector (found in the box) to remove the SIM tray from the device. Up to two nano-SIM cards fit in the tray.

Screen Unlock

One of the first things you probably do with your new phone is set up your fingerprint during Setup Wizard.

If you haven't done this yet, go to Settings, Security & lock then Fingerprint.

Hidden under the display, you will find our new in-display fingerprint sensor. As soon as you touch the display, the OnePlus 6T unlocks, ensuring you have a seamless and intuitive unlock experience. Screen Unlock is swift and simple and safe.

Face Unlock

With Face Unlock, it takes just 0.4 seconds to unlock your phone. It's practically instant, and easily one of the fastest facial recognition features on any Android smartphone.

To set up Face Unlock, go to "Security & Lock Screen" in "Settings", and select "Face Unlock". Follow the instructions on your screen to complete the setup.

To maximize the strength of Face Unlock, enable the double tap function in your "Settings" menu, look into the camera, and unlock it smoothly and with ease.

Face Unlock will recognize you whether you're wearing a hat, glasses or bedhead – as long as you're awake. (So your significant other can't snoop on your messages while you sleep.)

Alert Slider

The Alert Slider, which is located on the upper right edge of your phone, allows you to effortlessly toggle between 3 notification profiles: Silent, Vibrate and Ring.

Now you don't even have to take your OnePlus 6T out of your pocket. To customize the Alert Slider, go to "Alert Slider" in the Settings menu.

Silent

Calls and notifications will be silenced with no vibration, except for alarms

Vibration

Calls and notifications will be silenced, except for alarms

Ring

Allow sound and vibration

Camera

The OnePlus 6T's rear camera uses a 16 MP main camera, supported by a 20 MP secondary camera. Using Optical Image Stabilization to give you crisp and clear photos with more stability.

To help you get magical images every time, Intelligent Scene Recognition (ISR) analyzes the objects in your frame and beautifully adjusts the brightness, contrast and saturation.

On the front, you'll find a 16 MP front-facing camera, which also features portrait mode to for even more impactful selfies.

Camera Interface

The OnePlus 6T gives you a clear and intuitive interface with all you need to take great photos quickly and easily.

For every camera mode there are a range of settings you can select from on the top settings bar. Use these settings to set the a photo timer, turn on HDR mode, pick the best aspect ratio for your shots, select depth effects and fine-tune your flash.

In case you want to get close in on the action, just tap the zoom button to instantly switch to 2x optimized zoom, or manually adjust the zoom slider to zoom in up to 8x. To quickly switch between camera modes such as Video, Photo, Portrait and Night Mode, just swipe left or right.

Below the camera modes you will find the shutter button in the middle, the switch button between the front and rear cameras on the left and the photo preview button on the right.

Choosing Camera Modes and Settings

Swipe up to reveal various shooting modes, and tap the 'Gear' icon in the bottom-right corner of the screen to open the advanced settings menu.

Within this menu, you can enable Location data, Histogram, Grid styles and add a Shot on OnePlus Watermark. Swiping up also reveals more advanced shooting modes.

Alongside returning features, such as shooting in RAW, Pro Mode, and Time-lapse, the OnePlus 6T also features a Super Slow-motion feature. Shoot your video, and manually select the length and timing of the slow-motion effect. Shoot videos at up to 480fps when shooting at a resolution of 720P, and 240fps when shooting at a resolution of 1080P.

Studio Lighting

Studio Lighting is another great new addition to the OnePlus 6T. Now every portrait you take will look professional with automatically enable studio lighting.

Advanced face detection and superior edge detection dynamically tones shadows and highlights on a subject's face, giving you stunning portraits with a tap of the shutter. No longer do you have to slave around with heavy equipment, just aim and click for stunning pics every time.

Night Mode

With new Nightscape technology, the OnePlus 6T's Night Mode allows you to capture details even after the sun has set.

Night Mode gives you the opportunity to shoot beautiful images in low light conditions, capture movement with long shutter speeds and see night time photography in an exciting new way.

Portrait Mode

We love Portrait Mode and are constantly aiming to improve this feature. On the OnePlus 6T, both the front and rear cameras feature Portrait Mode.

This allows you to capture stunning portraits from any angle. Paired with new custom background blur effects, Portrait Mode helps you take full control of your portraits while being more creative than ever.

To give you a wider range of options for alternative edits, you are also able to save your original photos that don't have the portrait effect. Portrait Mode can be accessed by swiping left in the Camera UI or tapping 'Portrait'.

Video

The OnePlus 6T comes equipped with a variety of video recording options, so you can always find the best mode for the task at hand.

To start recording, just swipe right in the camera UI for quick access or swipe up for additional modes. In video mode, you can manually pick the type of video you would like to record. Shoot in 720P and 1080P, or increase the quality further by shooting at 60FPS in 4K.

The OnePlus 6T features OIS and EIS support for smooth recording and photography.

Video Editor

Take full control of your videos with our brand-new Video Editor tool. Once you've shot a video, you can access our robust Video Editor from within the Gallery App.

Trim a video, add custom filters, and adjust the background music. The editor gives you all the tools you need to express yourself.

Pro Mode

The OnePlus 6T's advanced Pro Mode allows you to take control of certain parameters of your photos. Access Pro Mode by swiping up in the camera UI to customize, among others, the ISO, white balance, shutter-speed, focus and exposure of each shot.

Simply tap on the corresponding button to open the modification wheel of any given setting, and turn the wheel to adjust it.

Pro Mode - Continued

You can also use the histogram displayed in the top of your screen, which helps you gauge the exposure level in the photo in order to properly adjust brightness.

The OnePlus 6T uses a reference line, powered by the gyroscope, to help you align your shots. The reference line can be found in the center of the screen and automatically adjusts to landscape or portrait views, turning green when the shot is perfectly aligned.

Turn on RAW in the top bar for extra editing control in post-production.

Optic AMOLED Display

The OnePlus 6T features an immersive 6.41 inch display that you can freely customize to suit your liking. Each of the four available color calibrations focuses on color accuracy and brightness.

In the settings menu's display section, go to 'Screen Calibration' to adjust your display. For further control, you can manually adjust the color temperature.

Notch display

By default, the OnePlus 6T makes full use of the entire screen.

If you would prefer to obscure the top bar of the screen, you can turn on Notch display in the settings menu, then tap Display. Doing so creates a permanent black bar around the screen cutout at the top of the display. This black bar is then used only to display essential functions such as the clock and notification symbols.

OnePlus Fast Charging

Every OnePlus 6T comes with a custom OnePlus Fast Charging brick and cable. Using the included charger, you can gain a day of power in half an hour of charging. Custom heat-dispersion elements keep the phone cool while charging. The charging speed also remains consistent while the OnePlus 6T is in use.

OxygenOS

OxygenOS is our fastest and smoothest operating system based on Android.

We constantly refine and improve OxygenOS, removing unnecessary distractions, adding meaningful features and making smart software optimizations. Try customizing OxygenOS using the settings menu.

Launcher

All of your apps are alphabetically arranged in your app drawer, for easy access. To further customize your launcher, long-press on an empty space in the home screen to open the launcher options.

Using this menu, you can turn on your favorite third-party icon pack, change your app drawer grid, assign gestures and more. The launcher options menu also enables you to change wallpapers, add widgets, and access the Home Settings menu.

App Drawer

Your app drawer keeps all your apps in one place and neatly organized from A to Z to make accessibility easy and convenient.

To access the app drawer, simply swiping up from anywhere in the home screen and you'll see all the apps you love and need.

Hidden Space

The OnePlus 6T now makes sure that you have a concealed space for all the apps you want to keep away from prying eyes.

In the App Drawer, touch, hold and drag to the right on the edge of the screen to see the Hidden Space specifically set aside for private apps or apps you would like to hide.

Notification Shade

At any time, you can swipe down from the top of your OnePlus 6T to expand the Notification Shade. This menu offers quick access to your notifications as well as the navigation bar. Simply tap a notification to open the corresponding app.

You can expand your navigation bar by swiping down a second time, allowing you to quickly toggle certain functions on or off. Customize the toggles in your Navigation Shade by tapping the pen icon in the bottom-corner of the Navigation Shade.

Shelf

Swipe right from your home screen to open up Shelf. This separate menu grants access to your favorite apps, most frequent contacts and recent photos.

The clean and streamlined UI can be manually enhanced with widgets or customized using a variety of intelligent options.

Gestures

Gestures have been a part of OnePlus since the first device was released and now the OnePlus 6T incorporates improved gestures to enhance your smartphone experience.

Flip calls to silent, control all your music with the swipe of a finger and more. In the settings menu, go to Buttons & Gestures where you will find Navigation bar & gestures as well as Quick gestures. Here you can activate and personalize all the gestures that suit your everyday needs.

App Long Press

For added convenience, a selection of apps can be long pressed for quick access to common functions.

On your home screen, just long press an app icon to open the shortcut menu, and quickly access the feature you're looking for. This enables you to open a new tab in your browser, compose an email, easily uninstall that addictive game you can't stop playing, and more.

Reading Mode

Reading on your smartphone is more comfortable than ever, thanks to Reading Mode. By filtering out blue light, gray-scale mapping, and using ambient information to adjust the sharpness and brightness of the display, Reading Mode simulates the reading experience of a real book.

To access Reading Mode, go to 'Display' in the settings menu. You can also set this mode to turn on automatically when you use certain apps.

Gaming mode

When Gaming mode is turned on, notifications are blocked to ensure you won't be bothered unnecessarily. It also improves app launch speed and network data, increasing performance and reducing latency, while in-game.

You can manually turn on Gaming mode in the Advanced Menu under Settings or by toggling it on or off from within the Notification Shade, accessed by swiping down.

To set Gaming mode to turn on automatically when you start up your favorite games.

Dialer

Tap the  on your home Screen or application drawer and use the dialer  to make phone calls manually, or tap any contact card from the Speed Dial list to quickly dial that contact. Select a contact in Contacts to send an e-mail, a text message, or to make a call.

Contacts are automatically added to your Speed Dial list based on frequency of use. You can permanently pin contacts to the top of your Speed Dial list by marking them as Favorites , simply press the star icon found on each contact card whenever you want to add a contact to your Favorites.

Messenger

To send an SMS, launch the Messenger application found on your home screen and application drawer. Click on the  to start composing. Enter the name or phone number in the field or select someone from your contacts. Type your message and hit send  when you are finished.

For an MMS, in the Messenger application, select the media you want to add. Type your message, then tap .

Gallery

The OnePlus gallery app offers intuitive and streamlined access to your photos and videos. Your photos and videos are automatically sorted by location or upload date, but you can also choose to sort them into custom collections yourself.

We'll make sure all of your masterpieces are tagged by location, making it easier to relive your memories from that special summer holiday. All your geo-tagged pictures will be organized by location in our Gallery app, giving you convenient access to your favorite memories. You can turn the geo-location either on or off by accessing the Advanced Camera Settings in the Camera app.

With 16 different filters, the editing mode allows you to tweak your images with actions like resize and crop.

Weather

This custom weather app provides a real-time look at the weather conditions at your location. The display's visuals dynamically adapt to the environment to indicate different types of weather and environmental hazards like rain or fog.

Recorder

Our dynamic recorder app provides great flexibility and versatility.

Stay on top of your recording by tracking the volume of all incoming sound and manually place timestamps to mark important moments.

File Manager

The File Manager has been enhanced with numerous new features. Users can hide private documents, photos and files in Secure Box, a private zone that can only be unlocked via pin or fingerprint verification.

Files also can be categorized and labeled to make them easier to find, keep track of your files using new storage info, and enjoy a much improved search function.

All of your Google drive files are supported within our File Manager.

App permissions

App permissions allow you to control what information and permissions your apps can access, like location, identity, contacts and more.

To customize these permissions, go to the apps page, found under settings.

Safety Information

This user manual contains all necessary product safety literature.
Please read carefully before using the device, and retain the manual for future reference.

Declaration

OnePlus is trademark or registered trademark of **OnePlus Technology (Shenzhen) Co., Ltd.**. All rights reserved. Without prior written permission of OnePlus, reproduction, transfer, distribution or storage of the contents in this document in any form is prohibited. OnePlus operates a policy of ongoing development. Thus, OnePlus reserves the right to make changes or improvements to any of the products described in this document without prior notice. The contents of this document are all provided “as is”. Except as required by applicable law, no warranties of any kind, either express or implied, are made in relation to the accuracy of this document. To the maximum extent permitted by applicable law, under no circumstances shall OnePlus or any of its licensors be responsible for any loss of data or incur or any special, incidental, consequential, or indirect damages caused. Availability of product supplies, application software, and accessories may vary. For detailed information, please refer to an authorized OnePlus distributor. This device may contain commodities, technology, or software subject to export laws and regulations. Diversion contrary to law is prohibited.

Safety

Failure to follow these guidelines may cause injury to your device, property, yourself, or others.

- Do not switch on the device when prohibited, or when it may cause interference or danger.
- When operating the device in a vehicle, obey and follow all related local laws.
- Do not use the device at gas stations, service stations, or near fuel or chemicals.
- Mobile phones might cause interference with radio frequencies. Check all laws and regulations during a flight.
- Hospitals or healthcare organizations may use equipment that is sensitive to radio frequencies. Please obey all rules and regulations when you are at above facilities.
- All wireless devices may be susceptible to radio frequencies interference, which could affect the performance of your device.
- Only qualified and authorized personnel should perform repairs to this product.
- Please only use branded accessories and batteries that are approved by OnePlus with your device. Accessories which are not approved by OnePlus may damage the phone or cause body harm.
- Water resistant under certain conditions. OnePlus does not recommend excessive submersion.
- When connecting with other devices, please follow the safety guidelines which are presented in this manual.
- Do not attempt to connect your device with incompatible products.

Battery Precautions

- Please do not attempt to repair, disassemble or modify the battery. Do not place or use battery near fires, heaters, direct sunlight, or other heat sources. Prolonged exposure to heat may cause battery leakage, explosions, or fires.
- Please do not place pressure on or pierce the battery with hard objects. Damaging the battery could cause battery leakage, overheating, or fires.
- Battery liquid may cause damage to skin or clothes. If exposed, immediately wash skin with water and seek medical attention.
- If you experience any battery abnormalities, such as high temperature, discoloration, distortion, or leakage, immediately discontinue usage of the device and contact customer support.
- If the battery's internal liquid comes in contact with your eyes, rinse thoroughly and immediately seek medical attention.
- Do not connect your device to a high-voltage power supply or the battery could become damaged.
- All batteries have a limited lifespan and will begin to lose capacity after several hundred charges/discharges.
- Do not dispose of the battery as household waste. Please refer to local regulations.

WARNING: Please do not charge the battery over 12 hours.

To save power and achieve longer battery life

- Features like Bluetooth and Wi-Fi consume more power, please disable these features when your phone is not in use.
- The brighter the screen is set, more energy will be consumed; you can dim the screen brightness and shorten the sleep time in the settings.
- Make sure only using outlets with the correct voltages (as labelled on the adapter) for charging. Using the sockets with incorrect voltage can damage your phone and/or battery and lead to injury.
- Do not use unsafe plugs or outlets.
- Do not use a short-circuit charger.
- Do not disassemble or modify the charger, as this may lead to personal injury, electric shock or fire.
- Do not use the charger in humid environment.
- Do not touch the charger, cable or power socket with wet hands, as this may cause electric shock.
- Do not place heavy objects on the power cord or attempt to modify any cables.
- Make sure to grasp the charger firmly while unplugging it. Do not pull the power cord as this may lead to damage and cause electric shock or fire.
- Before cleaning the device, unplug the power plug from the socket.
- Do not charge the battery under the following conditions: in direct sunlight, in temperatures below 5°C or above 40°C; in the environment with humidity, dust or strong vibrations; in areas near a TV, radio or other electrical appliances.
- The maximum ambient charging temperature of the equipment declared by manufacturer is 25°C.
- The charger is intended for indoor use only.

Driving Safely

- Safety should take priority when you are operating a vehicle. Be sure to obey related regulations in the area or country in which you drive.
- Please do not store or carry your mobile phone or accessories near liquid or flammable gas. Make sure you do not place your phone or accessories near safety air bags.
- Do not rely solely on the GPS in your phone; these applications are only for reference purposes only. Location information changes regularly, and in some places these features are not supported. Map routes and/or compass may be incorrect, incomplete or unsupported.
- Electromagnetic waves (in the surrounding environment or even earphone magnets) can disrupt the accuracy of the compass, so please only use it for reference.
- If you do not wish to disclose your location, be sure not use applications that can record your location. Please obey the rules, law and your local regulations.

Operating Environment

- Please switch off your device whenever phone use is prohibited or when it may cause interference or danger.
- Mobile phones may interfere with the normal operation of electronic equipment and medical devices. Please follow related laws and regulations.
- Your mobile phone's radio waves may interfere with high accuracy electronic equipment.
- Only operate your phone between 0-35°C temperature and 35-85% humidity.
- In extremely rare occasions, the device may affect a vehicle's electronic equipment.

FCC & IC Statement

1. This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions:
 - (1) this device may not cause harmful interference, and.
 - (2) this device must accept any interference received, including interference that may cause undesired operation.
2. This Class B digital apparatus complies with Canadian ICES-003.

OnePlus is not responsible for any radio or TV interference caused by unauthorized modifications or changes to this equipment. Such modifications or changes could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful to part interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna
- Increase the separation between the equipment and receiver
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected
- Consult the dealer or an experienced radio/TV technician for help.

FCC Caution

- Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
- The antenna(s) used for this transmitter must not be co-located or operate in conjunction with any other antenna or transmitter.
- The country code selection is for non-US model only and is not available for all US models. Per FCC regulation, all Wi-Fi product marketed in US must be fixed to US operation channels only.
- If applicable, operations in the 5.15-5.25GHz band are restricted to indoor usage only.

RF Exposure Information (SAR)

This device meets the government's requirements for exposure to radio waves.

This device is designed and manufactured not to exceed the emission limits for exposure to radiofrequency (RF) energy set by the Federal Communications Commission of the U.S. Government.

- The exposure standard for wireless devices employs a unit of measurement known as the Specific Absorption Rate, or SAR. The SAR limit set by the FCC is 1.6W/kg. Tests for SAR are conducted using standard operating positions accepted by the FCC with the device transmitting at its highest certified power level in all tested frequency bands.
- Although the SAR is determined at the highest certified power level, the actual SAR level of the device while operating can be well below the maximum value. This is because the device is designed to operate at multiple power levels so as to use only the power required to reach the network. In general, the closer you are to a wireless base station antenna, the lower the power output.
- While there may be differences between the SAR levels of various devices and at various positions, all meet the government requirement.
- This device has also been tested and meets the FCC RF exposure guidelines for use with an accessory that contains no metal and positions the handset a minimum of 1.0 cm from the body.
- Use of other accessories may not ensure compliance with FCC RF exposure guidelines. Position the handset a minimum of 1.0 cm from your body when the device is switched on.

CE Certification Information (SAR)

The SAR limit of Europe is 2.0 W/kg. This device was tested for typical operation with the back of the handset kept 1.5cm from the body. To maintain compliance with RF exposure requirements, use accessories that maintain a 1.5cm separation distance between your body and the back of the handset. The use of belt clips, holsters and similar accessories should not contain metallic components in its assembly. The use of accessories that do not satisfy these requirements may not comply with RF exposure requirements, and should be avoided.

If you are using a pacemaker, hearing aids, cochlear implant or similar device, please use the phone according to your doctor's advice.

Your device is designed not to exceed the limits of emission of radio waves recommended by international guidelines.

The SAR value of the device may depend on factors such as proximity to the network tower or use of accessories.

E-Waste Disposal Declaration

E-waste refers to discarded electronics and electronic equipment (WEEE). Ensure that an authorized agency repairs devices when needed. Do not dismantle the device on your own. Always discard used electronic products, batteries and accessories at the end of their life cycle; use an authorized collection point or collection center.

Do not dispose of e-waste into garbage bins. Do not dispose of batteries into household waste. Some waste contains hazardous chemicals if not disposed properly. Improper disposal of waste may prevent natural resources from being reused, as well as release toxins and greenhouse gases into the environment.

Additional Important Health and Safety Information

- Please do not use the phone if the antenna is damaged. Doing so may cause injury.
- Do not place the phone near magnetic cards or other magnetic objects. Information stored on floppy discs, memory cards, and credit cards can be damaged by magnetic radiation.
- Please keep metallic objects away from phone receiver. Small metallic objects may be attracted to the device, resulting in personal injury or device damage.
- Keep the phone away from water and other liquids.
- Damage to the display can lead to leakage of the liquid inside the LCD panel. If this liquid comes in contact with your eyes, flush your eyes with water immediately. Do not rub. Immediately seek medical attention.
- Only use OnePlus authorized batteries and chargers with your OnePlus phone. Using third-party products may cause battery leakage, overheating or fires. OnePlus does not take any responsibility for accidents or problems caused by using accessories that are not approved by OnePlus.
- Only connect to power sources with USB 2.0 or above, using certified standard USB cables.

WARNING: Excessive sound pressure may harm your hearing.

Care and Maintenance

Your phone is a product of superior design and craftsmanship and should be treated with care. The following suggestions will help you to prolong the life of your device.

- Please clean immediately if the screen comes in contact with liquid or dust.
- Please do not touch the connection port of the phone, as static electricity may harm components in the device.
- Do not hit, shake, or drop the phone to avoid damage and injury.
- Do not put pressure on the device, as it may damage the screen, battery, or the device itself.
- Do not place the battery, phone, or charger in a microwave oven or other high voltage equipment. Doing so may cause circuit damage, fires, or other damage.
- Do not use the phone around flammable gas.
- Please keep the phone out of reach of children in order to prevent injuries or property damage.
- Do not place the phone on uneven or unstable surfaces.
- Please remember that the phone, battery, and charger are not waterproof. Thanks to enhanced water resistance, the OnePlus 6 can withstand splashes and sweat. However, we recommend keeping these devices away from prolonged exposure to water.
- Use soft cloth that is dry and clean when cleaning the phone, battery and charger.
- Do not use alcohol or harsh chemicals to clean the device.
- Use a soft cloth when removing dirt and smudges. Avoid using your fingernails or other sharp objects to prevent scratching the screen.
- Avoid using dirty sockets when charging your phone. Doing so may cause your phone to fail to charge properly.
- Do not remove the SIM card while the phone is transmitting data or saving information.
- Avoid using modified accessories, which may damage the device or violate local regulations for radio devices.
- If applicable, the user should turn off 5GHz Wi-Fi in outdoor environments.

WARNING: Before using the phone, please read the health and safety information carefully.

Some people may get dizzy or experience medical problems in response to flashing lights. If you are at risk, please consult your doctor before using this device. If you have the following symptoms: headache, dizziness, convulsion, eyes or muscle cramps, loss of consciousness, or involuntary body movements, please stop using the device immediately and seek medical attention. Avoid using the device for extended periods and keep proper distance from your eyes.

EU Regulatory Conformance

Hereby, **OnePlus Technology (Shenzhen) Co., Ltd.** declares that this device is in compliance with the essential requirements and other relevant provisions of Directive 1999/5/EC.

Notice: Please check the local regulations in the location where the device is to be used. This device may be restricted for use in some or all member states of the European Union (EU).
